International College of Angiology

Founding Fathers and Past Congresses

The founding fathers of the International College of Angiology were Dr. Saul Simon Samuels and Dr. Rene LeRiche. It was Dr. Saul Samuels who in 1942 coined the name “Angiology” from the Greek words meaning the “science of the blood vessels.”

The International College of Angiology was organized and chartered in 1958, in order to encourage, support, and facilitate research and education in vascular diseases. It was the founding fathers of the International College of Angiology that have made our College unique, in that it integrates the discipline, knowledge, and skills of several specialties, which treat the many faceted illnesses that result from disorders of the vascular system.

57th Annual World Congress—ICA 2015

7th National Symposium on Vascular Medicine-ANVIN

General Program Information

Congress Description/Objectives

The overall mission of the 57th Annual World Congress of the International College of Angiology is to bring together basic and clinical scientists to share universally current knowledge and techniques in angiology to update the pathophysiology of disease, clinical diagnostic methods, and treatment for improved healthcare delivery and future research.

The ICA Annual World Congress provides a forum for the synthesis of *State-of-the-Art* information that encompasses the pathophysiology, clinical diagnosis, and treatment of vascular diseases as they are encountered by primary care physicians, vascular, general, thoracic, cardiothoracic, and cardiovascular surgeons, neurosurgeons, cardiologists, internists and cardiology and vascular interventional radiologists.

This Congress is designed to offer a serious academic forum to those physicians and allied healthcare personnel interested in research, education, and clinical investigation in the field of cardiovascular diseases. The congress is intended to provide an in-depth review of the spectrum of topics related to the management and new treatment modalities, including diagnosis, assessment, intervention, risk factors management and surgery.

The global goal of this Congress and Symposium are to communicate a commitment by providing needs-based education that is independent of commercial interests and foster changes in target audience knowledge, competence and performance to ultimately improve patient outcomes.

At the conclusion of this activity, the attendees should be more confident in their ability to:

1. Examine concepts related to cardiovascular diseases.
2. Discuss strategies to improve patient outcomes in managing cardiovascular diseases.
3. Analyze treatment strategies that involve complex patient situations with multiple contributing risk factors.

Learning Objectives

Upon completion of our continuing medical education activities, the participant should be able to:

- Describe and apply the value of an integrated approach to the diagnosis and treatment of cardiac and vascular disease.
- Assess and differentiate between competing technologies for vascular intervention.
- Choose when and how to appropriately apply various interventional and non-interventional procedures in the treatment of vascular disease.
- Describe new developments and techniques that will impact performance, practice, and patient care in the future.
- Apply the most recent developments in the diagnosis, medical management, and treatment of cardiac, peripheral vascular and cerebrovascular disorders in order to make improved patient care decisions based on outcome and cost.
- Enhance knowledge in the practice of treating vascular disease.
- Evaluate treatment options for asymptomatic and symptomatic patients with carotid artery disease.
- Define the treatment options of patients with abdominal aortic aneurysms to minimize morbidity and mortality.
- Identify and explore new research problems for future collaboration.

All presentations have a purpose while providing a balanced view of diagnostic and therapeutic options followed by constructive debate. These objectives are achieved through invited guest lectures by nationally and internationally recognized leaders, special symposia, special guest lectures and exhibits, highlighting the most challenging and controversial procedures performed in interventional medicine. Submitted abstracts and invited guest lecturers serve as a major part of the overall program. A significant portion of the program is reserved for question and answer interaction between the presenters and the audience.

Disclaimer

The information provided at this CME activity is for continuing education purposes only, and not meant to substitute for independent medical judgment of a physician relative to diagnostic and treatment options of a specific patient's medical condition.

