Do I need a Water Appropriation Permit for my Feedlot?

| Water Use by Animal Type | | |
|---------------------------|--------------------|--------------------------------|
| Animal Type | Water Use/Head/Day | # Animals to Need a DNR Permit |
| Finishing Pig (50-300lb) | 1.05g/head | 2,609 Finishing Pigs |
| Milking Cow (all Weights) | 30.4g/head | 90 Milking Cows |
| Broiler Chickens (5-8wks) | 124.5g/1000 birds | 30,000 Chickens |
| Broiler Turkey (>5lb) | 85g/1000 birds | 32,000 Turkeys |
| Beef Feeder (400-800lb) | 6.60g/head | 415 Feeder Cattle |

Source: University of Minnesota Extension Swine Research Facility—Waseca

Additional Estimations are available by contacting your local DNR Hydrologist

*To estimate annual Water Use
Water Use per Head x Total Head*

= Total Daily Use

Total Daily Use x 365

= Annual Water Use

| DNR Water Appropriation Permit Fees | | | |
|-------------------------------------|----------------|-------------------------|--|
| | General Permit | Permit | |
| Application Fee | \$100 | \$150 | |
| Annual Water Use Fee | \$0 | \$140 (up to 50mg/y) | |

Water Appropriations Permitting Minnesota Department of Natural Resources

Water Appropriations Permits are required for all users using more than 1,000,000 gallons of water per year or 10,000 gallons on any given day (MN Statute 103G.271). Feedlots using less than 5.0 million gallons per year may be eligible for coverage under the General Permit for Livestock Watering and Sanitation if additional conditions are met.

Did you Know

Water Use of 2,750g/day
Is equal to
1,000,000g of Water/year

MPARS

MNDNR PERMITTING AND REPORTING SYSTEM

Permit application is easy! DNR launched the Minnesota Permitting and Reporting System in 2014. MPARS creates a file specifically for each of your DNR permits, allows you to easily communicate with your area hydrologist, and input your water use all in one spot!

Farm to Table
Dodge Refreshed
Making healthy choices a priority

Dodge Refreshed is hosting the first annual Farm to Table Community Dinner on June 23, 2019. Please join us for an evening filled with food, friends, and fellowship. This meal will be locally sourced to help support and promote local farmers and businesses. Omar's Kitchen will be providing their amazing cooking skills and flavors to cater this event. Only 100 tickets are available. A portion of the proceeds will be going to the North Park project in Dodge Center. Please note, this is a 21+ event.

How to Register

By telephone:

Call 507/635-5665

By Email:

mantorvilleartguild@kmtel.com

By Mail or In Person:

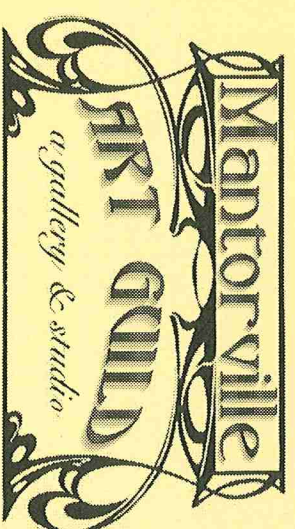

Mantorville Art Guild
P.O. Box 224,
Mantorville, MN 55955

Parents/legal guardians will be required to complete a "2019 Summer Art Camp Student Information & Photography Release" Form prior to the start of camp

Registration is not complete with out payment of camp fee.

In the event a camp is full at time of registration, camper will be placed on a waiting list in the order in which registrations were received. Notification will be made if/when a spot opens or if an additional session is added.

All camps will need a minimum of 3 participants registered 3 p.m. by the Wednesday of the week prior to the start of camp.

Summer Art Camp 2019

This activity is made possible by the voters of Minnesota through a grant from the Southeastern Minnesota Arts Council thanks to legislative appropriation from the arts & cultural heritage fund.

