Please note: (please refer to individual page notes where applicable)

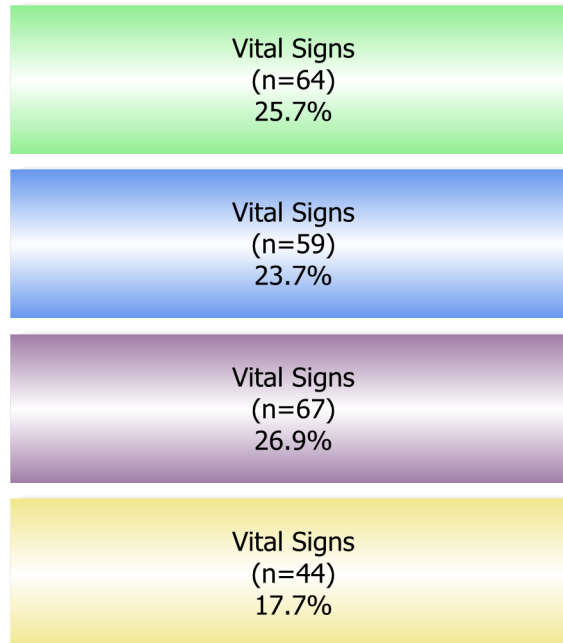

1: Information correct on 4th August 2015

* - Year to date figures are provided for these reports

Deceased patients and cases where crew discretion has triggered the tool will appear in the total figures but not within one of the Steps 1 – 4.

**Total Triage Tool Triggers
(n=249)**

Trauma Injury Type	Count
RTC	105
Falls	67
Stabbing	27
Other Transport Collision	6
Burns	9
Other	8
Assault	7
Leisure Activity	11
Industrial Injury	3
Unknown	2
Agricultural Accident	3
Shooting	1
Total:	249

**Step 1
Vital Signs
(n=64)**

Respiratory Rate <10 or >29 / min
(n=12)
18.8%

Systolic Blood Pressure <90 mmHg
(n=6)
9.4%

Glasgow Coma Scale <14
(n=46)
71.9%

Trauma Injury Type	Count
Falls	26
Stabbing	3
RTC	24
Assault	6
Leisure Activity	3
Unknown	1
Industrial Injury	1
Total:	64

Step 2
Anatomy of Injury
(n=59)

Penetrating to Neck/ Chest/ Abdomen (n=30) 50.8%
Suspected Fractured Pelvis (n=20) 33.9%
2 or more Long Bone Fractures (n=4) 6.8%
Crushed/ De-gloved /Mangled Extremity (n=1) 1.7%
Amputation Proximal to Wrist/Ankle (n=0) 0.0%
Open or Depressed Skull Fracture (n=0) 0.0%
Sensory or Motor Deficit (now onset) (n=4) 6.8%

Trauma Injury Type	Count
RTC	19
Stabbing	22
Falls	5
Leisure Activity	4
Other Transport Collision	2
Assault	1
Industrial Injury	2
Other	3
Shooting	1
Total:	59

Step 3
Mechanism of Injury
(n=67)

Fall > 6m / 2 storeys in Adult (n=4) 6.0%
Fall > 3m / 2x height of Child (n=6) 9.0%
Vehicle - Ejection (partial or complete) (n=2) 3.0%
Vehicle - Intrusion >30cm at Patient Site (n=10) 14.9%
Vehicle - Death in same Compartment (n=0) 0.0%
Motorcycle Crash > 20 mph (n=16) 23.9%
Pedestrian / Bicyclist vs Motor Vehicle thrown/run over/ significant Impact (n=24) 35.8%
Entrapment (n=5) 7.5%

Trauma Injury Type	Count
RTC	52
Falls	10
Other Transport Collision	3
Leisure Activity	1
Agricultural Accident	1
Total:	67

**Step 4
Special Conditions
(n=44)**

Age > 55 (n=29) 65.9%
Children < 8 years old (n=1) 2.3%
Pregnancy > 20 weeks (n=1) 2.3%
Renal Dialysis Patients (n=0) 0.0%
Bleeding Disorders / Anticoagulants (n=0) 0.0%
Time Critical Extremity Injury (n=1) 2.3%
Burns: Circumferential or 20% (BSA) (n=7) 15.9%
Specialist Trauma Pathway (n=5) 11.4%