Instruction to Speakers

We remind speakers presenting submitted oral papers their presentations are limited to ten (10) minutes with an invited discussion following the session. Speakers presenting submitted poster presentations must limit their presentation to seven (7) minutes. **All presentations (ORAL and POSTER) are to be given in PowerPoint. On behalf of the Indonesian Society of Vascular Medicine and the Organizing Committee, we proudly announce, Indonesia, represented by the Indonesian Society of Vascular Medicine, and for the second time, was appointed the host of the **57th Annual World Congress of International College of Angiology (ICA) 2015** which will be in conjunction with **The 7th National Symposium on Vascular Medicine** as our biannual vascular meeting with "**Challenges and Opportunities in Vascular Medicine in an Era of Global Medical Services**" as this year's theme.

The multi-disciplinary character of the Indonesian Society of Vascular Medicine that is well known as ANVIN (Perkumpulan Vaskular Indonesia) as well as that of the International College of Angiology, embodies the true nature of vascular science and will provide a unique forum for scientific discussion on all critical issues concerning the management and care of vascular patients.

The Organizing Committee in conjunction with the International College of Angiology, has developed a stimulating and informative up-to-date program devoted to various aspects of diagnosis and management of vascular diseases. Furthermore, discussions will be held on the evidences for diagnosis and management of vascular diseases to strengthen our professional capability in order to meet the challenges today as well as the near future.

As always, the scientific program will consist of *State-of-the-Art* sessions, main and satellite symposia, as well as workshops.

We are indebted to our very supportive pharmaceutical companies and medical industries for this synergistic and invaluable input, sponsorship and participation.

We hope that all participants will obtain the maximum benefit from the international experts, and those experts from our own country during this interesting and stimulating meeting. We do hope you will use this meeting as a place to meet new as well as to renew our friendships as before.

Welcoming you all to Jakarta!

Warmest regards,
Ismoyo Sunu, MD, PhD, FIHA, FICA

Dear Members and Guests:

It is my honor to welcome you to the 57th Annual World Congress of the International College of Angiology in the historic and energetic city of Jakarta, Indonesia.

I would like to take this opportunity to express my sincere gratitude to Dr. Ismoyo Sunu, Chairman of the Local Organizing Committee and Dr. Iwan Dakota, Co-Chairman of the Local Organizing Committee for their unselfish dedication and their contributions made in preparing for this Congress. There will be in-depth discussions involving clinical and basic sciences in the cardiovascular field, updates to current cutting edge technology in both complex and open surgical procedures as well as in newer endovascular techniques. Internationally renowned cardiovascular experts will gather under one roof to discuss the different aspects of cardiovascular issues and management. As a part of the ongoing tradition of our College, young doctors and medical students will be promoted for their research and academic endeavors providing them with a podium for oral and poster presentation opportunities.

In addition to our scientific podium, the beautiful and lively city of Jakarta will provide an exciting social program, provided by our local organizing committee as well as our auxiliary committee, represented by Mrs. Carolyn Pachinger and Mrs. Dawn Franz.

During this Congress, there will be opportunities to renew old friendships and make new friends from every part of the world. Our officers and members of the local organizing committees will be there to assist you and to make your stay in Jakarta a most meaningful and enjoyable time in addition to providing an exciting and stimulating scientific podium.

I personally look forward to greeting you at the Congress.

Sincerely,

Dear Friends and Colleagues,

On behalf of the International College of Angiology and the Indonesian Society of Vascular Medicine and our Local Organizing Committee, it is my pleasure to welcome you to the 57th Annual World Congress of the ICA in conjunction with the 7th National Symposium on Vascular Medicine of the Indonesian Society of Vascular Medicine, Jakarta, Indonesia, October 2-4, 2015.

The theme of this year's congress is **"Challenges and Opportunities in Vascular Medicine in an Era of Global Medical Sciences."**

This annual world congress will feature a panel of internationally renowned faculty and recognized leaders who will present and discuss state-of-the-art techniques and a comprehensive overview of the latest research developments in the diagnosis and treatment of vascular disease. Plenary sessions, satellite symposium, workshops, panel discussions, debates, and question and answer sessions will highlight the most challenging and controversial topics and procedures performed in interventional medicine.

