

Introduction to Environmental Regulations

This 2-day course is for those who wish to learn about or gain a better understanding of environmental regulations. The course covers such essential topics as air quality permitting and compliance; water quality permitting and compliance; waste management; spill prevention, control and countermeasures planning; emergency planning and community right-to-know; and toxics substances control. The course format includes practical exercises and interactive discussions intended to maximize understanding of the concept.

Course completion enables attendees to:

- Determine which regulations apply and why
- Understand environmental compliance requirements
- Develop smart strategies for ensuring on-going compliance

COURSE FEE: \$248; includes a comprehensive resource manual, refreshments, and lunch.

VENUE: Downtown Calgary

DATE: Sep. 14-15, 2017 - 8AM – 3:30PM
