

4 STEP LAWN CARE SYSTEM

Step 1. April –May (depending on soil temperature)

Apply **Award w/Dimension** Crabgrass Control, lasts up to 120 days, still works up to 3 weeks post emerge. If planting grass seed, skip this step and use Lawn Starter 20-12-8.

Step 2. May-June & Aug –Sept (when temperature between 68-80° F)

Apply **Award w/Trimec** (post emergent for broadleaf weed control) or **Award w/Q3** (post emergent control of Crabgrass and Broadleaf) or **Viper** (post emergent for tough creeping weed control) - Best control when grass is moist. Avoid mowing & watering or rain for 48 hours. Skip this step for new lawns.

Water after 48 hours of application.

Step 3. June-October

Apply turf food **10-10-10** or **Delong Turf Food Fertilizer (24-0-10)**. When temperatures exceed 85° F, cut rate by ½.

*Can additionally apply **Award w/Merit** for grub control.*

Step 4. September & October

Apply Turf Food & Turf Builder for greener lawn. Winter or fall fertilizer (**Winterizer 24-0-10**) for cool season grasses.

NEW Seeding- Use 20-12-8 Lawn Starter fertilizer.

It will give your lawn a great jump start and GREEN grass.

Pre-Emergent Weed Control

Award Turf Fertilizer with Dimension provides season-long control of crabgrass and controls or suppresses other listed summer annual grasses and broadleaf weeds. **Award Turf Fertilizer with Dimension** is a non-staining, low-odor formula that can be applied on established lawns, golf course fairways, roughs and tee boxes.
