STONY BROOK MEDICINE
CHILD LIFE DEPARTMENT

Dear Beatrice Haas,

The Child Life Program and the families at Stony Brook Children's are so thankful for your wonderful donation. The holidays are a tough time to be hospitalized, but with your donation of toys, we were able to bring smiles to our patient's faces and helped them enjoy the magic of the holiday season.

Not only has your generosity helped the Child Life Department to normalize the holidays, but it allowed us to lower the stress and anxiety for our parents. Donations like yours, help alleviate the pressures that the season brings and allows our patients and families to relax and celebrate with joy.

We are appreciative of the thoughtfulness you have shown toward the Child Life Program at Stony Brook Children's and the happiness that you helped to bring to our families. Our patients and families had a very happy holiday thanks to your donation! We look forward to working with you in the future. Please accept our sincere thanks for your donation from all of us here in Child Life.

Sincerely,

Courtney Knabbe MS, CCLS
Certified Child Life Specialist
Stony Brook Children's Hospital
