6	We don't use any and are on a limited income.	8/2/2016 9:24 AM
7	We need more than a golf course!	8/1/2016 4:43 PM
8	The rifle range is poorly kept. It used to be that there were railroad ties Barried in front of the backstops and they would hange pieces of OSB between them. It kept people from dragging pallets and trash out to the range to shoot. About twice in the summer they would change out the OSB and put up new. It's in expensive and doesn't make the range look like a community dump. In addition to that I don't know why we can afford a 2 million dollar club house but can neglect the course itself. When you drive up the driving range has been let go and looks like shit it's the first thing you see. The greens are hard as a damn rock. The fairways look about dead. Can we seriously not afford to water 2 million buys a lot of water . On a few of the par threes they ripped out the grass and put some sort of shitty weed that looks horrible that course use to be nice. I went in the club house a year or two back several times through out the summer . The air conditioner was out where you check in and it remained out for about two and a half month. Common it's a two hundred dollar unit that takes just minutes to fix. That same summer I signed up for lessons three different times only to have the pro not show up no call no nothing he sucks as a professional it's his little social club that we all pay for and it's widely known by many funny how that president was made to resign right before his contract was coming up and he was in violation of several areas of his contract , but obviously he has friends in high places. Probably part of his social club.We pay for this shit and its ridiculous	8/1/2016 3:28 PM

30	Amenities are set up for certain members such as horse owners.	7/21/2016 12:13 PM
31	We need activities for young people. Water the grass at the sports complex might be a start. My son broke his ankle in a squirrel hole playing baseball. Put some bathrooms in down there. Spray the weeds around three horse palace, they are taking over the neighborhood. Stop drive through traffic at the horse palace, things go on there in the early morning such as 1 or 2 am.	7/21/2016 6:58 AM

32	We are required to pay extra for amenities that were originally included in our monthly dues for "maintainer and improvement purposes" and then have yet to see regular maintenance or any improvements whatsoever. Our dues were raised in order to pay for a new a club house on the golf course, yet when a friends horse died because regular maintenance and repairs were failed to be made, it went largely ignored.	7/20/2016 9:06 PM
33	the marina park is our only one, it should be improved!	7/20/2016 6:57 PM
34	Charge extra for those that golf, use firing range so they are self sufficient	7/20/2016 2:44 PM

41	They are nice but this isn't Elko, we didn't move here for another Elko	7/19/2016 2:50 PM
42	These are financial investments that must be maintained to maintain their value and to be of value to the Assn. they are of great value to the membership.	7/18/2016 5:28 PM
43	We need better parks for the youth of spring creek	7/18/2016 12:54 PM
44	Don't expand additional amenities without cost feasibility including four wheeler trails. Do not develop open spaces.	7/17/2016 2:30 PM
45	Keep Open Space Lands undeveloped (as-is conditions) Don't build new w/o cost feasibility study. Address nonowners "free" use of SCA facilities, i.e. building on SCA boundaries and putting driveways onto SCA roads. Developers connecting gravel roads, not surfaced-air quality issue.	7/17/2016 2:30 PM
46	Football fields, swimming pool, tennis courts. Things for people to do!!	7/16/2016 10:10 AM
47	I would like to see a pool, tennis courts and basket courts for our community. Create a community center with these amenities.	7/16/2016 9:52 AM

9	The road maintenance and repair department need proper training in order to use "best practices" for patching and chip seal. Their policy of leaving standing gravel and track out on the road is actually contributing to further degrade the surface that they are trying to maintain.	8/4/2016 10:18 AM
10	Roads need to be fixed and maintained all of them.	8/3/2016 9:25 PM
11	need to start cleaning up sp creek looks like shit	8/3/2016 6:54 PM

13	Specifically snow removal and sweeping gravel off the road	8/1/2016 7:35 PM
14	Alright let's start with the snow plowing they don't plow all the roads now like they used to they just plow the main roads which is crap. Lots of people are pissed about that. The roads are crumbling in places like abate drive as well as many others when they patch they don't do it right they have not once that I have seen went through and sealed the roads to prevent this kind of crap . what the hell are you spending the money on ???someone should go through the books to see what's going on . They used to do a lot more with less. Oh that's right the signs . What bullshit you guys must think we are idiots . 3 dollars a month more per property owner to cover the cost .. Really !!! Bam month and half and paid for .. But we will pay that forever now . Property values are down because of our water issues caused by the associations sell off and the fact that the association does nothing anymore !!	8/1/2016 3:28 PM
15	Fix water issues, tackle weeds, clear roads in winter	8/1/2016 12:47 PM
16	We need roads that don't get destroyed every spring	7/31/2016 5:17 PM

22	Basis: Water, Roads, Power, Comm's	7/27/2016 1:46 PM
23	Don't forget to ensure the community is bikeable and walkable. Start incorporating bike access per the county bike plan.	7/26/2016 9:42 PM
24	You can drive golf carts on the streets why not our side by side?	7/26/2016 8:00 PM
25	Real paving-patching in long-run, less chip-sealing	7/26/2016 12:11 PM
26	RV sewage dump would be very high priority	7/26/2016 11:37 AM
27	I live on Flowing Wells Ln and constantly have massive pot holes that go months before anyone attempts to fix them. Then the work is sub par. In winter if the plow comes through my road it pushes all the snow into a pile that blocks my drive way and I can't get my vehicle out.	7/26/2016 9:46 AM
28	Quality of roads is ridiculous	7/25/2016 9:31 PM
29	current maintenance is satisfactory	7/25/2016 1:50 PM
30	Since County Taxes are a contribution as per laws, Assoc. fees can be used elsewhere.	7/25/2016 9:08 AM

