2017 – 2018 Officers

MOHAMMED ALI, P.E.
Trustee
JDH Corrosion Consultants, Inc.
(925) 927-6630
correngineer@aol.com

MONGKOL MAHAVONGTRAKUL, P.E.
Chairperson
Port of San Francisco
(415) 274-0563
mmahavon@gmail.com

DAN DAY
Vice Chairperson
"Officer Emeritus"
dday5551@gmail.com

MICHELLE ANDERSON
Secretary
Accurate Corrosion Control
(925) 719-1285
michellea@accuratecorrosion.com.

LARRY WONG, P.E.
Treasurer
Santa Clara Valley Water
(408) 265-2600 X2983
lwong@valleywater.org

BILLY CAMPBELL
Membership Chairperson
Billy Campbell Technical Services
(415) 637-5027
nacethreeinspector@gmail.com

MENG LOPEZ-GARRITY, P.E.
Communications
Mears Group, Inc.
(925) 820-7630
Meng.Lopez-Garrity@Mears.net

PATRICK BYRNE
Editor
Carboline Company
(415) 660-6070
pbyrne@carboline.com

J. DARBY HOWARD, Jr., P.E.
Technical Committee
JDH Corrosion Consultants, Inc.
(925) 927-6630
dhoward@jdhcorrosion.com

NORM MORIBER, P.E.
Technical Committee
MP Technical Editor
(925) 963-1443
norm.moriber@gmail.com

ELMER CHEUNG, P.E.
Webmaster
San Francisco PUC
(415) 551-4668
echeung@sflower.org

PAUL BOSTWICK
Photographer
Corrpro Companies
(510) 614-8800
pbostwick@aegion.com

Date	Location
Tuesday, May 8th	Zio Fraedo's Restaurant 611 Gregory Lane, Pleasant Hill, CA. (925) 933-9091

Time: No Host Bar 5:30 pm • Dinner 6:30 pm • Program 7:15 pm
Cost: \$10 NACE members, NACE retirees, and attendee's.

Please RSVP by Thursday, May 3rd by email to Michelle Anderson at MichelleA@accuratecorrosion.com, or by phone at (925) 719-1285.

Cancellation deadline is Friday, May 4th.

Visit the Section Website at www.nace-sf.org

Title: *The Visual Health of Your Pipelines - Through Live Pressurized Pipeline Assessment Technologies*

Abstract-They Say "A picture is worth a thousand words". There are new technologies out there that allow you to have real time visual assessment of pipes while they remain pressurized. This means no loss of revenue and no costly excavation of pipes that don't need to be removed. This technology features a system with a live feed of CCTV, Hydrophone technology for leak detection and a high powered sonde for pin pointing areas of interest. This technology is capable of accessing pipelines through live fire hydrants and operate in pressures up to 232 PSI and accommodate pipes as small as 2" and as large as 24". This technology is also capable of scanning the pipe and giving an accurate wall thickness of any type of pipe, there for giving you an INSIDE look and the OUTSIDE condition of the pipe.

What are the benefits of looking in live pipe?

1. See inside your pipelines with no disruption or loss of revenue
2. Pre and Post rehabilitation assessments
3. Accurate leak detection
4. GPS tracking and plotting
5. Location of services, defects, and restrictions
6. Valve assessments

Bio- Heath Kelsey is Aquam Pipe Diagnostics Western Region Sales Manager. Heath has over 24 years of experience in water and waste water. He has a Degree in Construction Management. from Purdue, CA. Licenses in Gen. Building and Gen. Engineering, plus several NACE Certifications. He has extensive experience in installing water and wastewater pipelines and apparatus. He specialized in raw water filtration and steam generation distribution.

MANY THANKS TO OUR SEP 2017 – JUNE 2018 SPONSORS!!
