

Soil Management

pH Testing

- Performed in Dec-Jan
- Core samples are taken and assessed for proper pH levels for active plants
- Recommend solutions for deviations from ideal

+pH Correction

- Performed after pH testing
- Application of corrective elements to return pH to ideal levels for your specific plant life
- Includes follow-up pH testing after 90 days

+Erosion Control

- Assess and recommend landscaping design/redesign
- Source plant life to meet your vision and erosion needs
- Install plant life responsibly to ensure longevity
- Provide written maintenance plan

+Horticulture Consultation

- Diagnose disease and recommend treatment
- Soil pH testing and recommended treatment
- Shrub & plant advice
- Turf advice

Your vision...
