

## The IREM DEI vision

IREM is committed to fostering a welcoming environment that continues to embrace diversity, equity, and inclusion. We'll be better tomorrow than we are today.

**Diversity** for us means we embrace our similarities and differences. We welcome all races, ages, genders, gender identities, sexual orientations, creeds, nationalities, national origins, and individuals with disabilities to our community.

**Equity** for us means that we acknowledge that everyone starts from a different place. We elevate individuals by continuously being proactive in identifying and removing unintended barriers that may impede access and success.

**Inclusion** for us means we'll create an environment where individuals in our profession feel valued, respected, supported, and welcome to bring their authentic selves to IREM.
