

AlkaViva (Jupiter) Original Biostone .01M Ionizer Filter

sku – MUF

Biostone .01m Ionizer Filter

\$109.95

The .01 micron Biostone Filter is a highly effective multi-layered filter with layers of silver activated carbon, fiber and calcium. This filter removes particulates that are 10-times smaller than the .1m Biostone Filter. This is the original filter used in later Jupiter Models. Earlier models contained Tourmaline; current models do not.

This filter can be used the following AlkaViva (Jupiter) Water Ionizers

- Orion
 - Aquarius
 - Neptune
 - Mavello
 - Miracle Fountain
 - JP1000
- Delphi
 - Athena
 - Isis
 - Melody
 - Venus

Other Machines that can accept this filter

- Alkal-Life 3000SL
- Regency Elite JP-1000
- Regency X
- Amwater AMWS903
- Nexus AK-5000