40	Nice to drive a road without a pot hole	7/19/2016 2:50 PM
41	one of the biggest draw of the Assn is the fact that all of the roads are paved. No other entity in the county can say as much. Our previous home was 8 miles off the oil. It was quiet, but dusty and hard on cars.	7/18/2016 5:28 PM
42	Better snow removal in the winter and upkeep of the roads all season	7/18/2016 12:54 PM

50	Including snow removal on all streets	7/15/2016 5:38 PM
51	the funds received by the association are already promised to this cause, but many times, zero attempt is made maintaining it. general maintenance is far more cost effective then full repair or replacement. fiscal responsibility dictates that the roads and facilities should never have fallen into a state of disrepair.	7/15/2016 3:24 PM
52	So many roads need to be redone as opposed to the repeated chip-seal process.	7/15/2016 3:17 PM

The golf course clubhouse is not an awesome community facility, and the idea that the conference rooms in it be used by the community is not really efficient use of our HOA fees. 5	The vision at the outset was good. Stay with it by developing it as long term.	7/27/2016 3:58 PM
6	Base on quality of living out here, not just growth. When Northern Nevada moves to less gold output (this will happen), people will find a reason to stay (retire maybe, other job opportunities). Hundreds of empty houses doesn't help any of us.	7/26/2016 1:52 PM
7	This actually should have already been done, prior to issuing this survey. SCAs vision is currently warped. You are attempting to engage in activities that are none of your business.	7/22/2016 2:46 PM
8	As long as property values are protected.... I am all for it	7/18/2016 5:49 PM

136	The water cost issue. Many neighborhoods are looking more like some old has-been mining town with dead yards and weeds all over the place. New houses are going this way too. The worst the visual image, the more we trend towards Spring Creek residents being the first to leave and not be replaced by new residents. Ultimately helping lead to hundreds of empty houses.	7/26/2016 2:02 PM

Perhaps be sober and present at your job, Jason. How's that going to work when you have a brand new facility and he runs that into the ground? No where else in the world do you leave underage kids in charge if adult tournaments and he's not even present. No where else do you have employee checks that repeatedly bounce. No where else would he still have a job.	7/20/2016 5:58 PM

Q15 This is not a question, although it should stimulate questions or comments that you can put below. The information below is referencing the Association's efforts to understand if we should continue as an Association or become another entity such as an unincorporated town, General Improvement District, or combination. This is purely informational as we do not have enough of the facts to present the question to our membership at this time. Please keep updated by reviewing the Association's website and Facebook page as input will be needed from the residents on what they want to see happen. Our next steps (general time frame) in getting closer to an answer: July 2016 - Board vote on consultant to prepare information on what type of entity would be best for the Association August 2016 - Work by selected consultant to begin December 2016 - Initial findings presented to the board January 2016 - Community meetings to inform citizens, get feedback and answer any questions HISTORY: The Incorporation Committee of the Spring Creek Association recognizes that the Spring Creek community has reached a crossroad. Spring Creek's population has grown so that it now rivals neighboring Elko, and the population that first settled the area has changed demographically, so that what it needs and values now has evolved from the rural and outdoors-focused group that initially became residents. Additionally, issues such as adequate police, fire, water and other services have increasingly been seen as lacking. Finally, the amenities that brought the initial residents to Spring Creek have fallen into varying states of disrepair and are of decreased importance to a growing segment of the area's residents. How to address this expanding number of concerns means looking at the future goals and needs of this community and how best to achieve meaningful results. The Incorporation Committee sees its purpose as both educational and, ultimately, suggesting a course of action that will settle the following questions: What is the vision for what Spring Creek will be in five, ten and twenty years? What are the needs of the Spring

SCA Community Survey

Creek residents, both owners and renters, as well as businesses, now and in the future? What would make Spring Creek a place businesses, owners, and renters would want to call home? What would be the best governmental structure to accomplish these needs? What are the financial implications of each of the governmental alternatives that might be utilized? The Incorporation Committee sees a need for research, planning, and implementation on the part of the Spring Creek Association board and citizens for this community. If nothing is done, Spring Creek will continue to move from problem to problem and crisis to crisis, always reacting rather than seizing control of its own future. Want to know more? 8	"needs and values now has evolved from the rural and outdoors-focused group that initially became residents..." Where did this come from? I honestly don't know anyone who chooses to live here that is not rural and outdoors focused! Why do people choose to drive 15+ miles from where services are if they didn't want to be part of a rural community? A lot of the population that first settled is still here, they have just been overrun by an influx of new people. Have you considered the number of people that are leaving and where they are going? Many choose more rural areas because of how crowded it is becoming, rude neighbors, dogs running loose, drunks, crazy people shooting in their backyards with no regard for the safety of those around them!	8/2/2016 10:34 PM

10	You have a problem. You did not protect owner occupied property values when you allowed over development of rentals. Businesses are closing in town for various reasons but it will continue. No attraction to open in spring creek unless necessity, food and gas. Another restaurant possible. We are going to face high vacancies in next couple of years. How will remaining residents afford fiscal increases for police and municipality services then. Reject the Dev by the high school, don't let that developer push his problem onto us. The fines should address the important things, the homes roofs or siding. Going after fences and stuff is so petty. Community watch would be good. Horse palace is a joke. New mortgage regs make the surrounding houses zoned commercial nearly impossible to sell or refinanced on secondary market. Help those honeowners change their zone to residential. Just be smart and protect the integrity of the homes, the long term structures, so that they don't become eyesores.	7/31/2016 7:39 PM

