

Bull & Bred Female Sale

DECEMBER 1, 2021

12 P.M. MOUNTAIN STOCKMEN'S WEST, DICKINSON, ND

The Premiere Source

FOR BRED FEMALES IN WESTERN NORTH DAKOTA

The Badlands Angus Alliance is the PREMIERE SOURCE for bred females in western North Dakota. Strommen Ranch, Talkington Angus, Best Angus and our elite commercial customers are offering another incredible set of 475 genetic and source verified Angus females, Wednesday Dec. 1, 2021 at Stockmen's West in Dickinson, ND

The females represented in this sale are the type and kind that you can use for profitable beef production now and into the future. They have been tested in a variety of environments and management styles with success. This sale features a variety of bred heifers from our programs and our customers. To qualify for this sale, females must be out of and bred back to Strommen Ranch, Talkington Angus and/or Best Angus bulls.

Our cattle are designed to be easy-fleshing and productive on minimal inputs. You won't find outlandish EPDs in our cattle, but you will find common-sense stock that are bred for commercial profitability. They possess the emotional intelligence to be handled with minimal labor, and enough survival instinct to get out and forage, nurture their calves and bring in pounds at weaning.

We invite you to participate in this sale. Shipping arrangements can be made. **Call, text or e-mail us to discuss the offering!**

Welcome to the Badlands Angus Alliance Bull & Bred Female Sale. This is not only a partnership between Best Angus, Strommen Ranch, and Talkington Angus Ranch, it is also a partnership with all of our current and future customers. With our combined resources and marketing assistance from our partners at Stockmen's Livestock Exchange in Dickinson, N.D., **we are committed to helping our customers add value to their females** and continuing the Badlands Angus Alliance sale as **THE PREMIERE SOURCE** for bred females in western North Dakota.

In our fourth year, this sale features 475 elite, source and genetic-verified bred females from our respective programs and from our commercial customers. **We are proud of the exceptional herds our customers are building and we are excited to help them market their top females through this sale.** They are influenced by and bred to Best, Strommen or Talkington seedstock.

These bred females are the type and kind you can use to build a profitable, sustainable herd for generations. They are bred to be easy-fleshing cattle that are productive on minimal inputs, with enough emotional intelligence to be handled with minimal labor, and enough survival instinct to get out and forage, nurture their calves and bring in pounds at weaning.

Many of them are AI-bred to proven, calving-ease sires with a tight calving window, and have been ultrasounded for calving dates. They are all source and genetic-verified and bred to known calving-ease genetics. A full ranch and production history on each consignment is included in the heifer listings.

The coming-2-year-old ANGUS bulls are thick, stout, rugged, fully guaranteed and will be ready for service in big country. **They were retained specifically for this sale.** We are excited to offer these bulls as it gives us a chance to see our genetics as they age and develop. These bulls have been slowly developed with soundness and longevity in mind with an optimum gain not an excessive gain. **Our ultimate goal is to have the bulls range-ready, sound-footed and ready to go to work for you!**

Shane Talkington Cell.....(701) 290-7222
Aaron Strommen Cell(701) 290-7983
Pete Best Cell.....(701) 570-6959

Sale Order • Bulls will sell first then females will follow.

Videos • Videos of the bulls and bred females will be available on www.DVAuction.com

Terms and Conditions • Bulls sell under the standard terms and conditions of the American Angus Association. Terms of the sale are cash. Full payment is due on sale day.

Base Price • All bulls will have a minimum price of \$3,000 sale day. Bidding will begin at the base price.

Bull Development • These bulls have been handled correctly and developed without ANY creep. They have been fed just enough to express genetic differences, but not overfed as to compromise soundness or longevity. We want you to have a bull that will do his job and last for years.

EPDs • EPDs are current as of Oct. 22, 2021.

Sale Time • The sale starts at 12 p.m. MST.

Bull Delivery • We will offer free delivery on the bulls within 500 miles of Dickinson, N.D. Deliveries will begin immediately following the sale.

Female Delivery • We will not deliver the females, but can assist in lining up trucking. Please contact us or Stockmen's West to make arrangements.

Health • All bulls have been on a complete health program as prescribed by our respective veterinarians.

Fertility • All bulls have passed a fertility exam performed by Dr. Gary Scheiber for the Best Angus bulls, Dr. Pat Bierman for the Strommen bulls and Dr. Chance Noyce for the Talkington bulls.

