Departments are general groupings of similar items and each department is then broken down into more specific groups.

For example: Floriculture & Horticulture is the department for all things cultivated which is then broken into sub-groups of like items, like nuts, container gardens or cut flowers.

Likewise, Culinary is then broken down to cakes, breads, jams and jellies and candy.

Divisions define the person entering the item to the fair. Are they an adult? A teenager? In Fine Art they might be a novice or a premium artist.

Divisions are important because they assure that entries are judged in groups of similar skill levels. So items entered by a youth (under 13) would not be judged against a skilled adult.

Class is a more specific definition of the item entered.

Let's say you are 17 years old and want to enter a Chocolate Layer Cake.

You would find the **Department:** Culinary then you would choose **Division:** Cakes - Teen and **Class** 100 – Layer Cakes.