Camp #1: Pottery
 Date: June 10 & 11 • Time: 9am-11:30am
 Instructor: Gini Cormack
 Ages: 8 to 10 • Cost: \$32.50
 Description- Coil Bowl & Spoon: Learn to roll consistently sized clay coils and how to use them to create your own bowl. We'll also make a soon so you can have a personalized cereal or ice cream bowl this summer. Pieces will be finished with lead-free glaze to be food safe.

Camp #2: Pottery
 Date: June 12 & 13 • Time: 9am-11:30am
 Instructor: Gini Cormack
 Ages: 8 to 10 • Cost: \$32.50
 Description- Coil Bowl & Spoon: Learn to roll consistently sized clay coils and how to use them to create your own bowl. We'll also make a soon so you can have a personalized cereal or ice cream bowl this summer. Pieces will be finished with lead-free glaze to be food safe.

Camp #3: Pottery
 Date: June 10 & 11 • Time: 1pm-3:30pm
 Instructor: Gini Cormack
 Ages: 11 to 13 • Cost: \$38
 Description- Slab Plate, Bowl & Mug: Learn how to roll clay slabs. Using a template, we will cut out three different sized squares and turn them into functional plates, bowls, and mugs! Your pieces will be finished with a lead-free glaze so you can safely enjoy using them.

Camp #4: Pottery
 Date: June 12 & 13 • Time: 1pm-3:30pm
 Instructor: Gini Cormack
 Ages: 11 to 13 • Cost: \$38.50
 Description- Covered Keepsake Dish: Create a container to keep your treasures from getting misplaced. We will use a combination of pinch and coil techniques to build texture and design into the walls of your piece. Your glazed container will be about 5 inches tall.

Camp #5: Mancala
 Date: June 17 & 18 • Time: 9am-11:30am
 Instructor: Gretchen Lohrbach
 Ages: 8 and up • Cost: \$30
 Description: Students will learn the history of the 3,000 year old game of Mancala and learn to play! They will decorate their own Mancala board using paints, stamping, decoupage, and embellishments of their own choosing.

Camp #6: Painting
 Date: June 19 & 20 • Time: 9am-11:30am
 Instructor: Jean Ryan
 Ages: 8 to 12 • Cost: \$30
 Description: The class will explore contrasts in color and how one color complements another. We will make abstract paintings. These can be turned into cards, bookmarks, or framed paintings.

Camp #7: Paper Dolls
 Date: June 17 - 20 • Time: 1pm-3:30pm
 Instructor: Gretchen Lohrbach
 Ages: 8 and up • Cost: \$60
 Description: Students will create several original paper dolls and clothing for them using fabrics, pre-printed papers, and their own patterns using sampling techniques and colored pencils. They will be able to decorate a unique folder to house their dolls as well.

Camp #8: Photography
 Date: June 24 - 27 • Time: 9am-11:30am
 Instructor: John Flatten
 Ages: 9 through teen • Cost: \$60
 Description: Learn about exposure, lighting and closeups of bugs and flowers, "macro photography," and how to "freeze" or slow down flowing water. Students will learn how to shoot in manual instead of letting the camera do the work for you. You will need a camera: point and shoot DSLR or a cell phone, but a camera is better. We will look at some old-fashioned cameras that use film. We will print your "best shots" and make a card or two to take home for yourself or to give as a gift.

Camp #9: Collage
 Date: June 24 - 27 • Time: 1pm-3:30pm
 Instructor: Theresa Hoaglund
 Ages: 5 and up • Cost: \$60
 Description: Students will design a 2 foot by 3 foot foam board wall hanging using paint, fabric, music sheets, stencils and cut out designs, words and other treasures. If time allows, we will design a smaller collage with dried leaves.

Camp #10: Cartooning
 Date: July 15 - 18 • Time: 9am-11:30am
 Instructor: Cheryl Frack
 Ages: 9 to 12 • Cost: \$60
 Description: Illustrators will explore the basic principles of cartooning from simplification, line and exaggeration ending with the creation of a one panel gag cartoon.

Camp #11: Painted Chair
 Date: July 15 - 18 • Time: 1pm-3:30pm
 Instructor: Theresa Hoaglund
 Ages: 8 to 12 • Cost: \$60
 Description: Students will design and paint a chair using a sunflower or a dragon as the main topic.