Sight Unseen Purchases • If you, for some reason, are unable to attend the sale, but wish to place a bid, feel free to call us and we will handle your bid as if you were here. If you wish to be on the phone during the sale, we will try to accommodate your request. Please let us know in advance so arrangements can be made. All sight unseen bull purchases are fully guaranteed.

Guarantee • The bulls are fully guaranteed for one breeding season. We understand that these are animals and that injuries do occur, but we have the utmost confidence that we have developed these bulls in the best way to protect your investment. If an injury or death occurs, the ranch of origin will guarantee them for the purchase price minus salvage value (\$1,500).

Liability • Anyone attending this sale does so at their own risk. Neither the owners nor anyone connected to this sale, assumes any liability, legal or otherwise.

Cattlemen & Friends - We are so grateful to be a part of this Alliance that is turning into the premiere commercial female sale in North Dakota. Stommens and Talkingtons have been great partners with very similar philosophies to our own. I was extremely proud of the heifers that the female consignors brought to Dickinson the last few years. More importantly, the feed-back from the buyers has been excellent. I expect nothing less from this year's offering, as well. I believe we are making progress toward our goal of helping our customers realize the value they deserve for raising superior Angus females. The past few months have been very challenging with Covid events and a severe drought. Markets have settled down and fall moisture has come to many places. I believe this sale offers a real opportunity to purchase some outstanding heifers that would not normally be for sale. Heifers purchased now will probably sell more total dollars of calves in their life time than any time in history.

We ranch in the North Dakota badlands southeast of Watford City in some of the most rugged terrain in the region. We are committed to producing cattle that thrive under harsh conditions. Ranching is full of challenges, which is why we believe it is better for us to design cattle that will be profitable working in harmony with nature instead of a constant struggle against mother nature. Cattle designed to be profitable require less labor inputs since they can maintain their body condition and breed back on poor quality stockpiled forage. They are able to do this since they are deep ribbed and wide made with genetic fertility. They have sound udders, feet and legs allowing them to forage and care for their calves without extra assistance from management. Disposition and intelligence are extremely important traits for reducing labor requirements, as well. We can't forget the most important profitability trait of them all, fertility. Just to make things a little harder, we need to make sure these cattle will be profitable to all segments of the beef industry. They need to gain, have excellent feed efficiency and strong carcass traits. Talk about a challenge, but this is what makes breeding cattle so much fun! The bulls are all virgin two-year olds that were retained specifically for this sale.

We are a family operation and I would like to thank all of the family and friends that help us keep Best Angus running. We could not do what we do without our customers support over the years. We hope to see you all in Dickinson, but if you are unable to attend please contact me and I will gladly help you select an Angus bull that will fit your environment and make your operation more profitable.

- Pete, Vaunita & Kyle Best

Cattlemen & Friends - Welcome to the 2021 Badlands Angus Alliance Bull & Bred Female Sale. We are proud to partner with our friends the Bests and Talkingtons and our respective customers to offer this unique sale. It is our goal to continue this sale as the premiere source for maternal Angus genetics in western North Dakota.

Our herd consists of fertile, functional, easy-fleshing cattle that raise big calves without creep feed. We believe that true profitability in the beef business is driven by cattle that have the Maternal POWER™ to do more with less. As your seedstock provider, we want your operation to be profitable and sustainable for generations with cattle that can withstand market pressure, as well as environmental challenges. This year has certainly provided a strong testing ground for our genetics and we are pleased with how our cowherd has performed during 2021. Through rains or drought, we ask our stock to thrive in a Northern Plains, grass-based environment with minimal supplementation. They must do more with less.

Strommen Ranch cows must calve annually and wean a calf that is a high percentage of its dam's bodyweight. They must also possess the basic phenotypic traits to cover country, breed on time, have the smarts and mothering ability to do it on their own, all while performing under the conditions that Mother Nature has dealt us. We select for fertility, longevity, sound structure and realistic performance in the cow herd. Cattle that breed early in the cycle, are structurally sound and can raise big calves efficiently in a practical environment with minimal inputs are the kind of cattle we produce and believe will have a positive impact on your bottomline now and into the future.