During this congress, you will Join your colleagues from around the world and explore key areas rapidly expanding in cardiovascular diseases. ICA 2015 is designed to meet the specific educational needs of medical professionals involved with the management and treatment of cardiovascular diseases as they are encountered by primary care physicians, vascular, general, thoracic and cardiovascular surgeons, cardiologists, interventional radiologists, neuro-radiologists, fellows and residents of the above specialties, vascular biologists, nurses and allied healthcare personnel.

Your interaction with colleagues from around the world will stimulate creative exchange of ideas and provide you with the opportunity to renew old friendships and forge new ones.

We look forward to your active participation in the **57th Annual World Congress — ICA 2015** in conjunction with the **7th National Symposium on Vascular Medicine**, and to an exciting meeting in Jakarta, Indonesia.

Sincerely,

Rajinder P. Sharma, MD, FSIR, FICA

09.30 h. – 10.00 h.

Professor Albert Senn Memorial Lecture

Complex Vascular Reconstruction using Endovascular and Open Surgical Techniques

Prof. John B. Chang, MD, FACS, FICA

Professor, Clinical Surgery, Hofstra LIJ-Northshore School of Medicine, Uniondale, New York, USA; Adjunct Professor, Clinical Surgery, Albert Einstein College of Medicine, Bronx, New York, USA; Program Chairman, 57th Annual World Congress, International College of Angiology; Chairman, Board of Directors, International College of Angiology; Editor-in-Chief, *International Journal of Angiology*; Founding Chairman, Asian Society for Vascular Surgery; Chairman, Scholarship Committee, and President, Society of Honorary Police Surgeons, City of New York, New York, New York, USA; Director, Long Island Vascular Center, Roslyn, New York, USA.

10.00 h. – 10.30 h.

Professor John B. Chang Oration Lecture

Frontiers in Aortic Stent Grafting

Prof. Takao Ohki, MD, PhD, FICA

Professor of Surgery; Chairman, Department of Surgery and Chief, Division of Vascular Surgery, Jikei University School of Medicine, Tokyo, Japan; Member, Board of Directors, International College of Angiology; Editor, *International Journal of Angiology*

10.30 h. – 10.40 h.

COFFEE BREAK

10.40 h. – 11.50 h.

Second Scientific Session

Ballroom I

Symposium I

Management of Venous Disease—Drugs and Intervention

Chairpersons:

Prof. Pertti Aarnio, MD, PhD, FICA

Emeritus Professor of Surgery, University of Turku, Pori, Finland; Emeritus, Chief, Department of Surgery, Satakunta Central Hospital, Pori, Finland; Member, Board of Directors, International College of Angiology; Co-Chairperson, Scientific Committee, International College of Angiology; *International Journal of Angiology*.

Suko Adiarto, MD, PhD, FICA

Department of Cardiology and Vascular Medicine, Faculty of Medicine, University of Indonesia, Jakarta, Indonesia; National Cardiac Centre, Harapan Kita Hospital, Jakarta, Indonesia.

10.40 **The Roles of WIFI Classification for Prediction of Ulcer Healing after Distal Bypass:** *Atsuhiko Koya, MD*, Assistant Professor of Surgery, First Department of Surgery, Asahikawa Medical University, Asahikawa, Hokkaido, Japan.

11.00 **Management of Chronic Venous Disease—Focus on Micronized Purified Flavonoid Fraction (MMPF):** *Prof. Hendro S. Yuwono, MD, PhD*, Professor of Surgery; Head, Division of Vascular Surgery, Padjadjaran University, Bandung, Indonesia.

11.20 **Endovenous Laser Therapy for Chronic Venous Disease—State-of-the-Art:** *Marc Vuylsteke, MD, PhD*, Department of Vascular Surgery, Sint-Andriesziekenhuis, Tiel, Belgium.

11.40 h. – 11.50 h.

