

BUSHMASTER ADVENTURES

COSTA RICA PACIFIC HERPING TOUR
10 Night/11 Day: 13-22 JULY 2020
(deadline for deposit: 1 JUNE)

PRICE: \$1800 USD per person

DESCRIPTION

Explore the Pacific side of Costa Rica, from the dry north to the humid south. Discover the herps you ever dreamed about! Eyelash vipers, pit vipers, rattlesnakes, huge crocodiles, phantastic tree frogs, glass frogs, poison frogs and much more.

This expedition to the Pacific versant of Costa Rica is intended to find and photograph some of the most marvelous and spectacular species of amphibians and reptiles in Central America. Costa Rica is known by its huge biodiversity in such small area, with more than 440 species of reptiles and amphibians in 50.000 km². In this expedition we can observe around 100 species in 10 days (of course this is not a promise, as we deal with nature!), and will visit six different locations, one of Caribbean influence, two in the dry (xeric) area, and 3 along the southern pacific (rainforest).

YOUR GUIDE

Cesar Barrio-Amoros

Scientific director and photographer Spanish herpetologist who dedicated his life to the understanding and conservation of nature.
