

**If the party is at
your house, don't
invite the fireworks.**

The Ventura Fire Department reminds all residents that fireworks are not legal in Bell Canyon, they are not toys, they burn up to 1200 degrees, and they are a serious fire danger. The use and possession of fireworks could result in a fine and/or jail term.

There have been reports that fireworks have been seen and heard in Bell Canyon over the last several days. This is dangerous for several reasons. **It's simple. No fireworks of any kind are allowed in Bell Canyon.**

Thank you.
