

# ALUMINUM SCREEN RACK

*Dependable Efficient Durable*

**The Aluminum Screen Rack is an essential tool for even the smallest screen printing operations. Constructed of rust free aluminum, it is light weight as well as sturdy. The Aluminum Screen Rack efficiently stores 20 frames and is universal to work with both 20x24" and 23x31" (outside dimension) static frames. It can be easily moved around the shop from wash booth to press or rolled out of the way on the locking castors that are included with this stock item. The Aluminum Screen Rack can also be ordered in custom sizes and offers several modifications to match specific types of screens and frames.**
