FALL PREP FOR WINTER

COVER CROPS: Hohl's Carries Certified Seeds & Bin Run

RYE

Rye offers the advantage of being the easiest cereal grain to establish in poor soils and having the greatest cold tolerance. Rye offers the greatest production for hay or pasture ground because of its quick growth both in the fall and spring.

WHEAT

Wheat has good potential for forage and is usually higher in quality than rye, triticale and oats but not barley. However, wheat usually produces more dry matter than barley.

4 STEP LAWN CARE SYSTEM

- Step 1.** April-June (depending on soil temperature)
Apply **Award w/Dimension** Crabgrass Control, lasts up to 120 days, works up to 3 weeks post emergence.
- Step 2.** May-June & Aug-Sept (when temperature is between 68-80° F)
Apply **Award w/Trimec** (for broadleaf weed control) or **Award w/Q3** (for creeping weed control) - Best control when grass is moist. Avoid mowing. **Water 48 hours after application.**
- Step 3.** June-August
Apply turf food **10-10-10** or **Delong Turf Food Fertilizer**. When temperatures exceed 85° F, cut rate by 1/2. *Can additionally apply **Award w/Merit** for grub control in August.*
- Step 4.** September & October
Apply Turf Food & Turf Builder for greener lawn. Winter or fall fertilizer (**Winterizer 24-0-10**) for cool season grasses.

NEW Seeding - Use 20-12-8 Seed Starter fertilizer. It will give your lawn a great jump start and GREEN grass.

\$1.00 Off
Trophy Rock

Stock your Freezer for Winter with 1/4 or 1/2 Farm Raised Beef. Call Myron: 608-617-6250

LAWN CARE:

The summer of 2017 has been a difficult one to control the weeds, especially Creeping Charlie!

Get Rid of the Creeping Charlie:

Start now and treat again in the Spring. **Award with Q3** is very effective, as 2, 4-D is the Main active ingredient mixed with Dicamba and Quinclorac. This granular weed and feed provides plant nutrients and controls a broad spectrum of broadleaf and creeping weeds in turf grass. This granular mix is easy to apply with a spreader on a dewy autumn morning. In the spring, follow up with our easy 4 Step Lawn Care System.

For more information, visit:

<https://wpt.org/Wisconsin-Gardener/Segments/creeping-charlie>

Fall Lawn Food Winterizer 22-0-10 provides essential nutrients to promote lush turf, increased resistance to disease, and promotes healthier turf during winter dormancy allowing for a quicker spring green up. This product will improve the color, density and uniformity to the turf plus provide a long lasting feeding.

NEW ITEM:

Features:

Digestible diet designed to meet nutrient needs without adding stress on the liver and kidneys
 Contains Zeocard - a total GI track buffer and Ion exchange ingredient.

Only \$15.³⁵/50# Bag