ICA Poster Presentations

Chairpersons/Judges:

Prof. Otmar M. Pachinger, MD, FESC, FAHA, FICA

Professor Emeritus, Distinguished Professor of Cardiology, Medical University of Innsbruck, Innsbruck, Austria; Member, Board of Directors, International College of Angiology; Co-Chairperson, Scientific Committee, International College of Angiology; Senior Editor, *International Journal of Angiology*; President, Austrian Heart Foundation, Innsbruck, Austria.

Saifur Rohman, MD, PhD

Department of Cardiology and Vascular Medicine, Faculty of Medicine, Brawijaya University, Melang, West Java, Indonesia; Dr. Syaiful Anwar General Hospital, Melang, West Java, Indonesia.

- 10.40 **Prevalence of Deep Vein Thrombosis in Patients with Ankle and Foot Fractures—A Pilot Study:** *Edward B.K. Ho, MBBS, AFICA*, Resident Medical Officer, John Hunter Hospital, Newcastle, New South Wales, Australia.
- 10.47 **Transcatheter Bronchial Artery Embolization for Massive Hemoptysis Caused by Pulmonary Tuberculosis: Tricks of the Trade, A Pictorial Review of Technique and Discussion of Interesting Cases:** *Su Ann Lee, MB, ChB, FRCR(UK)*, Department of Radiology, Changi General Hospital, Singapore.
- 10.54 **Ischemic Stroke as a Presentation of Takayasu's Arteritis in a Male Patient: A Case Report:** *Henry Riyanto Sofyan, MD*, Department of Neurology, Faculty of Medicine, University of Indonesia, Cipto Mangunkusumo General Hospital, Jakarta, Indonesia.
- 11.01 **The Ideal Antihypertensive Choices for Primary Hypertensive Asian Patients — A Meta-Analysis of Randomized Controlled Trials:** *Bertha Gabriela Napitupulu, MD*, Faculty of Medicine, University Sumatera Utara, H. Adam Malik Hospital, North Sumatra, Indonesia.
- 11.08 **Does Hydration Status Affect the Outcome of Stroke? A Preliminary Study:** *Zulfa Indah K. Fadhly, MD*, Resident, Department of Neurology, Faculty of Medicine, University of Indonesia, Dr. Cipto Mangunkusumo National Hospital, Jakarta, Indonesia.
- 11.15 **The Outcome of Endovascular Repair for Mycotic Aneurysms:** *Yoshihiko Chono, MD*, Division of Vascular Surgery, Department of Surgery, Jikei University School of Medicine, Tokyo, Japan.
- 11.22 **The Outcome of Branched or Fenestrated Endovascular Aortic Repair for Thoracoabdominal Aortic Aneurysms:** *Reo Takizawa, MD*, Department of Surgery, Jikei University School of Medicine, Tokyo, Japan.
- 11.29 **The Role and Limitations of Endovascular Aortic Repair for Abdominal Aortic Aneurysms:** *Makiko Ohmori, MD*, Division of Vascular Surgery, Department of Surgery, Jikei University School of Medicine, Tokyo, Japan.

11.50 h. – 13.00

FRIDAY PRAYERS and LUNCH BREAK

**Symposium 2
Aortic Disease: Part I**

Chairpersons:

Prof. Takao Ohki, MD, PhD, FICA

Professor of Surgery; Chairman, Department of Surgery and Chief, Division of Vascular Surgery, Jikei University School of Medicine, Tokyo, Japan; Member, Board of Directors, International College of Angiology; Editor, *International Journal of Angiology*.

Tarmizi Hakim, MD, FACS

Department of Cardiothoracic Surgery, Faculty of Medicine, University of Indonesia, Harapan Kita Hospital, Jakarta, Indonesia.

13.00 **Surgical Repair of Thoracic Aortic Aneurysms—Tips and Tricks:** **Darren B. Schneider, MD, FACS, FICA**, Associate Professor, Department of Surgery, Weill Cornell Medical College; Chief, Vascular and Endovascular Surgery, New York Presbyterian, Weill Cornell Medical Center, New York, New York, USA; Editor, *International Journal of Angiology*.

