Discussion of a Saturday breakfast meeting, a time before our monthly meeting where more seasoned turners can assist newer turners with issues. Offers by club members with workshops to share their knowledge one morning or afternoon to interested members. More on these efforts as they come together.

TRI-COUNTY WOODTURNERS

Minutes for the July 2019 Meeting

Our meeting was called to order, July 10, 2019 by our club president, Wayne Wiggins with the reciting of the Pledge of Allegiance to our flag. A prayer was offered following the pledge.

GUESTS:

We had a nice crowd with several visitors. We trust they found the meeting beneficial and will come back again.

Sign in sheets were passed. A current updated membership list can be found on our website.

TREASURER'S REPORT:

Our treasurer's report was presented. The complete and updated monthly treasurer's report is available each month on our website as attached to these Minutes.

EDUCATIONAL INSTRUCTION:

Our next Turn and Learn opportunity will be held July 27 at the Florida School of Woodworking. It will begin at 9:00 am. The project will be Pepper Mills...you may create one for a cost of \$15 or two for \$30. This will include the walnut blank. Should you have a blank which you prefer, bring it. Lunch will be available for \$10.

SAFETY INSTRUCTION:

Our Safety Instructor, Cathy Rogers provided information on a very important topic.... **TURNING WHILE IMPAIRED.** Obviously, there should be no turning activity while intoxicated or on medication which may affect your response, reactive or judgement skills. Other causes which are not considered yet equally as dangerous are sleep deprivation and dehydration. Reflexes are not as responsive when your body is not rested or hydrated. It does not take long in our location to become dehydrated. If you feel you're just not at 100%.....wait until you do.

FOR SALE:

Art Worth mentioned receiving a number of donations of various equipment which will be offered to the club....watch for the emails of these items.

OLD BUSINESS:

AAW discounted membership for \$30 is still available for **NEW MEMBERS.**

Volunteers are still needed for set up, take down, put away....if you can give a few minutes, jump in and help where you can.

Our DVD library continues to grow...we have a huge variety of turning instruction from top turners! Not only OUR demonstrations but symposium segments also. Great thing about DVDS is you can watch it, back it up, watch it again until you're comfortable with the technique. Only \$2 per month...what a bargain!

NEW BUSINESS:

Discussion is ongoing regarding the update of our video and audio equipment. Carl and Jan Brown are gathering information on the options and costs involved but they are in need of assistance in running down specific information which can be secured by phone calls. If you can help in this area, please give Carl a call and let him know you are available. Once the best options and costs are determined, Carl will present the suggestions to the club for discussion. It would be of major help to have additional people willing to help in this area....putting up tripods, getting the overheads in place...all the things that are not seen which Carl, Jan and Mark do before and after the meetings.

It is time to begin thinking of the slate of officers for 2020. If you would like to be considered for president, vice president, secretary, treasurer or feel there is someone duly qualified that you would like to nominate, please let Wayne know.

Our annual Christmas Party will be here before we know it! We need volunteers for turkey or ham cooking, decorations, music, and entertainment....discussion regarding eliminating the Chinese Gift Exchange. There did not appear to be opposition. Change is good. If you are interested in helping with the Christmas Party, please contact Pat Bates 813.310.2491.

Florida School of Woodworking is restructuring their location. Our lathes which are located at the school and used for the Learn and Turn classes will have to be relocated. Rudy Lopez is making room for this equipment and for the Learn and Turn classes to be held at his studio. This is a temporary solution.

Work is scheduled on our meeting location which will require that we remove all our supplies and equipment. This will take place July 15, 16 or 18. Please look for the particulars on this within the next week or so via email. All efforts are being made for them to allow our lathe to remain there during the building maintenance. We will need help in moving our "stuff"...hopefully not the lathe.

SHOW AND TELL:

John took us through the beautiful bowls, pens, grinder on display. Amazing talent in our membership!

RAFFLE:

A huge amount of wood was offered for raffle! Everyone that bought a ticket took home the start of something beautiful.

EXCELLENT DEMONSTRATION:

Our demonstration was presented by the very talented, Franck Johannesen. Franck is the founder of the AAW chapter of Sarasota Woodturners. He learned woodturning at his Grandfather's side in Norway while building rowboats. We are very fortunate to have seen the demonstration on turning a Norfolk Island Pine urn. The end product is phenomenal!!!!

APPRECIATION:

To all who assist in making the meeting possible, set up, clean up, video and other areas of service, a huge thank you!

Thank you to all that participated. Bring a fellow turner with you in August!