The bulls we're bringing to Dickinson embody this philosophy. Retained expressly for this sale, they are rugged, stout, sound, packed with generations of Maternal POWER™ and are ready for service in big country. We look forward to seeing you Dec. 1, 2021, and invite you to our ranch, west of Fort Rice, N.D. Feb. 19, 2022, at 3 p.m. CST, for our Maternal POWER™ Angus Bull Sale, where we'll sell 80 yearling Angus bulls.

When we crossed Rainfall on Capitalist, it worked nearly every time and 0124 is not any different. This nice-patterned, masculine and attractive bull will handle big country.

Recommended for use on heifers or cows. Lots 14, 15 and 16 are 3/4 brothers that would be excellent to turn out together to make a very uniform calf crop. The Rainfall x Capitalist combination really clicked.

Cattlemen & Friends - Welcome to the 2021 Badlands Angus Alliance Bull and Bred Female Sale. We are honored to continue this event with our friends and partners, Bests and Strommens, and the well-respected cattlemen who consign high-quality source and genetic verified cattle to this sale. From the beginning, our goal is to make it the premiere source for maternally bred, commercial Angus females in western North Dakota.

Talkington Angus Ranch is located on the edge of the Badlands between Belfield and Medora; we are the 4th generation and our children the 5th in the 115-year history of our family operation in this location. Our cow herd is run in rugged terrain on a year-round forage-based diet. The cattle must be easy fleshing, fertile, and structurally sound with good udders and good dispositions. Our registered herd is managed exactly like our commercial herd and very similarly to our customers' herds. This leads us to approach our breeding program with a balanced trait, maternal philosophy. It is becoming more common for individuals and groups within the industry and breed to advocate for selection for extremes in growth and carcass traits, we believe our years of data and real-life experience suggest that is not optimal for our environment. Without question, the number one factor for profitability in a cow herd is fertility. Intense selection pressure is the best way to make progress. That is why we practice a 45-day breeding season here, no excuses, no second chances. Maternal is a fairly vague term, but to us it is best summed up as problem-free, moderate, sound, efficient cattle. This, in turn, equates to longevity.

The 10 coming 2-year-old bulls we are bringing have been developed specifically for this sale since weaning. They have been grown with longevity and fertility in mind. They were backgrounded at a rate of 2.5 lb/day gain last winter and ran on pasture from June 1 and are still out on grass as I write this in late October. They are receiving supplementation now, but still have the ability to forage and get plenty of exercise. The bulls are all parent verified. Please feel free to contact us with any questions or requests for additional information or data. We also offer an invitation to stop by and evaluate the bulls before the sale at your convenience.

It was a difficult decision to part with this bull, he is one of the most complete bulls we have put in this sale. We feel he could be used on cows or heifers with confidence. His sire, 706, was our high selling bull in 2018 and we used him AI in 2018 and 2019. 706's first daughters calved this year, and they were some of our absolute favorites, moderate, easy-fleshing, and big-middled with beautiful udders. We bought him back this winter and then promptly lost him due to an injury this spring. 078's dam was one of our very best Regis daughters and posted a WR of 5/101. 078 is big testicled and good footed with a Scrotal Circumference EPD of over +2 and both foot EPD's ranking in the top 5% of the breed. We used 078 cleanup this year, he has passed a trich test and is on a full vaccination program.

This calving-ease prospect by Rainfall is moderate, stout, and probably the easiest fleshing bull in our portion of the offering. His Versatile dam is out of a cow that we acquired when we purchased the R&D herd out of Nebraska. She served as a donor for R&D and her sons were 3 of the 4 high selling bulls in our 2017 sale and we have had 5 of her daughters in our herd. Her ratio for weaning was 7/108.

This Navigator son is another bull bred for maternal excellence. When you study his pedigree it combines Black Cedar, Juneau, 6807, Density, Alliance, EXT, and the power bull Gridmaker. 0172's dam is becoming one of our highest producing young cows, with a weaning ratio of 3/111. She has caught AI all 4 years that she has been bred. His 10 year-old grand dam by Density adds to his potential for passing on longevity and fertility. 0172's oldest maternal sister by Tahoe weaned off the heaviest calf of all of our 2-year-olds with a ratio of 128 and bred back AI. His younger maternal sister by Tahoe weaned off with a ratio of 108 and is a standout in our heifer group.

