Dear Parents,

We made it through the first month of “school”, and I must say, it was very smooth. We are all within two months of each other in age, so we have lots of fun together. You might wonder what a typical day looks like in the Yellow Owls room? Well, here it is! We sing songs, read books, explore, dance, climb, laugh, and play with all sorts of toys. I rotate toys in and out all the time so we have different things to discover and learn. We all love musical , light up toys! It’s amazing how just pushing a few buttons can bring us such joy. :) In the weeks to come, I hope to do more painting and sensory projects. . Getting messy is always fun, until it’s time to clean.... Lunchtime is one of those times. It’s full of sensory exploration! All I can say is WOW! I wish there was a bathtub in our room. How convenient that would be. Goals for the future... :)

Let’s meet the kids in the Yellow Owl Class,,,,,

Kira is the one and only girl in the class, and I think she likes that! She is also the oldest and will be leaving our “nest” in the next few weeks 😞. When starting school just a few weeks ago, she was only taking a few steps. Now, she is walking all over the place... and climbing, and rearranging the furniture, and sitting herself at the table.... she is definitely ready for the toddler class, but it’s going to be sad to see her go. Thank goodness we’ll still see her everyday when we play outside or go to the gym.

Levi is the second oldest in the class... he will be turning **1** in just a few short weeks. He stands, walks, and loves to crawl under the cribs and table. Levi is very quick! Whenever he sees an open door, he's there before you know it. He also loves to talk and make noise... the louder the better. His other specialty is dancing. He has the best moves. He can stand, clap, and dance all at the same time.

Maverick is next in line. He can be a serious little fellow, but I have discovered that he has a very silly side. He giggles and gives the cutest looks from across the room. It's usually when he's pushing a high chair back and forth or playing peek-a-boo with his friends, through the toy shelves. I have recently found out that Maverick loves to paint and get very messy. He also found out that paint doesn't taste so good!

Hayes is the youngest in our group, but he is quickly learning how to catch up with his friends. When he first started, he was an expert in the "army crawl". Then, just last week, he started to crawl on his hands and knees. He seems to be doing new things all the time. Hayes is another one who loves to crawl under the table. The only problem is that he doesn't always know how to get out[©]. His favorite things are books, musical toys, and anything he can chew on!

Thanks for a great month,

Ms. Carrie :)