However, I do more shopping out of town as well as online for better prices. This town needs to grow and bring in favorable retail. We have some much space here that can accommodate better shopping as well as still have the "rural areas" that people like.	7/22/2016 5:59 AM
29	It is our opinion we should remain an association. That is why many of us live in Spring Creek and not the City of Elko. Less government, less taxes, less push for all the stores and amenities. Most of us work in Elko and come home to Spring Creek rather than buying in Elko.	7/21/2016 9:37 PM

36	I moved here 27 years ago. What drew me to SC were the mountains - unadulterated by condos and housing - and wide open spaces. The mountains are still there and need to remain the way they are. The open spaces in the residential areas are decreasing as more people move in. That makes the open space we have that much more important to older timers like me and to new residents who move to SC for much the same reasons I did. I think the basic vision of SC remains the same for more than 20 years in the future - the mountains and open space, but with a planned community that doesn't degrade but benefits the basic vision. First, I would review the zoning as laid out for the association. Does it need to be adjusted? I don't want businesses on every corner or in every neighborhood. I don't know the best governmental form to meet future needs, but depending on owner fees doesn't seem feasible. A governmental structure that provides for a solid tax base for funding and planning of facilities is probably the best way to go as long as it replaces the ownership fees. This would allow for bonds, etc. though I like the pay as you go system of the ECSD. That makes planning all the more important. How big would Spring Creek be? I could see it taking in not only the association but other developments and schools along the Lamoille Hwy Corridor from the summit to Lamoille. Then residents would have the maximum say in its development and resources for the development. I would be interested in serving on this committee.	7/19/2016 8:31 AM

38	I do NOT want to go to a GID... I do NOT want our amenities sold.... I want our property values protected. Q16 Would you like the Association to pursue legislative changes with our local representatives in an effort to help or try to reduce costs and increases to the water rates? By doing this, the Association may need legal representation which could cause additional funds to be used out of the Associations budget. HISTORY: An effort on the Association's part to try to help our membership with water rates and increases.

Although the Association has nothing to do with water rates or increases, we feel an obligation to help our residents with this large concern. Our Association has put together a volunteer Water Committee whose focus is to establish water

conservation practices, communication to Utilities Inc. and the Public Utilities Commission regarding any issues, and to ultimately try to help reduce the burden to our membership. FREQUENTLY ASKED QUESTIONS: Who controls the water rates?

There is a common misconception that the Spring Creek Association increases water rates.

This is not the case. Spring Creek Utilities, a private company whose parent company is Utilities Inc., owns and operates the water system.

Your Association has a water committee that develops responses to requests for increases made before the Nevada Public Utilities Commission by Spring Creek Utilities. Although our Association has fought in the past to help scale down the rate increases, ultimately the decision is made by Nevada Public

Utilities Commission, which governs water utilities.

Our Spring Creek Association does not request or set rates. Instead, our Spring Creek Association has appeared at PUC meetings to contest rate increases in the past with some success. Want to know

when there is a request for a rate increase? Sign up by [Clicking Here](#) to receive email contact from the PUC. Are the water rates going up again? Our

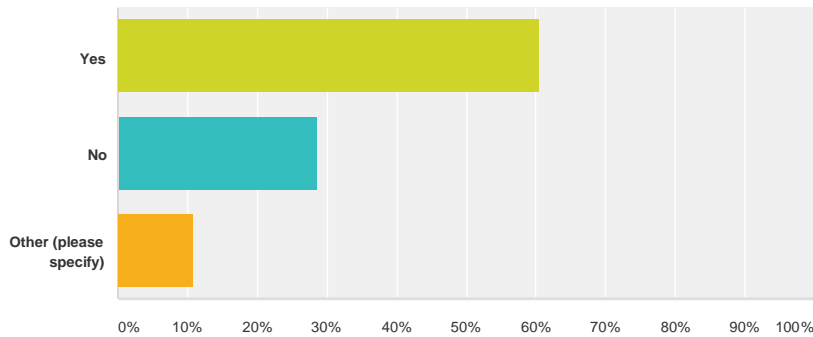

water infrastructure, like so many in our country, is old and needs repair. Costs will go up. How much is the question. Spring Utilities Inc. has requested increases and recently passed legislation has made it easier for them to start new projects and pass along the costs. Your Association is also studying what its role might be. This may include

forming our own water district or perhaps incorporating into a community. These are big moves with a lot of consequences. The

SCA Community Survey

Water Committee and Incorporation Committee are working together to see what might be in the best interests of the Spring Creek area. Will our water rates go down as the SCA and property owners reduce water use? A loss in income due to customers cutting back, either due to water costs or conservation efforts, will likely trigger an application to the PUCN for a rate hike. By state law, the water utility is allowed to make up to a pre-defined profit margin. Nevada State Senate Bill SB 436, passed back in 2013, also allows the water utilities to recover revenues lost due to lower water consumption. Since conservation of water reduces the water utility's revenues, they are able to apply to the Nevada Public Utilities Commission for higher rates to offset the loss of income for the utility due to the conserved water. So, what can you do? Talk to your local legislators and the Nevada Public Utilities Commission about your concerns. Click Here and scroll to the bottom of the page to get contact information for local legislators, PUCN, and others.