Camp #12: Jewelry
 Date: July 22 - 25 • Time: 9am-11:30am
 Instructor: Gayle Dahl & Cheryl Anderson
 Ages: 8 and up • Cost: \$60
 Description: This class will explore many ideas using many different components to make jewelry. Beads, leather, wood beads and much more will be used. We will also design and make pendants or charms with shrink plastic and polymer clay.

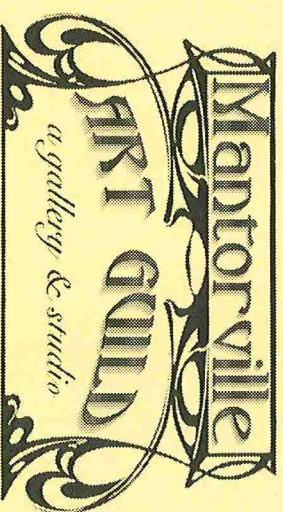

Camp #13: Fiber Arts
 Date: July 22 - 25 • Time: 1pm-3:30pm
 Instructor: Anne Thiemann
 Ages: 5 to 12 • Cost: \$60
 Description: Students will learn how to weave a small mug rug, create a 3D animal out of wool rowing and do some needle felting. They will learn about the history of weaving and needle felting and knitting. They will take 3 to 4 projects home.

Camp #14: Painting
 Date: July 29 - August 2 • Time: 9am-11:30am
 Instructor: Gayle Dahl & Theresa Hoaglund
 Ages: 5 to 8 • Cost: \$80
 Description: In this class we will cover many mediums including watercolor, colored pencil, acrylic, and more. We will be studying two famous artists, Grant Woods and George O'Keefe. We will then adapt to our own style after learning about them.

Camp #15: Painting
 Date: July 29 - August 2 • Time: 1pm-3:30pm
 Instructor: Gayle Dahl & Theresa Hoaglund
 Ages: 9 through teen • Cost: \$80
 Description: In this class we will cover many mediums including watercolor, colored pencil, acrylic, and more. We will be studying two famous artists, Grant Woods and George O'Keefe. We will then adapt to our own style after learning about them.

Camp #16: Painting
 Date: August 5 - 8 • Time: 9am-11:30am
 Instructor: Jean Ryan
 Ages: 8 through 12 • Cost: \$30
 Description: The class will explore contrasts in color and how one color complements another. We will make abstract paintings. These can be turned into cards, book marks, or framed paintings.

Camp #17: Floral Arranging
 Date: August 5 - 8 • Time: 1pm-3:30pm
 Instructor: Theresa Hoaglund
 Ages: 5 to 8 • Cost: \$60
 Description: Students will learn the art of floral design. They will create several pieces using many natural items including wood, stones, grapevines, and dried stems. They will use both silk and plastic greens and flowers.

HISTORY

Mantorville is a historic delight to visit. It is nestled in a picturesque valley of the Zumbro River. You and your family will discover the same charm that brought the Mantor brothers in 1854 with their families, and inspired the citizens of Mantorville to preserve the entire 12 block downtown by placing it on the National Historic Registry in 1975. This status is shared with such places as Williamsburg, Philadelphia, and Boston. There is a wealth of architectural heritage, talented artists, fine dining, entertainment, exquisite shopping, festivals and everyday activities for all ages and interests.

HELP STOP FACTORY FARMING!

The Most Destructive Industry Facing the Planet Today

Climate Change

Livestock is responsible for 65% of nitrous oxide emissions. *Livestock's Long Shadow: Environmental Issues and Options*, Food and Agriculture Organization of the United Nations, 2006.

Scientists attribute rising methane levels to agriculture. H. Schaefer et al. *A 21st Century Shift from Fossil Fuel to Biogenic Methane Emissions Indicated by $^{13}\text{CH}_4$* , Science (2016).

Water Use - United States

Agriculture is responsible for 80-90% of U.S. water consumption. *USDA ERS-Irrigation & Water Use*, United States Department of Agriculture Economic Research Service, 2013.

