**Weather:** Cool 60s and drizzly

The course was wet and muddy from rain during the week and we had a bit of a drizzly rain for the first nine holes. Reese and Jim P shoot net par in tough conditions. Reese finished strong with a birdie on 18. Ed heated up on the back 9 but got unlucky on 18 when his tee shot, which was crushed into the top of the big tree on the right side of fairway, came to rest straight down up against back of the tree trunk. George Canfield had a nice front nine and it looks like was going strong on the back until hole 17. I'm not sure what happened but George's foursome had a total 31 strokes on the 17th. Greg and Dan made a game day decision to play their match in these tough conditions and Greg wins 6&5. At the bar there was much discussion about the issues around the handicaps from the senior tees. The DGA applies the blue tee handicaps for all players including those playing from the senior tees and in match play the holes where strokes are given are based on the blue tee handicaps. Also, some discussion about returning to playing the ball down in the bunkers rather than being allowed to rake.
