The price of Bankcoin cannot go below \$1375 per Bankcoin, but it can rise if Gold rises above \$1375 per ounce and is therefore stable.

An additional advantage to convert from Bankcoin.Global into Bankcoin is, that Bankcoin's proprietary patented mining algorithm is protected by 9 patents, delivering a 10% mining valuation per year.

Bankcoin.Global owners that choose not to convert, can sell their Bankcoin.Global at the exchange or they can keep it, but the conversion offer ends on 5/12/2019 and afterwards NO conversions are accepted any more. The value of Bankcoin.Global after 5/12/2019 will be what its trade value is at the exchange.

New Conversion Bankcoin owners cannot sell their Bankcoin for 1 year. After 1 year they are free to sell parts or all of it at a stable price of minimum \$1375, depending on the gold price.

After 6 months New Conversion Bankcoin owners can take up loans up to 20% against the value of their Bankcoin portfolio.

This opportunity to exchange Bankcoin.Global to Bankcoin provides great security and assurance to all Bankcoin.Global holders and unifies the price of Bankcoin globally to the current determined price of Bankcoin, which is determined by BCR once a month, currently at \$1375.