Q17 Should OHV/ATV's be allowed on roads within the Spring Creek

Association? HISTORY: In June 2014, the County commission approved an ordinance to allow ATV's on many county roads. The intent was to allow off-highway vehicles the use of roads to link riders to popular trails. However, several residential areas were excluded from ATV use, including roads within our Association. Some people do follow the rules and don't take ATVs into restricted areas, but some people ride their off-highway vehicles not only on roads in

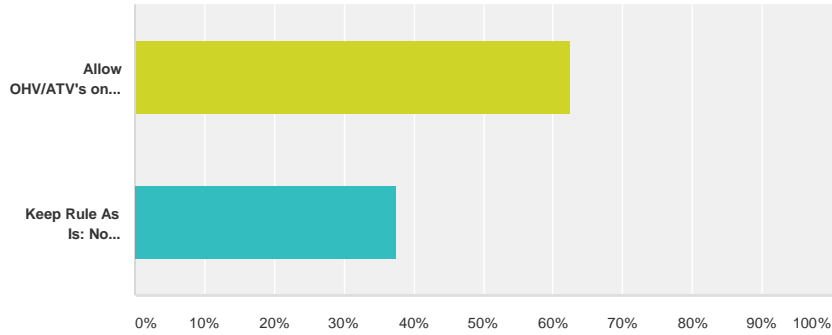

Spring Creek, but also on the greenbelts that are used largely by horses and pedestrians. Currently, ATVs are not allowed on Association roads, near water, on equestrian easements or in public spaces. ATVs can be ridden on private property so long as it does not create a nuisance and there are no track or jumps present. Below you will find key points from our Community Forum and Focus Groups for and against allowing this type of usage. Review the County Rules By

CLICKING HERE REASONS FOR & AGAINST ALLOWING:FOR Allowing: To permit residents direct access, via designated routes/sides of road with posted speed limits and helmet requirements, to areas outside the Association where they can ride (Chapter 8 Title 2 Section 3 and Section 4 Item C of EC Ordinance 2014-09).To help curb ATV/OHV activity on private property which can create a nuisance to surrounding

neighbors. AGAINST Allowing: Increase in ATV/OHV activity on SCA roads could cause safety issues (Chapter 8 Title 2 Section 3 Item C of EC Ordinance 201409).Road breaks on the edges of the roads due to increased activity which could cost more in road repairs.Tires can track noxious weed seed further creating bigger issues with noxious weeds.

1	Not sure about this one either	8/12/2016 4:21 PM
2	As long as safety precautions are taken, they are licensed and obeying laws, ABSOLUTELY	8/11/2016 1:32 PM
3	I would vote to allow if there was an age limit,i.e. Have valid license	8/8/2016 7:22 PM
4	On a limited number of roads with safety requirements for people and vehicles	8/7/2016 8:36 AM
5	No ATVS in Spring Creek. Not on roads. Not on greenbelts. No kids joy riding around and around their property.	8/6/2016 2:48 PM
6	Why doesn't someone enforce the rules before a kid gets killed. Last weekend ATV's were at the marina. It's pretty evident that they had to take the main road to get there.	8/2/2016 10:37 PM
7	If at keeps kids occupied I'm all for having them drive on the roads with them as long as there are understandable regulations	7/31/2016 6:16 PM
8	I think it would be good to open limited access.	7/31/2016 6:04 PM
9	Golf carts are allowed, let all others use roads!!	7/30/2016 7:00 PM
10	NO OHVs or ATVs on community roads. Interpretation above is flawed: the simple reading of the CCRs precludes the use of such vehicles on lands within the community.	7/29/2016 12:32 PM
11	Who cares? You never do anything with the roads anyways.	7/28/2016 7:05 AM
12	Very weak objections to allowing very few additional (light) vehicles on the roads.	7/27/2016 4:23 PM
13	If ATV's are allowed, some people will abuse the privilege, making the rest of us suffer.	7/27/2016 1:57 PM
14	Not just no but hell no	7/26/2016 10:51 PM
15	As long as everyone obeys the speed limits as all other vehicles.	7/26/2016 10:38 PM
16	Your reasons for not allowing this is ignorant. There should be no use on the beltway and if there is then they should be punished. Unless beltway has speed limit and right hand traffic. And association is the only place that is banning the use of atv's don't act like your not the only ones	7/26/2016 9:26 PM
17	state and county laws should be rule no atv's	7/26/2016 1:47 PM

