

Note: This instruction sheet shows illustrations that should be used in conjunction with the photographs on Disc 1 "Bling Zonker".

Step 1: Secure 2 strips of .030" lead to bottom of hook shank. (Disc Photo "Bling Zonker 1")

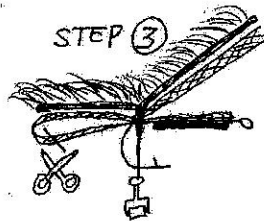

STEP ①

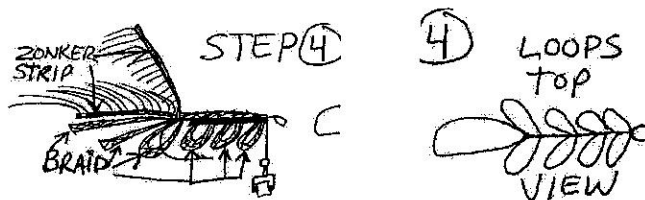

Step 2: Cut a 14" length of Pearly Silver Bill's Bodi-Braid. Tie in behind hook eye and secure along top of hook shank, stopping at hook bend (Disc Photo "Bling Zonker 2"). Form a loop off of the rear of the shank equal to the length of the hook shank and secure at hook bend. (Disc Photo "Bling Zonker 3")

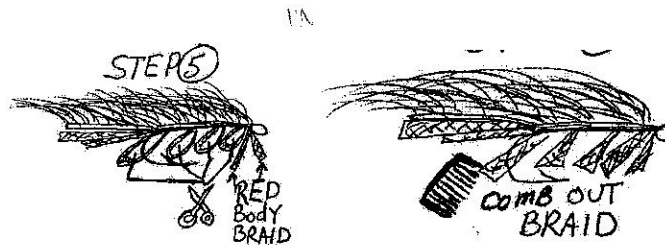

Step 3: Measure the Zonker strip (White, Yellow, Olive or Chartreuse) equal to the length of the shank and secure at the hook bend (spreading the hair for thread wraps, Disc Photo "Bling Zonker 3"). Bring thread in front of the tie down point of the Zonker strip and Braid, pulling tag end and Braid rearward & out of the way. Cut the tail Braid loop off center.

Step 4): Make a series of loops with the Braid on each side of shank (Disc Photo "Bling Zonker 4A"). Tie the 1st loop at hook bend, this loop should be 1/3 the length of the tail loop. Continue making 3 more sets of loops evenly spaced and a little shorter than 1st set of loops, stopping 1 eye length behind the eye. (Note: Pass the Braid under the shank after securing each loop) Cut off excess Braid.

Step 5: Bring Zonker strip forward and secure behind hook eye (Disc Photo "Bling Zonker 5a"). Tie in a short piece of Red Bill's Bodi-Braid under the shank for the throat (this should be a folded/double piece of Braid, Photo "Bling Zonker 4B") and tie off. Cut all loops slightly off center (Photo "Bling Zonker 5B") and comb out the braid. Trim to a Zonker shape if needed.

Step 6: Place 1/8" Silver/Black Prismatic eyes and finish off by cementing head area.
