YOUNG REPORTER

This week we asked Miss Shaw to be our **Castaway**. We asked her how she would survive on a desert island.

Which five things would you take to the island and why?

A Bible - something to read.

Matches - to make a fire.

Blanket - to keep warm at night.

Glasses - to read the Bible.

Biltong - my favourite snack

If you could make one phone call, who would you contact?

One of my children and I would tell them to ring the other one.

If you came across a predator, what would you do?

Climb up a tree as quick I could.

If there was another person on the island, what would you do?

Try to befriend them, and hope they are not a serial killer.

What would you miss about about Somerset?

I would miss the British trees and the seaside.

Which island would you like to be stranded on?

I would like to be stranded on one of the Caribbean islands.

Have you travelled a lot?

I lived in Sweden for three years and taught there as well. Also, I was born in South Africa. I have travelled to the United States and China and in Europe.

What would be your main strategy for survival on the island?

I would use prayer to help me survive on the island.