26	With rules and age limits	7/21/2016 3:04 PM
27	It's hard enough to get people to drive the speed limits with their vehicles. There is not a big enough law enforcement present to add ATV's in the mix.	7/21/2016 12:47 PM
28	Follow roadway rules and between 8am and 8pm	7/20/2016 11:29 AM
29	Atv's are now traveling on the roads, another unenforceable rule.	7/20/2016 7:56 AM
30	To allow but follow certain speeds and drive with care	7/19/2016 9:49 PM
31	But I do believe they need additional access to certain approved areas to ride	7/19/2016 9:28 PM
32	I have auto insurance as required to ride on county roads. I would appreciate being able to ride 2 miles to county roads where I am legal.	7/19/2016 8:31 PM
33	just more trails but for safety keep them on the dirt	7/19/2016 3:37 PM
34	As long as they are insured and street legal	7/19/2016 3:23 PM
35	people are already using them on the roads and green belts in an unsafe manner. they are also making it unsafe for walkers and people on horseback to be on the green belts. The riders of atv's have no respect for anyone else in the roads and their safety.	7/19/2016 2:19 PM
36	All too often I see youngsters riding these vehicles with no adult supervision at high speeds on roads and off road with a great deal of noise and dust. At my rental, I confronted a neighbor whose yard is crisscrossed with many moto trails and atv tracks when she and her son crossed another person's property to enter my property to look at a dead animal. She was very annoyed that I wouldn't allow it. Really, they could have walked easier to see the dead animal.	7/19/2016 8:39 AM
37	Do the OHV/ATV people carry the same insurance required by NV law for cars/trucks? Until they do (and a license to drive them is required), they are a hazard to everyone.	7/18/2016 6:01 PM
38	People who break the rules and ride on greenbelts and in other areas do so regardless of what is or isn't allowed. It's difficult to formulate and enforce laws regulating rudeness and bad behavior. Allowing residents to go the mailboxes or their neighbor's house down the road shouldn't be an issue.	7/18/2016 11:05 AM
39	As long as they meet County/State Requirements. Nowhere else should they be operated on SCA property, Open Space or greenbelts	7/17/2016 4:59 PM
40	If they are respectful they should be able to ride in the roads to at least get out to dirt!	7/16/2016 10:34 AM
41	include golf carts driven by children	7/16/2016 7:28 AM
42	Allow it as a privilege that could be taken away from individuals that don't follow the rules, some form of policing would be required.	7/16/2016 5:07 AM
43	It DOES NOT BOTHER ME. Drive/ride respectfully then it's good to go	7/16/2016 3:13 AM
44	We live in a community of shift workers!	7/15/2016 11:07 PM
45	The reasons against are truly ridiculous. If a person follows the laws, there are no safety issues. We have people crashing cars and dying on our 35MPH roads yet we don't ban cars. Road breaks? Why would you ride on the edge of the road? Today's ATVs are fully capable of maintaining the legal speed limit just like a car and off the edge of the road. Noxious weeds? Many or most of our residents work in off road environments (mines) and drive normal vehicles offroad and could have the same potential yet we don't have a problem there. We are asking for nothing more than to obey the existing Elko County laws not do 95MPH down Spring Creek PKWY. Some jerk on an ATV will do 95 down the road just like some do in cars now. As for a nuisance, I don't complain about living downwind from horse urine, horse feces and flies. It's part of living in a rural environment....just like ATV usage. There are far more ATVs than horses in SC.	7/15/2016 10:07 PM
46	Most people who operate atvs on the roads do so in an unsafe manner. They exceed the speed limits and do not wear helmets.	7/15/2016 9:58 PM
47	As long as they are not located on the highway and follow Road Rules	7/15/2016 6:00 PM

49	No OHV/ATVs within 500 feet of a residence	7/15/2016 4:38 PM
50	There's enough problems with people breaking the laws and riding ATVs on the road, many are young, unlicensed & uninsured riders. Who is liable if there is an accident? These issues would only increase if ATV riding is allowed on the roads as well as create a new nuisance and noise issue since many are very loud.. ATV tracks on lots should continue not to be allowed because of the noise and dust factor. If people want to ride their ATVs, they can put them on a trailer and take them to the many places available in our area designated for such activity.	7/15/2016 4:38 PM

Q18 Are the current Assessment Fees (\$50.00 Per Month) reasonable for the services received? HISTORY: Did you know that the Spring Creek Association is one of the largest Homeowner's Associations in the nation? Although we are one of the largest, we have a significant amount of operational and maintenance duties that are under-funded because we do not receive government funding or grants. If we were a town or city, you would not be paying assessment fees but taxes that would cover many of the same expenses, which could be more than you pay per month in assessments. Almost 50% of dues goes directly to our roads, snow removal and road maintenance. The Association takes care of almost 150 miles of roads which is unique for an HOA as they typically do not span such a large distance and cover somany square miles. Did you know that the City of Elko is only about 100 miles in comparison? These Elko County roads are dedicated to the Association for maintenance. When the Association was first formed, many amenities were created including the marina, horse palace, golf course, rifle range, campgrounds, trap & skeet, schuckmann's and others. With these common recreational facilities, there is a lot of maintenance and upkeep that needs to take place to ensure these amenities continue to operate as stated in the DOR's.

2	Thats about 2.5 million per year. I have no idea if that is enough to do what needs to be done or if someone is managing the money like the federal gov't and has no clue how to use that money so you get the biggest bang for the buck??	8/11/2016 1:40 PM
3	A little much considering my road and mail box pull off is horrible	8/11/2016 1:32 PM
4	Maybe if side roads were better cared for	8/9/2016 8:59 PM
5	For what we pay I don't see enough being done. Snow plowing is the most lacking	8/7/2016 1:19 PM
6	Fees should be based on assessed value of the property	8/7/2016 8:38 AM
7	Yes, when the maintenance is actually done correctly. For example, is the association or the post office responsible for the pull off spots by the mailboxes? If your responsibility, is it really so hard to blade out the potholes when you already have tractors running around cutting weeds and the like?	8/5/2016 10:04 PM
8	Assessment fees need to be higher.	8/5/2016 8:01 PM
9	Should be less for what service we get	8/5/2016 9:42 AM
10	I hear what you say the fees go to but I am a resident that lives where the roads are horrible. We see and hear the plow after a big storm going down other roads but we rarely get services. If plowing is part of the budget and we have a lack of snow, don't you have more money left to fix things? Looks like to a lot of people there is a lack of fiscal responsibility going on here. Basically, I don't receive services for part of my dues. Could you prorate it for the amount of roadway I have to drive on that is not maintained before I finally get to a decent road?	8/2/2016 10:43 PM
11	My road doesnt ever get plowed. Go peddle your bullshit elsewhere	8/2/2016 4:46 PM
12	I would be willing to pay more if we had a rec. center with a public pool. I really don't like that some of my money paid to association goes to the golf course. So many more people would use a swimming pool and rec center than a golf course.	8/2/2016 3:34 PM
13	But no higher and get rid of special interest amenities like the horse palace,that only benefit a few!	8/1/2016 1:21 PM
14	Exercise caution. We are headed for hard times.	7/31/2016 7:47 PM
15	I have to pay \$100./month and that's WAY TOO HIGH!	7/31/2016 7:16 PM
16	Should be lower unless you use the horse palace, Campground, Golf course	7/31/2016 6:58 PM
17	I would gladly pay more in taxes if we became a city or a town	7/31/2016 6:24 PM
18	Road patches aren't well done and snow removal is a joke	7/31/2016 10:58 AM