The dam of this bull is the grandam of 035. Her pedigree contains Franchise, Foresight, Emulation 31, Rainmaker, Traveler, and Rito 707.

These adorable puppies will be ready to go to their forever homes just in time for Christmas! Contact the Bests for details.

Opportunity

IS MISSED BY SOME PEOPLE BECAUSE IT IS DRESSED IN OVERALLS AND LOOKS LIKE WORK.

Commercial BRED FEMALES

These bred females are the type and kind you can use to build a profitable, sustainable herd for generations. They are bred to be easy-fleshing cattle that are productive on minimal inputs, with enough emotional intelligence to be handled with minimal labor, and enough survival instinct to get out and forage, nurture their calves and bring in pounds at weaning. Many of them are carrying AI calves from proven calving-ease sires for a short calving period. They have been ultrasounded for calving dates, sorted for quality and disposition, source verified and bred to known calving-ease genetics. Sale order will be determined by Stockmen's Livestock, as they are managing this portion of the sale.

If you have cattle out of and bred to Talkington, Strommen or Best bulls and you'd like to consign bred heifers in 2022, please contact us!

8 AI BRED HEIFERS, DUE APRIL 10TH

7 BRED HEIFERS, DUE MAY 10TH FOR 10 DAYS

Contact: David & Nila Meuchel • (701) 483-6904 or (701) 260-0368

David & Nila are repeat consignors to this sale. Their numbers are down as they dispersed the majority of their herd last year and sold one of their ranches. I have worked with Meuchels for years and three things always stand out to me about their cattle: docility, fertility and calving-ease. The dispositions speak for themselves. Every year they have one of the best AI conception rates of any herd I work with. I have bought heifers from them in the past and you simply do not have to assist any births.

The 8 AI bred heifers were AI'd to SAV Rainfall. The bull bred heifers are bred to SAT Rainfall 026. There are a few Chisum 255 daughters in the group. Meuchals have purchased sons of Revival, Versatile, Rainfall and Emblazon. They have AI'd heavily to Capitalist, Chisum 255, Flat Top and War Party.

These heifers will weigh 1,100 lbs and were ultrasounded for sex and calving date by TK Veterinary Service. They are on a full health and mineral program and were vaccinated with Preg Guard Gold FP10 and poured with Ivomec.

Mike Heaton Family, McKenzie ND

50 BRED HEIFERS DUE APRIL 1ST FOR 50 DAYS

Contact: Mike • (701) 220-0496

Mike and Corrine are the fourth generation to ranch near McKenzie ND, their son and daughter-in-law Travis and Breann make the fifth generation on a ranch that has been in the family for more than 100 years. Heatons have been retaining their heifers since their inception. They have put years of pressure on labor-saving traits like low birth weights and good dispositions. They have been purchasing Best Angus and McDonnell Angus bulls for the past few years. They like the calving-ease and maternal traits they get from Best Angus combined with feed efficiency tested bulls from the McDonnells. Most of the heifers are from the heart of the Heaton herd, but Mike purchased some excellent purebred heifers from Medicine Rock Angus of Baker, MT last spring. These heifers were cleaned up by sure-fire calving-ease sons of Tribute and Box Cross from Best Angus.

Pregnancy ultrasounded by Steele Vet clinic. Expected sale weight of 1000# vaccinated with Preg-Guard and wormed with Long Range.

Best Box Cross 291

McCumber Tribute 702

Strommen Ranch, Solen, ND

30 AI BRED HEIFERS W/BULL CALVES DUE MARCH 12TH

Contact: Aaron & Sheyna Strommen • (701) 290-7983

Once again, we are bringing a special group of heifers purchased from long-time Strommen Ranch bull customers Zillich Ranch from Taylor and the balance are from the tremendous Jason Erickson herd of Beulah. 12 of these heifers are ½ sisters by the calving ease sire Mohnen Substantial. The genetic history behind these heifers is second to none. Maternal POWER™ genetics run deep with sires including Capitalist, Resource, Alliance, Bandwagon, Larks Canyon, Game Day, Motive, Final Answer, Thunder, Substantial, Torque and Bando 9074.

All 30 are AI'd to maternal and calving-ease specialist Montana Global 9129 for a March 12th calving date and each one carrying an AI-sired bull calf.

