

Optimizing Performance & Accessing Funding to Improve Small Systems

AWWA and USDA invite Small Systems to attend this free, full-day workshop for small water systems to assess their utilities, and prioritize improvements for optimization.

USDA will then help participants evaluate projects from a “fundability” viewpoint, and will follow up with a thorough demonstration of their online application system: *RD Apply*.

We are hosting two sessions, one in Delaware on September 18th, and one in Maryland, on September 19th.

So bring your team and explore **managerial, financial and technical** opportunities to optimize your system - complementary lunch provided by Chesapeake AWWA! But seating is limited, so register online today.

September 18th 2019 Tidewater Utilities

Engineering Bldg. Training Rm.
1110 South Little Creek Road
Dover, DE 19901
8:00am sign-in
Workshop from 8:30 am – 3:00 pm

September 19th 2019 Talbot County Community Center

10028 Ocean Gateway (US 50)
Easton, MD 21601
8:00am sign-in
Workshop from 8:30 am – 3:00 pm

Participants will:

- Identify top areas for system improvements
- Evaluate critical areas
- Determine if a project is eligible for a loan
- Learn how to apply for USDA loans and grants online

Who should attend from Small Systems:

- Municipal Officials (engineers, clerks, treasurers)
- System Board Members
- Operators
- Consultants who work with small systems

Who can apply for USDA's Water and Waste Disposal Loan & Grant Program:

- State and local government entities
- Not for profit organizations (private or public)
- Federally recognized tribes

Sign up online, through our website www.csawwa.org
Seating is limited and will be prioritized for utilities serving under 2,500
