# Torii's Spring Adventure

written by  
**Janelle Condra**

illustrated by  
**Alan Condra**

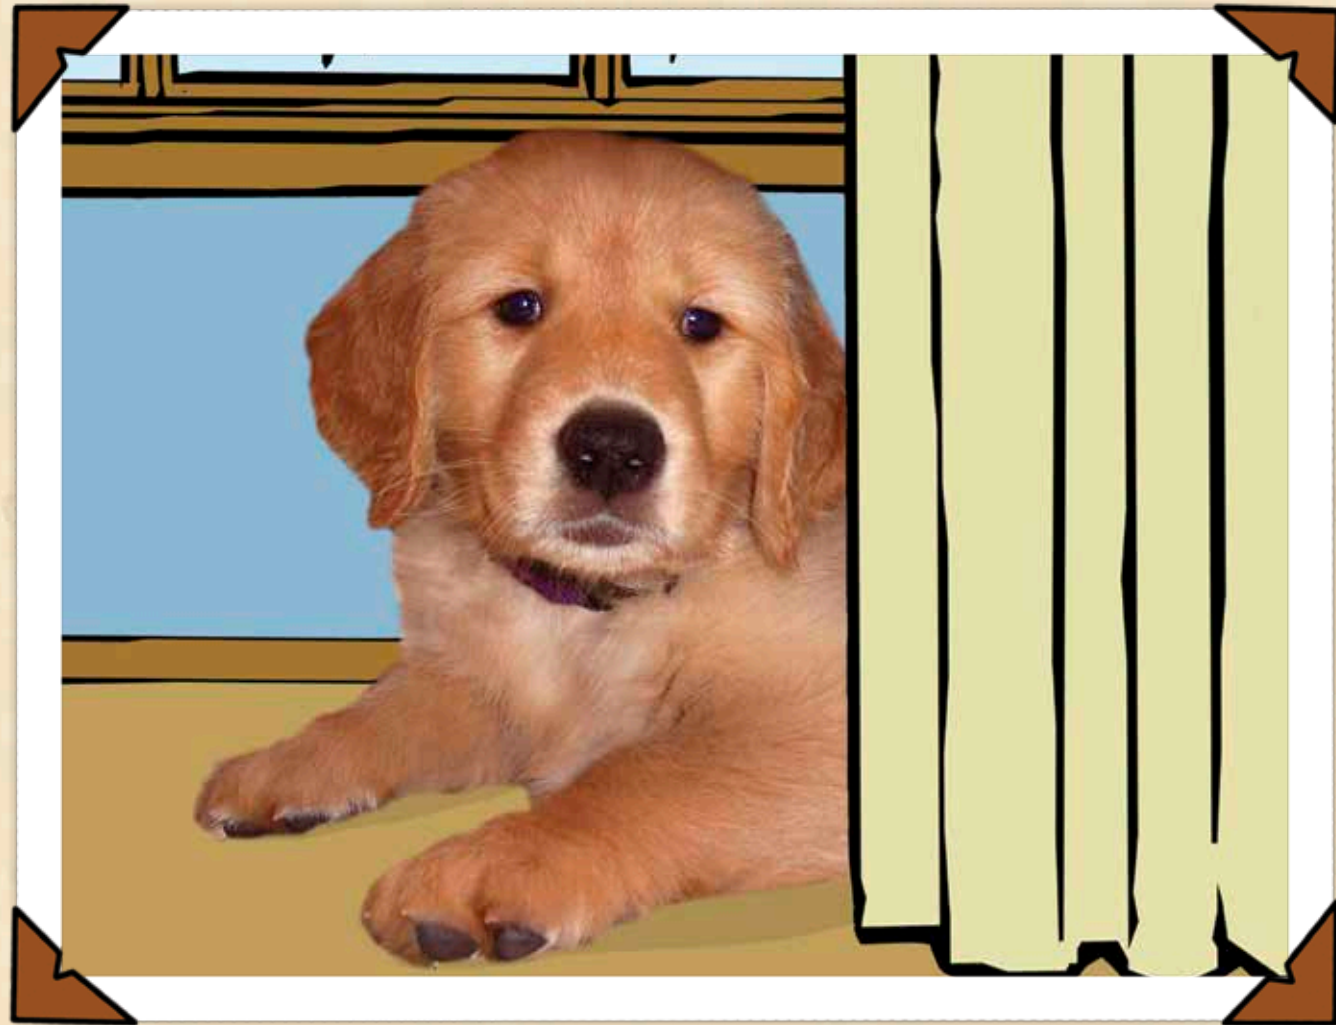

Hi, my name is Torii.

It's spring, my favorite season of the year! The snow has melted and everything has turned green. The weather is warm and there are new baby animals in the woods. I am ready to go exploring!

I go on adventures here in the spring, summer, fall, and even winter! My family comes along and likes to take pictures of me. They even made me a photo album of my very own so I can share all the fun I've had. I am looking at it right now.

Come and look at my photo album with me!  
I will tell you about Marli and show you  
pictures from one of my fun spring  
adventures in the woods!

Last fall I had a big surprise when my family brought Marli home to live with us. She was so tiny back then...

but not anymore! Now Marli is as big as I am! We still get along just fine and have lots of fun together playing and exploring.