These heifers were ultrasounded by Mandan Vet Clinic for sex and calving date, are gentle and cake broke. They have a full health and mineral program including CattleMaster FP5 and Spirovac VL5, drenched with Safe-Guard and poured at ultrasound time. This is a tremendous set of heifers that have been very popular in past sales. These girls are herd builders!

Mohnen Substantial

Alex & Nancy Deis, Linton, ND

15 AI BRED HEIFERS W/BULL CALVES DUE MARCH 12TH

15 AI BRED HEIFERS W/HEIFER CALVES DUE MARCH 12TH

Contact: Alex Deis • (701) 321-1491

Repeat Consignors Alex and Nancy Deis have brought us another nice set of heifers that originated from the Hugh Connolly ranch south of Golden Valley, N.D. and they have done an excellent job developing these heifers. They have the influence of Resource, Payweight and International genetics from Strommen Ranch and Reich Angus. This will be a top cut of heifers and will weigh 1050-1100 lbs. on sale day.

They are AI'd to Strommen Ranch calving-ease sire Montana Global 9129. Global is a maternally bred calving-ease sire that was used heavily this spring in many heifer projects. Every one of these heifers carries an AI-sired calf for a March 12 calving date with 15 carrying bull calves and 15 carrying heifer calves. These heifers were ultrasounded by Steele Vet Clinic for sex and calving date, are on a full health and mineral program and are cake broke. Help yourself by taking these girls home.

Sorenson Ranch, Watford City, ND

50 HEAD ANGUS BRED HEIFERS DUE DATE MARCH 17TH FOR 20 DAYS
35 HEAD BLACK BALDY BRED HEIFES DUE MARCH 17TH FOR 24 DAYS
15 HEAD ANGUS BRED HEIFERS DUE APRIL 1ST FOR 30 DAYS

Contact: **Jarvis & Kadie Sorenson 701-570-6680**

Sorenson's ranch was established in 1906. Jarvis and his family focus on raising cattle that do well on Badland's pasture and thrive on tame grass. Jarvis has a keen eye for cattle and a great appreciation for longevity. This nice, deep ribbed, feminine set of heifers are all home raised from the heart of their herd. Due to dry conditions Sorensons, felt it was wise to sell off these very top end heifers. Sorensons have been using Talkington and Best Angus bulls for more than 10 years. These heifers are bred to a group of older Winchester sons purchased from Best Angus that has been used very successfully on heifers in the past. Sorensons have been very happy with the calves out these bulls in fall as well. Pregnancy ultrasounded by Dr Gary Scheiber. They should weigh 1000 to 1050 at sale time. They have been given PregGuard 10 in the Spring and ViraShield this fall and poured with Ivermectin.

Angus Alliance Winchester 975

Jerry Schmidt, Driscoll, ND

50 AI BRED HEIFERS DUE MARCH 8TH

Contact: **Jerry Schmidt • (701) 471-6906**

Repeat consignor Jerry Schmidt of Driscoll, N.D., is known for his outstanding bred heifer development program. He is bringing 50 purebred heifers from Thompson Angus. These heifers have a high percentage of AI breeding behind them. These are large framed big growthy heifers with generations of performance breeding behind them. Expect these heifers to mature into 1400-1600 lb. mature cows.

These heifers are AI'd to Schiefelbein Showman 338, every-one having an AI-sired calf and are expected to weigh 1100 lbs. by sale day. They were ultrasounded by Steele Veterinary Clinic and have been on a complete health and mineral program. They received Bovishield Gold FP5+VL5, Dectomax and Multimin in the spring and Cattlemaster 4+VL5 and Ivomec this fall.

Schiefelbein Showman 338

Ross Ranch, Grenora ND

50 HEAD BRED HEIFERS MARCH 20TH FOR 21 DAYS
50 HEAD BRED HEIFERS DUE APRIL 10TH FOR 30 DAYS

Contact: **Ryan & Rachel Ross 701-509-7490**

The Ross Ranch has been developing heifers for quite a few years in the Genora area. They typically market about 350 head of locally sourced heifers, selling by private treaty annually. Ryan works as an agronomist for United Agronomy and Rachel works as a nurse. Ryan was impressed by the Badlands Angus Alliance and asked how to be a part of the program. Ross ranch believes it is important to buy top heifers out of reputation herds. This past year is no difference. Steve and Wanda Nelson of Watford City allowed them to sort through their heifers which Ryan says was very difficult since it was a very even and impressive group. Nelson's have been buying our very top bulls since our first sale. The second set of heifers the Ross Ranch decided to purchase was the Ecker Ranch of Watford City. The Ecker's have been breeding outstanding females in the badlands for over 40 years. Their cowherd has a strong reputation. Along with some top Best Angus bull over the last few years they have built their cowherd with a combination of Shoshone and N-Bar genetics.

