

Dear Theory 0.5 Students,

I hope you are all well and helping your families remain healthy, too. I miss you!

Thank you to those of you who emailed me your completed assignments. You are doing quite well!

I have attached a couple more worksheets for you to do. The first will help in getting you ready for a test on Key Signatures. You can check your work after you are done against your Circle of Fifths chart.

Here is a link to online Key Signature Flashcards.

<https://www.musictheory.net/exercises/keysig>

You can set it for learning 4 key signatures to begin with, then adding more until you know all the Major and Minor key signatures. You will be so far ahead!!!

The second worksheet will help you remember or learn terms and symbols. If you have a Music Dictionary, you are welcome to check your own work.

Stay well, talk lots on the phone with your friends and take care,

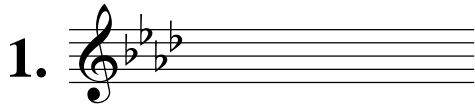

Dr. Loma L Cobbs
