

Dear Broker,

AEP is fast approaching and even though Elixir is not commissioning Brokers for any NEW enrollments, Elixir **will continue to pay out the renewal commissions for all members that remain in the RxPlus** plan post AEP.

In order to receive renewal commissions, normally paid out in full in January each year, Brokers/Agents have to remain compliant as per the Centers for Medicare & Medicaid Services (CMS). In order to remain compliant, you will need to complete a recertification process to upload your 2022 AHIP and re-sign the Service Only agreement.

In July, you will receive an email from ElixirAgentSupport that contains a link for you to recertify with us. Included is a Service Only Contract indicating your agreement to continue servicing members you enrolled and who remain in our plan.

To answer a few of your potential questions:

- There will be no onboarding of any NEW Agents this year.
- Every Broker who wants to collect renewal commissions **has to recertify**.
- Renewal commissions will be given in full in January for any member still in the Elixir RxPlus plan for 2022.
- The Secure plan is not commissionable.
- Broker reports, such as Commission Statements, Book of Business and Application Status, is still available on ICM Callidus cloud as usual at <https://eic.callidusinsurance.net/ICM/>

Sincerely,

Elixir Insurance