13.15 **Experience in Using Fenestrated Aortic Stent Grafts for the Treatment of Thoracic Aortic Aneurysms/Dissection Involving the Aortic Arch:** **Prof. Han Cheol Lee, MD, PhD**, Pusan National University Hospital, Busan, South Korea.

13.30 **The Future of TEVAR/EVAR—Chimney vs. Fenestration:** **Prof. Chang Shu, MD, PhD**, Director, Department of Vascular Surgery, Second Xiang Ye Hospital, Central South University, Hunan Major Vessels Medical Center, Hunan, China.

13.45 h. – 14.00 h.

Questions and Answers with Audience Participation

13.00 h. – 14.00 h.

ICA Young Investigator Award Presentation Competition

Chairpersons/Judges:

Prof. Otmar M. Pachinger, MD, FESC, FAHA, FICA

Professor Emeritus, Distinguished Professor of Cardiology, Medical University of Innsbruck, Innsbruck, Austria; Member, Board of Directors, International College of Angiology; Co-Chairperson, Scientific Committee, International College of Angiology; Senior Editor, *International Journal of Angiology*; President, Austrian Heart Foundation, Innsbruck, Austria.

Anwar Santoso, MD, PhD, FIHA, FasCC, FACC, FICA

Lecturer, Department of Cardiology and Vascular Medicine, University of Indonesia, Jakarta, Indonesia, Clinical Researcher, Division of Cardiovascular Research and Consultant Cardiologist, National Cardiovascular Centre, Harapan Kita Hospital, Jakarta, Indonesia.

13.00 **Contrasting Effect of Colloid and Crystalloid Administration on Endothelial Glycocalyx in Post-Coronary Artery Bypass Graft Patients:** **Ima Ansari Kusuma, MD**, Resident, Department of Cardiology and Vascular Medicine, Faculty of Medicine, University of Indonesia, Jakarta, Indonesia.

13.10 **Association between Hypoxemia in Cyanotic Congenital Heart Disease with Post-Catheterization Arterial Thrombosis:** **Sisca Natalia Siagian, MD**, Department of Cardiology and Vascular Medicine, Faculty of Medicine, University of Indonesia, Jakarta, Indonesia; National Cardiac Center, Harapan Kita Hospital, Jakarta, Indonesia.

13.20 **The Risk and Benefits of Statins in Glucose Control Management of Type II Diabetes:** **Anthony Paulo Sunjaya**, Department of Internal Medicine, Faculty of Medicine, Tarumanagara University, Jakarta, Indonesia.

13.40 **Correlation between Clinical Scoring System and Venous Duplex Scan Findings in the Diagnosis among Diabetics in an Outpatient Setting of a Tertiary Hospital (CLISS-VEDS DM STUDY):** **Bernadette J. Santiago-Halasan, MD, FPCP, FPCC**, Clinical Research Fellow in Vascular Medicine, Cardinal Santos Medical Center, San Juan City, Philippines; Cyberdocs Specialist Center, Cebu City, Philippines.

JAKARTA HALF-DAY CITY TOURS—TAMANI MINI—HOTEL (L)

Taman Mini Indonesia Indah: literally translated as “Beautiful Indonesia Miniature Park.” A culture based recreational area located in East Jakarta, with around 250 acres (1.0 km²). The park is a synopsis of Indonesian culture with virtually all aspects of daily life in Indonesia’s 26 (as of 1975) provinces. Separate pavilions with collections of Indonesian architecture, clothing, dances and traditions are all beautifully depicted. Apart from that, there is a lake with a miniature of the archipelago in the middle, cable cars, museums (insect museum, Komodo Dragon reptile museum, etc.), Keong Emas IMax cinema, a theatre called the Theater of My Homeland (*Theater Tanah Airku*), and other recreational facilities. Lunch will be

provided at a local restaurant before returning back to the Ritz-Carlton Hotel.