Water Use - State of Minnesota

Statewide, groundwater use has increased 35% over the past 25 years. In some areas, groundwater use has increased by as much as 175%. Minnesota DNR website.

Water Contamination - Southern Minnesota

MPCA study confirms elevated nitrate and phosphorus levels, particularly in southern Minnesota. Half the lakes and rivers in southern Minnesota are too polluted much of the time for safe swimming and fishing. *Swimmable, fishable, fixable?* MPCA (April 2015)

Animal Waste

Every minute 7 million pounds of excrement are produced by animals raised for food in the United States. *What's the Problem?*, United States Environmental Protection Agency; *How to Manage Manure*, Healthy Landscapes.

Animal Waste - State of Minnesota

Estimated population of the State of Minnesota as measured by manure output is 50 million due to operation of an estimated 18,000 registered feedlots. MPCA website.

Dodge County Concerned Citizens

| Estimated number of feedlots in the State of Minnesota (per MPCA) | 18,000 |

Don't Miss!

The Dark Side of the Other White Meat - While California scrambles to preserve its dwindling water supply, Big Ag is squandering Minnesota's valuable water resources and leaving a trail of contamination in its wake. It's no surprise that half of the lakes and streams in southern Minnesota are too polluted for recreational activities. In Dodge County and around Minnesota, our groundwater is at risk of overuse and contamination – and data suggest that factory farms are to blame. Dodge County Concerned Citizens invites you to view the recently released documentary, *The Dark Side of the Other White Meat*. For further information, go to dodgecc.org.

NATIONAL
CORN GROWERS
ASSOCIATION

WORLD OF CORN 2019

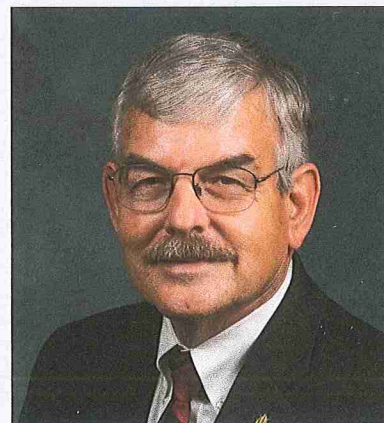

A Letter from NCGA

In 2018, America's corn farmers demonstrated again how the world of opportunities corn farmers create truly does a world of good. Using practices that care for the land, air and water, corn farmers grew another record-setting crop that will feed and fuel a healthy, growing world. This crop continues to offer innovative solutions that help us all care for our world with the same passion as the farm families who view it as their legacy. As the World of Corn continues to grow, we invite you to take a moment to learn more about how amazing maize can be.

U.S. Ethanol Production Facilities

Ethanol is a powerful force in realizing a reduction in our dependence on crude oil. Thanks to ethanol, plant-based biofuel is the fastest-growing renewable energy technology.

The renewable fuel industry provides tremendous job creation for rural America, directly supporting nearly 86,000 jobs.

Science for a **better life**

Our roots *run deep*

Chances are, you've seen us around the house, or around the yard. In the store, or even out in the field. In fact, families and farmers have turned to Bayer for six generations and counting.

Because for over 150 years, we've been right by your side. Advancing the health of the people, plants and pets you love.

Thank you for trusting us, then and now.