The heifers have been ultrasounded by NW Vet Clinic. They are vaccinated with Virashield and poured with Ivermectin. They are bred to Best Angus calving-ease bulls.

Best Box Cross 291

Warren Woroniecki, Hebron, ND

20 AI BRED HEIFERS, DUE APRIL 20TH
20 BRED HEIFERS, DUE APRIL 20TH FOR 10 DAYS

Contact: **Warren & Jodie Woroneicki • (701) 878-4088 or (701) 290-5689**

Woroneicki's focus on raising high fertility cattle that can thrive with minimal inputs. They practice year-round grazing with minimal hay supplementation. These cattle are handled almost exclusively with horses. Warren has finished many cattle and they feed well and regularly grade 100% choice and higher with 25% achieving Prime. Warren and Jodie are repeat consigners and the third generation of Woroneickis to ranch north of Hebron.

The AI-bred F1 baldy heifers are bred to Tehama Tahoe. They are out of Woroniecki Hereford cows and Angus bulls. The bull bred heifers are bred to calving-ease sons of Tehama Tahoe from Talkington Angus. Half of these heifers are out Woroniecki Hereford cows and Angus bulls and the other half are out of Reich Angus cows and Woroniecki Hereford bulls.

These heifers will weigh 1,075 lbs. and were ultrasounded for sex and calving date by Dr. Travis Kuhlka of TK Veterinary Service. They are on a full herd health and mineral program. They've been vaccinated with CattleMaster 5 VL5 and poured with Clean-Up and drenched with Safe-Guard.

Tehama Tahoe B757

David and Tammy Vetter Family, Berthold ND

35 BRED HEIFERS, DUE APRIL 10TH FOR 30 DAYS

15 BLACK BALDY, DUE APRIL 10TH FOR 30 DAYS

Contact: **Dave Vetter** • 701-720-1479

The Vettters are fourth year consignors that have been building their herd for over 25 years by keeping their own replacement heifers. During the first 10 years, the Vettters used an extensive AI program that focused on the bloodlines of 6807 and EXT. The only purchased females were in 2013 when they purchased a group of heifers from Best Angus and Ecker Ranch of Watford City. Vettters have continued to build their cow herd by combining Emulation and Ohlde bloodlines through purchasing bulls from Strommen and Best Angus. These fancy F1 baldies are sired by powerful Helbling Hereford bulls. These heifers were bred to a really nice Tribute son out of an outstanding donor of Best Angus and a Best Box Cross son. The heifers are very gentle and cake broke.

They were pregnancy ultrasounded by Dr. Kristi Best and are due to calve April 10th for 30 days. They will weigh 1050 lbs by sale day. The heifers received a full health program including Preg Guard 10, footrot vaccine, 7-way, CattleMaster VL5, Dectomax, Vitamin A-D, and the first round of ScourGuard.

AARON & SHEYNA, CASSIDY, COOPER & CLINT STROMMEN

join us for the **BADLANDS ANGUS ALLIANCE BULL & BRED FEMALE SALE**

December 1, 2021 • Stockmen's West • Dickinson, ND • 12 p.m. MST
50 COMING 2-YEAR-OLD ANGUS BULLS • 475 BRED FEMALES

The Best, Strommen and Talkington herds are each backed by a similar maternally-oriented, balanced-trait breeding philosophy. We each place heavy emphasis on fertile, efficient, easy fleshing cows, which is why our genetics fit well together for discriminating cattlemen who desire cattle backed by generations of maternal excellence – phenotypically appealing females with good feet, great udders and outstanding docility.

We invite you to join us in Dickinson on Dec. 1, 2021, for the Badlands Angus Alliance Bull & Bred Female Sale featuring elite, source- and genetic-verified bred females from our customers and stout, rugged, coming 2-year-old bulls from our respective programs.
