Weekly Tuition: \$520 for 5 full days (9-6) & \$395 for 5 half days (9-1)
Lunch & Snacks included. Morning Extended Care available.

GARDENING!

June 20 to 24

This week we'll learn about how we can care for our planet as we do our part in living green. Children will also be farming fruits, vegetables, and herbs and work on 3 different gardens. They will also explore and discover about plant growth, preparing foods and prepare their own plant to take home.

FRIENDLY BUGS!

June 27 to July 1

We will learn about some not-so-creepy crawlers that help our environment! We'll watch furry caterpillars transform into beautiful butterflies and children will feed and release them when they hatch, release hundreds of lady bugs and baby praying mantis in our garden, and find some worms. Birdies usually visit so we'll make bird feeders.

JR. CHEFS! (4 days - closed on 7/5)

July 5 to 8

This week we'll explore science in the kitchen! A yummy week of cooking activities! Food preparation in a safe environment will encourage discovery and creativity. Fruit, breads, cookies, salads, juices, sandwiches, and more! Family style meals to enjoy some of the goodies - what great fun! Peanut & tree nut free as always!

FARM ANIMALS!

July 11 to 15

Now it's time to learn about our pets and farm friends! Your pets can come too! Bring your pet to school day" is Thursday. Petting zoo will come visit if current recommendations allow for it at the time. If allowed, we'll have a petting zoo visit with pets like guinea pigs, bunnies, ducks, a horse carriage ride and more! We'll follow with balloon animals and face painting!

Weekly Tuition: \$520 for 5 full days (9-6) & \$395 for 5 half days (9-1)
Lunch & Snacks included. Morning Extended Care available.

WATER WEEK!

July 18 to 22

We'll play with water all week in water pools, sprinklers and bubbles! We'll also learn about properties of water and on our sandbox making sand castles. Swimming suits must be at the school all week. Toilet training students must wear a swim diaper in water activities to participate. Activities will be designed following current guidances at the time. Individual pools if separation is still recommended.

CREATIVE ART!

July 25 to 29

Children are creative by nature. We'll explore and experiment with different media like clay and paper mache, painting, mosaic, collage, and other fun forms of self expression! From large community projects to individual works of art the children will explore and express their ideas beautifully and have fun doing it!

ALL ABOUT SPORTS!

August 1 to 5

We are going for the Gold on this week! We'll play many games with plenty of ways to get a medal! Sports, games, obstacle courses and more will be done all outside. We'll also learn about what our bodies need to stay healthy and strong!

CRAZY SCIENCE!

August 8 to 12 (12 is min. day)

We are crazy about science! This week your little ones will explore & experiment mixing different substances as they discover how they react and what happens after. They'll make volcanos explode, squishy dough, and more messy and fun hands-on activities that will amaze and inspire your little scientists.
