

Building your food safety culture www.feedpctraining.com richard@feedpctraining.com

“This has been by far the most interactive compliance class I have ever taken; OSHA, EPA, etc. I really enjoyed how the class groups stayed with the assigned issue through all the learning objective. It shows the “cradle to grave” steps needed to develop my Food Safety Plan.”

Tim C., Portland 2016 PCQI Student

“We were pleasantly surprised with the training. Often when you hire an outside company you don’t know what you may get. The instructors did a great job making sure we got the key concepts. Not only were they professional, but they were friendly. It made for a great learning environment. The pace and length of the class was perfect for the highly regulatory content.” 5 stars out of 5,

Erin B., Harrisburg PCQI Student November 2016