21	WE DONT GET SNOW REMOVAL OR ROADS REPAIRED AS IT IS...	7/30/2016 11:37 AM
22	Balanced budgets are simple, if residents want services/amenities then they have to pay for them equitably. The SCA has a responsibility to use the money efficiently	7/30/2016 9:06 AM
23	Don't even use the services	7/30/2016 12:33 AM
24	Raising them is not good for us. I understand you do a lot a year but people like me don't receive snow removal for almost 4 days after a heavy snow fall. Why should I pay more than the people getting stuff more than me. Just asking	7/29/2016 7:05 PM
25	The price of fees, and what is put back into spring creek are not equal.	7/29/2016 7:01 PM
26	What is the point of the fees if you don't do anything to help the community?	7/28/2016 7:05 AM
27	No problem with \$50/month. If SCA needs a bit more, simply present a a good case for the increase.	7/27/2016 4:26 PM
28	I feel my monthly payment is not being used to help where my family needs it. The road we live on is hardly ever maintained and when it is, it is done in a half asses manor. Also, we are "horse people" and in order to use the Horse Palace we are required to pay an additional fee.	7/27/2016 3:14 PM
29	But, one year employee cost of living came from an overage in one budget. Then the next year, fees were raised to supplement the budget that colas were taken from. This was during the depression when homeowners weren't receiving colas at their own employment. SCA employees should not drive SCA autos home to Southfork using SCA fuel.	7/27/2016 2:01 PM

33	Paying taxes would be better because we could rely on them. Association is not reliable. Make them reliable to hep this issue	7/26/2016 9:28 PM
34	I think this survey will highlight that most people would like amenities that are not so outdoor related, such as recreation centers	7/26/2016 12:22 PM
35	I would be fine with the 50 a month if I felt the community was benefiting. At this point it seems like we need to become a city pay taxes and get more for our money.	7/26/2016 10:17 AM
36	Fees are too high, some amenities need to be self sustaining i.e. golf course, trap and skeet range, and horse palace.	7/25/2016 6:00 PM
37	Assoc. recieves tax dollars from gasoline sales for road repair. we pay taxes tohelp with schools, hospital, senior facilities etc. should not even have some of these questions on your servey.	7/25/2016 9:42 AM
38	all the association does is crap, or half assed...you cant expect me to believe thats 50%... if so get your head out your ass	7/25/2016 5:18 AM

40	I think \$50 is fair, but I would like to stop seeing it increase every year.	7/23/2016 9:43 PM
41	They are not up kept anyways so where is the money going	7/23/2016 10:51 AM
42	Roads are lacking everywhere snow removal is slim to none doesn't make the dues seem worth while to pay	7/23/2016 8:37 AM
43	If the above statement is true and almost 50% of the dues goes to maintenance and snow removal, then I would like to see a better effort made towards road maintence and snow removal. Unless you live on one of the popular roads like Palace Parkway, SC Parkway, or Park Ridge Parkway the chances of a snow plow coming down your road are scarce to none. Last year was the first year since I've lived in the housing section near the Horse Palace area that a plow came down our road.	7/23/2016 6:59 AM
44	I think they are very high when rules aren't even enforced.	7/22/2016 11:29 PM
45	Nothing is being maintained as it should be, especially the roads.	7/22/2016 9:59 PM
46	Privatize expensive amenities. Get them off SCA books.	7/22/2016 3:01 PM
47	I can see the fee being more reasonable only if spring creek became a more exclusive area. Bring in more shopping/retail/fast food/restaurants. Bring in more amenities, let's make spring creek competitive with Elko. I would love to see this town grow and be more exclusive to live here than Elko!	7/22/2016 6:24 AM
48	Overpriced	7/21/2016 5:00 PM
49	Need more for kids	7/21/2016 3:04 PM
50	I am not opposed to a yearly increased as long as there is evidence of money well spent.	7/21/2016 12:49 PM
51	The members who use them most should pay more. I don't golf or own horses and feel I should not be paying for these amenities.	7/21/2016 12:34 PM
52	anything more would be unreasonable	7/20/2016 7:55 PM
53	Should be a sliding scale, with those that use the facilities, i.e. firing range, skeet and golf paying additional service fees for use.	7/20/2016 3:07 PM
54	But they just keep going up.	7/20/2016 7:59 AM
55	I believe dues really should be higher - and the structure should be changed so that dues are assessed based on lot size and commercial/residential/multi unit zoning.	7/19/2016 10:03 PM
56	Don't see much where my 50\$ a month goes toward the snow removal is pathetic with no preparation for early mornings for parkways or side streets. Changes in the community would help but not seeing anything for paying you people 50\$ for nothing it seems	7/19/2016 9:51 PM
57	I know that people would be willing to pay more if there was a pool or family rec/gym for residents to use	7/19/2016 9:30 PM
58	Although I don't believe we should have any more increases. I also think the elderly should have a lower rate, especially if they have lived here for 20 years or more.	7/19/2016 9:11 PM
59	Would be willing to pay higher rates if I saw the job get done. Hate seeing school buses slide on roads not plowed, or weekends off from plowing when storms don't work that way.	7/19/2016 7:09 PM

