

As Lil Stars Sports reopens, we are modifying many of our operational procedures in accordance with guidance issued by the CDC, state, county and local officials. We ask that everyone review and comply by these procedures to help ensure a safe environment for our families and coaches. Please note that the following items are specific to Lil Stars Sports and that the independent facilities in which we operate may have additional guidelines.

Effective June 3rd, 2020

1. We are limiting the number of people at our classes by asking customers to:
 - a. Have only one parent/caretaker accompany each child participant.
 - b. Limit the attendance of unenrolled siblings when possible. Any siblings or child guests will be asked to stay near the parents while in the building.
2. We have arranged ample seating space and options for spectators to aid in social distancing while inside the building or on the field.
3. We will control the traffic flow into and out of class and designate “waiting areas” for families to wait until the previous groups have exited the field of play.
4. Our coaches and staff will wear masks while inside the building.
5. Adult customers are required to wear masks while inside the building. Children are strongly encouraged to wear masks, but are not required.
6. We will perform a touchless temperature check for anyone entering the building. In cases of anyone with a temperature exceeding the guideline of 100.4 degrees, no one in that person’s group will be allowed to enter the facility. Make up options will be available.
7. Each person entering the building will be asked to confirm they answer “no” to the following list of questions per the CDC.
 - a. Have you or your child been in close contact with a confirmed case of COVID-19 in the past 14 days? (Note: This does not apply to medical personnel, first responders, or other individuals who encounter COVID-19 as part of their professional or caregiving duties while wearing appropriate PPE.)
 - b. Are you or your child experiencing a cough, shortness of breath, or sore throat?
 - c. Have you or your child had a fever in the last 48 hours?
 - d. Have you or your child had recent loss of taste or smell?
 - e. Have you or your child had vomiting or diarrhea in the last 24 hours?

If the answer to any of these questions is “yes”, the employee, parent or child will not be allowed to enter the facility and the student will not be allowed to participate that day. Make up options will be available to encourage those who are sick to stay home.

8. Anyone entering the building will be required to wash or sanitize their hands immediately after checking into the building.
9. We will regularly disinfect shared surfaces and common areas.
10. We have modified our curriculum to conform to distancing guidelines. There will be a greater emphasis on individual skills and activities that can be conducted in space.
11. We are limiting the number of participants in each class to stay within or below the recommended guidelines.
12. We will not reuse the same piece of equipment (excluding soccer balls) during a class. Once a piece of equipment is used by a participant, it will be deposited into a “used” pile which will be properly sanitized before use in our proceeding class.