JAKARTA HALF-DAY CITY TOUR—NATIONAL MUSEUM—HOTEL (L)

National Monument: One of Indonesia’s landmark, **The National Monument (Indonesian: Monumen Nasional [Monas])** is a 433 ft. (132 meter) tower in the center of **Merdeka Square, Central Jakarta**, symbolizing the fight for Indonesia. Construction began in 1961 under the direction of President Sukarno. Monas was opened to the public in 1975. It is topped by a flame covered with gold foil.

National Museum: An archeological, historical, ethnological and geographical museum located in Jalan Medan Merdeka Barat, Central Jakarta, right on the west side of Merdeka Square. Popularly known as the **Elephant Building (Indonesian: Gedung Gajah)** after the elephant statue in its forecourt. Its broad collections cover all of Indonesia’s territory and almost all of its history. The museum has endeavored to preserve Indonesia’s heritage for two centuries.

Museum Fatahilah: Also known as **Museum Sejarah Jakarta (Jakarta Historical Museum)** or **Museum Batavia**. It is a museum located in what used to be a city hall (Stadhuis in Dutch) during the age of Dutch occupation. It was built 1707 –

1710 by the order of Governor General Johan van Hoorn. Similar to Dam Palace in Amsterdam, it consists of one main building with two wings in the east and west, a side building formerly used for office and court room and a basement formerly used as a prison. Lunch will be provided at a local restaurant before returning back to the Ritz-Carlton Hotel.

CULTURAL NIGHT (OPTIONAL EVENT)

Enjoy a Memorable Cultural Night (Optional Congress Event) – The Hermitage Hotel

This evening's event will take place in the historical **Hermitage Hotel**. Located in the historical district of Menteng, in Central Jakarta, **The Hermitage Hotel, Menteng-Jakarta** occupies a stunning Art Deco building from 1923 which was once a Dutch Telecommunications office, the "Telefoongebouw." Over the course of several decades before the 1945 independence of the Republic of Indonesia, the building served various functions from the Department van Onderwijs en Erediensten office from 1945 – 1950, it was used by the National Committee Indonesia Center. In 1950 it was used by the Department of Education. Lastly, the building was occupied by the Directorate General of the Ministry of Culture and Education until 1966. The historical building

itself now has a new life and new meaning as The Hermitage, the only luxury hotel blending old world elegance, ultra-modern amenities and gracious Indonesian hospitality in Jakarta. Officially opened by (PLT) Governor of DKI Jakarta, Mr. Baswuki Tjahja Purnama on June 5, 2014, and The Hermitage rises above tree-lined streets and has been honored with an affiliation to Leading Hotels of the World (LHW) and is the only hotel in the city with this prestigious endorsement.

Come and enjoy what **Jakarta** as the **Capital City of Indonesia** is famous for: culture, cuisine and beautiful scenery. This evening will be highlighted by an extravaganza of Indonesian culture, with a traditional **"JAIPONG"** dance.

This evening's event is: USD \$100 PAX and is to be paid in cash at the Congress. This event includes dinner and round-trip ground transportation to and from The Hermitage. Departure will be from the lobby of the Ritz-Carlton Hotel Jakarta—Mega Kuningan. **An advance reservation is required.**

ICA NEW MEMBER CONVOCATION CEREMONY

The ICA Convocation Ceremony confers Fellowship upon those physicians and scientists who have successfully met all ICA requirements to provide optimal care to their patients. All Initiates will be granted Fellowship in the International College of Angiology during the ceremony and presented with their official Membership Certificate. Each Initiate may begin using the FICA designation upon the conclusion of the ceremony. The ICA's core mission necessitates that we perfect the role of the angiologist on both the international and local level as a result of the changing character of worldwide community health services to provide safe and quality in patient care. The ICA has an ongoing commitment to education, as well as to speak for the specialty of angiology worldwide and develop a program for accomplishing these objectives. Join your Initiate class this year as we recognize and honor this achievement.