Q19 What additions or amenities would you like to see in the future at the Schuckmann's Sports Complex? Please rank the list below, 1 being your top priority. Please review all options before making your selection. Please note, you will NOT be able to rank multiple one's or multiple two's and so on. You will need to choose your 1st choice, 2nd choice and so on. History: Schuckmann's Sports complex is currently undergoing a master plan. Once we hear feedback from the community and understand our priorities, we will be able to build a case statement for the complex and present to local organizations and foundations for funding. Efforts will be put together by the Association, local organizations and sports groups. Keep updated on progress by visiting our website at www.springcreeknv.org or our Facebook page.

Q20 What policies or rules would you like to see changed, implemented, or more strictly enforced within the Association? Please indicate your answer(s) in the box below.

COMMON VIOLATIONS: Some common property violation issues are listed below. We ask all Spring Creek Association property owners to occasionally take a look around their property to see if they have any of these violations, and, if so, we ask that you take care of them before the COA Members conduct their evaluations.

Inoperative/Unlicensed/Unregistered Vehicles - this is a major issue in every tract of the Association. Storage of Tools and Trash - also considered unsightly storage of miscellaneous items or debris. Exterior Condition of Structures this regards paint, repair and roofing of homes and accessory structures. Excessive Brush/Weeds or Dead Trees/Shrubs - this is a major issue as the weather gets warmer in all tracts. Fences in Disrepair - this is a common issue, especially after the winter months when high winds and snow melt take a toll on fencing, causing deterioration, broken posts and rails, etc. Please refer to the following external links to learn more about all of the rules: [Click Here to view common issues, master DOR's and COA rules & regulations](#) [Click Here to view other common questions](#)

125	I feel that the rules regarding paint and other aesthetic issues need to be reconsidered. Unfortunately some home owners know their home could use a fresh coat of paint, but lack the funds to do so. If the association is going to consider fresh paint necessary then they need to have a paint company under contract to offer low rates or offer to pay the bill upfront and increase that property's monthly fee to cover the expense. If the condition of a home does not pose a safety issue then the association should not be allowed to interfere.	7/26/2016 10:30 AM

Q21 Geese at the marina, golf course and sports complex have given rise to a serious concern with our residents. Would you be in favor of humanely removing or reducing the geese population in these areas? HISTORY: Parks are vital for community health, whether for sports, picnics, play areas or relaxation. But flocks of previously migratory geese, drawn in recent years by food, water and safety, have settled year round in many parks, devouring turf, defecating abundantly and leaving some areas virtually unusable. A single goose can eat up to 3 pounds of turf and defecate up to 2 pounds per day. According to National Geographic, just 50 geese can produce 2.5 tons of excrement in a year. Excessive Canada geese droppings in ponds and lakes can raise fecal coliform levels, diminishing water quality. The nutrient content in the droppings also can contribute to excessive algae growth in ponds and lakes, causing local health authorities to close them. Not surprisingly, reducing the geese population in parks, big and small, is a major issue. A large non-migratory geese population in a confined area is at risk of contracting disease, which can be highly contagious and devastating for the bird population as well. Avenues used could include better enforcement of rules against feeding waterfowl, altering habitat, hazing or scaring techniques, chemical repellents, predator simulation, props, green lasers, or a combination thereof. 8	Not with all the strings attached. Good Lord, it's pretty screwed up if we can't take our kids and grandkids to the "Marina" to feed ducks and observe some wildlife. You might want to look into the migratory bird act before your moronic park people decide to embark on something incredibly stupid. Geese roundups have taken place before legally with assistance of NDOW and US Fish and Wildlife. The freaking marina is not designed for swimming so who cares about the geese and ducks? 38	Please please please, I have 4 children and the amount of goose feces at the marina is sickening. I live across from that area and they are starting to come to my yard. They are ruling the park and should not be	7/15/2016 8:59 PM

10	It's unfortunate that people choose to live here then complain that it's a rural community. A lack of enforcement of the rules in the first place contributed to the problems you have today. It appears that instead of enforcing the rules, you are considering changing them? Get rid of nature, let ATV's on the roads, put up more lighting. I have no desire to "talk" anymore about these issues. I have been saying the same thing for 15 years and it has only gotten worse.	8/2/2016 11:03 PM

