

Quiet of The Night

The sun goes down the moon comes up
The day ends and the night just begins
The blood starts pumping
The music is jumping
The full moon is making a mess out of me

(Chorus)

And when I realize tonight
The strangest feeling comes over me
In the quiet of the night

Suzie prancing the party's dancing
The man upstairs is banging on the floor
Cars are leaving and I'm believing
There's something going on here tonight

(Chorus)

Don't you show it don't you know it
There's something going on yea
Can't you see it can't you feel it
Put your mind right to it
Night is glowing mood is growing
There's something in the air yea
There's something that I fear yea
There's something in the air yea
