

## Chris Hebberecht - Evergem (BE) is, with 'Ike', top candidate for winning the 1° National Ace pigeon Long Distance KBDB 2010!

In our reports in the 'Look at the week'... we have repeatedly made allusions to the fact... that Chris Hebberecht lay or lies in 'pole position'... for winning the 1° National Ace pigeon Long Distance KBDB 2010.

Although you can't sell the skin until you have caught the bear... because it is often in the 'last races' of the season that the

prizes are determined. The national Tulle last week was then also the last race that qualified for this 'Ace pigeon title'... and for which a few pigeons the chance had to try to equal the pigeon from Chris Hebberecht. Seeing that this season in addition to national and zonal results... also the provincial results qualified... there is always the chance of surprises, and suddenly an 'Ace pigeon' can appear which nobody had expected. Hence our circumspection in this matter ... Certain media had already headlined the victory for Chris Hebberecht... although he had a very close assailant in the pigeon from Van Hee-Decoster... likewise a 'super crack' with a 6° Nat Limoges and 5° Nat Souillac (in addition to a 13° Nat Chateauroux 17.109 p. earlier in the season, which didn't qualify for the title of 'Nat. Ace pigeon Long Distance') but performed better in both races than the pigeon from Chris... Tulle therefore had to deliver the verdict in this matter! However they immediately removed all the tension in Jabbeke... by simply not entering their pigeon for Tulle! A missed opportunity? A question which we will never know the answer to... but nevertheless an important fact! Because through this the chances of Chris Hebberecht winning this 'national Ace pigeon title' shot up dramatically! It is the 2 year old super crack 'Ike' which at the moment has the 'smallest coefficient' known to his name... a 'new tyrant' in the Hebberecht lofts... who is ready to follow in the footsteps of his illustrious predecessors in the Hebberecht lofts so as 'AXL' (1° Nat Ace pigeon Grand Distance KBDB '05), 'Pancho' (2° Nat Ace pigeon Long Distance KBDB '04), the 'Champion' (2° Nat Ace pigeon Long Distance KBDB '05)! Admit it... not many of u scan breed, race and 'win' such a series of Ace pigeons... in their own loft!

This 'Ike' is not just any old pigeon as it turns out... in the four national races that he took part in, he always ended in the 'top 46' national... simply phenomenal, and something which has seldom happened!

**Magnificent Long Distance season 2010**

If you ask us, this Chris Hebberecht is not only the top candidate for winning the ° Nat Ace pigeon Long Distance KBDB 2010, but also in many other championships his name is shining at the front or at the top of the list! The logical consequence of a magnificent sport season 2010... whereby the Hebberecht pigeons often rolled over the competition. You would otherwise have to ask them in the famous 'fondclub Lokeren'... where there was just no end to the mastership of the Hebberecht pigeons... that becomes clear from the results below. We have selected a few of the prizes achieved 'Top 100 National'... a list that is far from complete since not all the results are yet known... so that you can browse through the honours list achieved in the races of the national long distance calendar!

As shown in these figures, Chris Hebberecht has had one of the best sport seasons ever... fighting for the victory flowers every week on virtually all fronts... often achieving incredible performances... it's not for many. Especially as Chris doesn't race with the 'mass'! We can only conclude that the Chris Hebberecht stock belongs to one of the best breeding stocks of our country... possible the best breeding source of our country at present where the long distance and grand distance is concerned! A breeding source which hasn't only bred a heap of crack pigeons over the last few seasons... but also 'Ace pigeons' up to national level!