13	This is a very negative community towards the association, making it unpleasant to live here, and we really need a pool/recreation for the kids.	8/2/2016 5:52 AM
14	Make the people who are running the amenities pay the same going rate as other businesses - not making out like bandits!	7/31/2016 7:25 PM
15	The directors salary is outrageous and the association has grown too big. Bring a vote to disband the association and let's see the results	7/30/2016 11:34 PM
16	Deer are also a problem and I would support humanely disposing of them	7/30/2016 9:02 PM
17	Also need to preclude vehicle access to buffer zone and riparian area around marina pond. People park vehicles adjacent to the water and compact soils, release hydrocarbons, increase runoff, destroy vegetation, sediment delivery to water, etc. Easy to address through rock barriers.	7/29/2016 12:39 PM
18	I would be for the association if they actually did shit. But you don't do anything but nitpick people's houses. Who honestly gives a shit what other people's houses look like besides you retards?	7/28/2016 7:09 AM
19	Loud vehicle exhausts are a problem. The diesel pickup is the worst	7/28/2016 6:06 AM
20	We came here to leave city life, petty rules, and neighbors 20 feet away who wanted to control our lives and tax us for their desires/problems. More freedom and less external interference were why we selected Spring Creek. Please back off on the rules and endless costs of more "stuff" people want everyone else to help pay for.	7/27/2016 4:58 PM

23	You have done a great job touching all basis with this survey. I love the marina but feel like it is useless with the geese and water being disgusting. I would absolutely love to see a community center that can be rented out for birthday/grad parties. I love our community but feel like we have to go to town for everything involving our kids and it breaks down the spirit of the area.	7/26/2016 6:29 AM
24	Would love to see speed bumps to slow traffic, I live on one of the park ways and see vehicles pass my house in excesses off 70mph	7/25/2016 6:11 PM
25	Rule enforcement is important in protecting the value of all of our properties.	7/25/2016 10:15 AM
26	The community needs positive reinforcement and changes from the SCA. Embezzlement has always been a concern for those who are employed at SCA, and in light of the current state of the community & SCA, it raises that flag. Financial stability and transparency is top priority in my opinion. Buildings need updated and maintained to breath new life and positivity into the community. SCA and its employees need to be held accountable to complete the tasks to maintain and run the community properly.	7/24/2016 10:48 AM
27	A real rec center would benefit the whole community	7/23/2016 10:59 AM
28	completely stop door to door soliciting within SCA!	7/22/2016 7:22 PM
29	What about a budget for people that own say 3 acres or more for weed removal. (Including that with the fees we pay per month)	7/22/2016 6:48 AM
30	I think the geese should be taken care of, I think it would be cool if we could get an ATV track so people wont complain about the dust. I would like to see the marina nicer meaning better play equipment.	7/21/2016 10:18 PM
31	No	7/21/2016 9:55 PM
32	Don't build up Spring Creek into something some else just moved from. This area was planned as a rural community and can remain viable and stay that was.	7/21/2016 9:50 PM
33	Need to address the areas around the mail boxes. They have several potholes and in the winter become very slick and dangerous.	7/21/2016 8:48 AM
34	Nicer looking mailbox banks/turn out road condition would be a drastic improvement. Make them look similar to the covered mailbox banks at the Villas at Riverside in Elko (condos on 12th Street). Very nice. Also, the "Vista Grande" sign didn't get finished properly. Looks horrible seeing the bare cinder blocks. Stucco & paint it. Looks like the SCA doesn't care.	7/20/2016 5:06 PM
35	No	7/19/2016 10:11 PM

38	Get the inbred deer out as well	7/19/2016 3:27 PM
39	more emphasis on using the money we have for making what is already available better before building community centers that only a few can use. Safety issues are big plus the cost of living out here. single income families cannot make it on their own so giving them a boys and girls club for affordable paces for their kids is huge.	7/19/2016 2:28 PM
40	The duck mites are a health concern. Parents that do not teach their children to NOT harass the birds.	7/19/2016 1:14 PM
41	frequent focus groups are a good idea!!	7/19/2016 10:45 AM
42	none	7/18/2016 6:21 PM
43	Hitler encouraged people to tell on others. An HOA should do the policing themselves. I dispise the concept of asking permission to do anything on my property. What one may find offensive another might like. With water and energy saving issues, the hoa should encourage properly installed gray water systems, solar electricity, and clotheslines to save energy, water, and money.	7/18/2016 1:58 PM
44	I don't want members to be financialy burdoned by any improvements, mainly our elderly niehbor!	7/18/2016 9:55 AM

47	Side walks or bike path along main parkways and cross walks at main intersection to provide safe routes for kids and adults.	7/16/2016 5:20 AM
48	I got nothing.. I don't care what cars my neighbor has, or what his house looks like. Leave the people alone... Let's get our water rights back, fix the roads, kill some geese and fornicate EXCESSIVELY! And taco Tuesday should be in acted	7/16/2016 3:25 AM

49	Please adopt Elko Countys ATV laws on SC roads. Please back off enforcement or creating a police state with over the top rules in our community. For the record, they are over the top now. Plow and maintain the roads and nothing more. Less is more.	7/15/2016 10:21 PM
50	update play ground at the marina	7/15/2016 10:15 PM
51	I think the SCA may be wasting funds by seeking legal action against delinquent fess. I would like to see what ratios are for actually collecting on these accounts when legal counsel is obtained.	7/15/2016 9:23 PM
52	Road conditions should be number one then the issue of dogs running and causing problems.	7/15/2016 8:30 PM
53	Our fees are climbing and you choose to build a center that as far as I can tell does not actually benefit the residents. It gives the people in power a new office.	7/15/2016 8:04 PM
54	Y'all are Crooks	7/15/2016 6:05 PM
55	Loose dogs!	7/15/2016 4:47 PM
56	Thank you, Jessie	7/15/2016 4:44 PM
57	Tract 200 has been sorely neglected in all of the years I have lived here. Overgrown weeds, lack of parks, lack of fire hydrants that had been promised. And not following the rules for property upkeep.	7/15/2016 4:35 PM
