

The United States of America

I don't believe in red states or blue states
Black states or white states
Me states or you states.

I don't believe in rich states or poor states
Northern states or southern states
It's only me and you.

I just believe in the United
You and me, reunited.
I believe in the United
United States of America.

I don't believe in the right wing or left wing.
I believe in an eagle soaring as far as you can see.
I don't believe in the East coast or West coast.
I believe in coast to coast.
From sea to shining sea.

I just believe in the United.
You and me, reunited.
I believe in the United
United States of America.

I don't believe in politicians.
And, I don't believe in forcing your religion.
I just believe that we're all in this together.
The United States of America.