Trauma Injury Type	Count
Falls	24
Burns	8
Other	3
RTC	5
Leisure Activity	2
Agricultural Accident	2
Total:	44

Deceased patients and cases where crew discretion has triggered the tool will appear in the total figures but not within one of the Steps 1 – 4

Total Triggers	
Step 1: Vital Signs	197
Step 2: Anatomy of Injury	218
Step 3: Mechanism of Injury	290
Step 4: Special Conditions	146
Crew Discretion	17
Injuries Incompatible With Life – Deceased	57
Total	925

Trauma Type	
RTC	431
Falls	233
Stabbing	104
Burns	31
Leisure Activity	28
Assault	24
Other	23
Other Transport Collision	17
Industrial Injury	14
Unknown	10
Agricultural Accident	7
Shooting	3
Total	925

Step 1 Breakdown	
Glasgow Coma Scale <14	143
Respiratory Rate <10 or >29 / min	33
Systolic Blood Pressure <90 mmHg	21
Total	197

Step 2 Breakdown	
Penetrating to Neck/ Chest/ Abdomen	98
Suspected Fractured Pelvis	67
2 or more Long Bone Fractures	23
Sensory or Motor Deficit (now onset)	15
Open or Depressed Skull Fracture	7
Crushed/ De-gloved /Mangled Extremity	5
Amputation Proximal to Wrist/Ankle	3
Total	218

Step 3 Breakdown	
Pedestrian / Bicyclist vs Motor Vehicle thrown/run over/ significant Impact	103
Motorcycle Crash > 20 mph	77
Vehicle - Intrusion >30cm at Patient Site	37
Fall > 6m / 2 storeys in Adult	23
Fall > 3m / 2x height of Child	22
Entrapment	20
Vehicle - Ejection (partial or complete)	6
Vehicle - Death in same Compartment	2
Total	290

Step 4 Breakdown	
Age > 55	96
Burns: Circumferential or 20% (BSA)	22
Children < 8 years old	13
Specialist Trauma Pathway	9
Bleeding Disorders / Anticoagulants	3
Time Critical Extremity Injury	2
Pregnancy > 20 weeks	1
Total	146

Step 1 - Trauma Type

This data does not include cases where the crews are not contacting the Regional Trauma Desk, any trauma transfers or cases which are responded to by out of area resources.

	April	May	June	July	August	September	October	November	December	January	February	March	No Value	YTD
No. of deceased patients	16	16	23	17										72

Trauma Injury Type	General Area	Deceased Notes
Leisure Activity	Buxton	In traumatic cardiac arrest on crews arrival, however BLS and ALS performed but ROLE'd after 20mins.
RTC	Weston	
Burns	Kings Heath	Flat above business premises, Flat Fire, removed from address by FIA. O/A CP; non viable for resus', "Incinerated". ROLE @21.08hrs, left with PCSO.
RTC	Leebotwood	Pt in a pick up which ? lost control and veered into oncoming traffic. Injuries incompatible with life.
Falls	Newcastle	
RTC	Kingsbury	
Stabbing	WILENHALL	
RTC	Rugby	Traumatic Cardiac Arrest after being reversed over by car, major traumatic injuries, including head injury, chest injuries & bilateral open # femurs. Full traumatic cardiac arrest protocol followed. death confirmed at 10:50hrs by Dr Ravi Chauhan MD055
RTC	Smethwick	Motorcyclist, thrown from bike. O/a responder pt face down with agonal breathing, confirmed cardiac arrest, PEA rhythm. PT obv' head injury, Airway injury with laryngeal deformity, crepitus and air entraining through cheek wound. Pt has chest injury and ?# to all 4 limbs. ROLE at 14.23 by HMed Dr.
Unknown	Birmingham	Pt found near car park with massive traumatic injuries. ? how long he had been there for. Possible jump from roof.
Stabbing	Walsall	Pt cut throat. Deceased on arrival and beyond help
RTC	Princethorpe	Pt in cardiac arrest on crew arrival. CPR carried out. Role on scene.
RTC	Stafford	Pt trapped and crushed within the car
RTC	Stafford	Pt crushed and trapped within the car
RTC	Chipping Camden	Polytrauma, cardiac arrest on impact futile efforts with BLS, ALS and bilateral thorocostomy's.
RTC	Burton On Trent	Polytrauma
Other Transport Collision	Coventry	Pt jumped in front of a train. Decapitated. ROLE
