- 2 Press the Navigation buttons to select to On.
- 3 Press the Navigation buttons to scroll to one of the devices and press OK.

## SETUP TYPE 2

### LG Magic Remote – Simplink

SimpLink, you control external devices connected by HDMI to your LG TV with the TV's [Magic Remote](#). it enables an external device to power on the TV, and for the TV to power off external devices. Configure the SimpLink options for each device as you connect it to your LG TV.

#### Step 1

Press the Home button on your Magic Remote and then select the Device Connector using the navigation keys on the Magic Remote.

#### Step 2

Choose from the menu the type of device you're connecting -- for example, a Blu-ray player.

#### Step 3

Choose the HDMI port you're using for the device. Connect the device to the TV using a high-speed HDMI cable and choose Next on the screen.

#### Step 4

Move the SimpLink slider to the right to the On position for the device.