bayer.us

@BayerUS

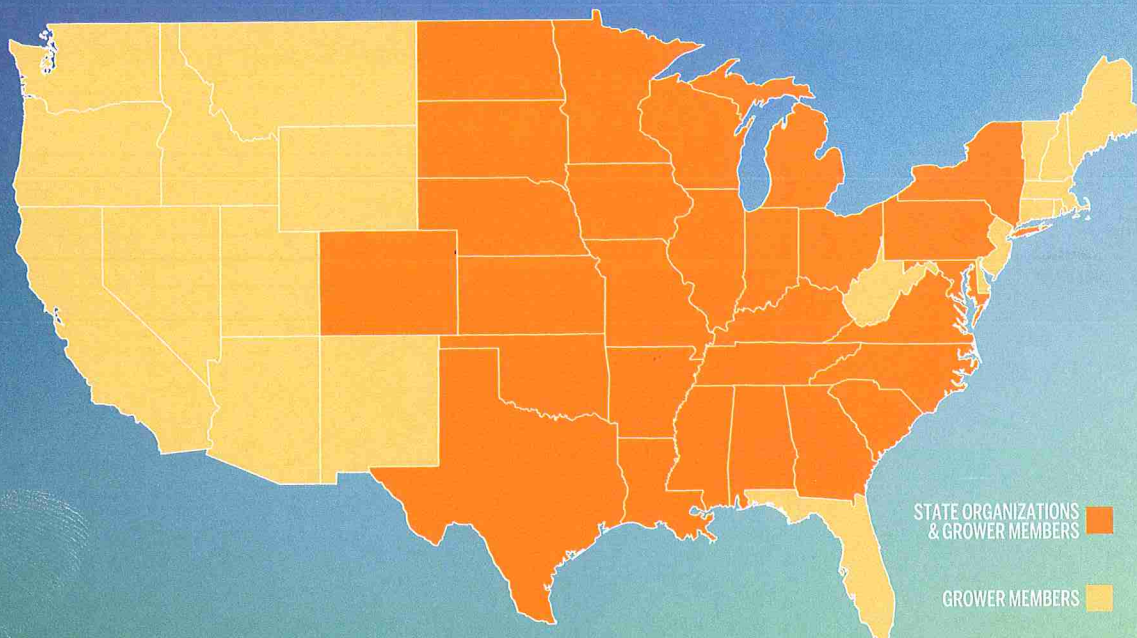

bayerus

Founded in 1957, the National Corn Growers Association represents nearly 40,000 dues-paying corn farmers nationwide and the interests of more than 300,000 growers who contribute through corn checkoff programs in their states. NCGA and its 50 affiliated state organizations work together to sustainably feed and fuel a growing world by creating and increasing opportunities for corn growers.

SUMMARY OF PERMITTING & RULES

RULE 4. STORMWATER

A review of the MPCA, NPDES Application and is required for any development of property or a series of projects in close proximity resulting in the creation of one acre or more of Impervious Surface ("Impervious Surface Property"). Within 5 days of submitting the MPCA, NPDES application to MPCA, the applicant must submit a copy of the application to the District for review. A copy of the approved permit must be submitted to the CRWD office.

RULE 5. DRAINAGE - A PERMIT IS REQUIRED IF.....

1. If you are cleaning a ditch (public or private) including trees, shrubs and sediment, you need a permit.
2. Construction, reconstruction or laying of any bridge or culvert, you need a permit.
3. Driveway culverts may not require a permit, please contact the office to clarify.
4. If making Improvements, "enlarging, extending, straightening, or deepening of existing Open Ditch or Public Drainage System", you need a permit.

RULE 6. FLOODPLAIN - A PERMIT IS REQUIRED IF.....

1. Alteration or filling of land below the projected 100 year high water elevation of a waterbody or detention area.
2. Construction of a structure with a low floor elevation lower than the 100 year floodplain.

Floodplain line is defined by FEMA or another source as acceptable to the CRWD.

RULE 7. WATERBODY ALTERATIONS - A PERMIT IS REQUIRED IF.....

1. If you are intentionally flooding land, enlarging a wetland or other Waterbody by means of diversion, detention or impoundment, you need a permit.
2. If you are constructing, installing, or altering of a Water Control Structure in any Waterbody, you need a permit.
3. If you are diverting water into a different Hydrological Unit, you need a permit.

RULE 8. EROSION CONTROL - NO PERMITS ARE REQUIRED BUT..

1. Land disturbing activities greater than one acre must submit copies of MPCA stormwater permit applications including erosion and stormwater runoff control plans. Before work begins, the District must have an opportunity to review and comment on plans.
2. All land disturbing activities less than one acre and greater than 2500 square feet are required to have a erosion and sediment control best management practices in place. See rules for list of best management practices.
3. Agricultural land within the District must control erosion to rates no greater than soil loss tolerances as defined by NRCS /RUSLE 2.