TRI-COUNTY WOODTURNERS

Minutes for the September 2019 Meeting

Our meeting was called to order by our club president, Wayne Wiggins with the reciting of the Pledge of Allegiance to our flag. Our vice president led us in a moment of silence and word of prayer in remembrance of a day in history we shall not forget. Most remember exactly where we were the instant the first plane struck our World Trade Center, the Pentagon and the brave actions aboard the hijacked planes in an effort to avoid further disaster.

Sign in sheets were passed and completed to satisfy the government requirements for public usage. Another diligent effort to be sure our email and phone information is accurate. Hopefully this update will provide the most up to date information. If you change your email address or phone, please remember to update your Tri County file.

EDUCATIONAL INSTRUCTION:

Reports of our last learn and turn which featured a variety of salt and pepper shakers, unique woods and shapes were great. What a great personalized Christmas Present for someone who has everything! Our Educational Officer provided information on our next learn and turn which should be equally as interesting and rewarding. This instruction is to be held October 12 at the Wood School and will feature ornaments to grace the most beautiful, unique or whimsical tree. These, too, would make wonderful presents. Another "sign up" option will be available at our October meeting.

SAFETY INSTRUCTION:

We missed Cathy's excellent coffee and her informative safety presentation in her absence.

TREASURER'S REPORT:

Our President, Wayne, provided the dollar figures, in absence of our treasurer. With much appreciation, we find with the watchful eye of our treasurer, we still have funds available for the EXCITING upcoming expenditures!

NEW BUSINESS:

This brings us to our NEW BUSINESS – which may be considered OLD BUSIENSS as well, as much discussion, investigation, comparison on the subject. Aside from gathering as a like-minded group to share a hobby we love, we also gather for the instruction given by one of our own or a crafter willing to share a particular style or method of creation. Thanks so much to all of you are able to do so...we take away a new or improved creation with each demonstration. Being able to hear the instruction and see each step clearly is paramount. The need for updated and improved audio/visual equipment has been on the front burner for some time.

We are so fortunate to have the best of the best at the helm of Tri County's production efforts. Carl and Jan have spent countless hours on every aspect of making available to our membership top quality reproductions. This is such a valuable asset...for those unable to attend a particular meeting as well as those that want to review the process step by step....the quality of our instruction material is second to none. Thank you again, Carl and Jan! They feel moving in the direction selected, will not only upgrade the system but will allow enhancements in the future. After discussion, an allocation of \$2,000 was suggested for the wi-fi, video, duplication and streaming.. A motion was made to move forward with the \$2,000 allocation, Mark voiced a second and the motion was unanimously carried.

CHRISTMAS PARTY:

Unfortunately, due to a health issue which hopefully will turn around in a few months, I will not be of value in helping to create a spectacular Christmas event. The angels married to our President and Vice President have so graciously stepped up to plan this year's event. Much help is needed BUT if everyone will take on one or two responsibilities, it will lighten the load and make for a fun and successful Christmas event.

A VERY SUCCESSFUL 2019 is quickly moving toward 2020 and with that a service opportunity is arising. Our very effective and efficient Vice President, serving so well, has agreed to continue in his position. Jim McLure, treasurer extraordinaire, has graciously agreed to continue to monitor the money. Our two offices available are PRESIDENT and SECRETARY. If you have interest in either of these areas of service, please make Wayne aware.

BUY AND SELL:

Several shops of our membership are being dismantled or downsized. This inventory and information on location is being provided by email updates by John Malinowski.

SHOW AND TELL:

Wayne led us through the beautiful items on display which had been created by our membership during the previous month. Several of the Turn and Learn sets were shown, a confirmation of just how much one learns at the teaching sessions! Norfolk Pine wall sconces were amazing. The absolutely cutest mouse graced the display table...along with amazing bowls, urn, fluted bowl, and Beautiful works of art...thank you to all that shared your talent with us.

VISITORS:

Our very special visitor was EXTRA KIND to our drawing. HE contributed several LARGE quarters of gorgeous wood...also a number of bowl size Norfolk Island Pine. Thanks to our VISITOR! PLEASE do come back!

Our fascinating demo by DON GEIGER was a wealth of information on many levels. The demo title was, "TURNING A BOWL FROM A LOG". Much safety information was included as he taught. He also has created several instruments which assist in measurement which he makes available to those interested. Don resides in Newberry, Florida. Don's demonstration was informative and entertaining. His website is very informative as well, so feel free to see what is on his webpage at: www.geigersolutions.com.

We look forward to seeing you at our October meeting. Bring a show and tell and a fellow woodturner!
