## Vote for Les Peterson for Carefree Mayor

### Fast Facts about the Primary Election

With one candidate for mayor and six candidates running for six Town Council positions, will they all be elected? Not necessarily. To be elected in the Primary Election, each candidate running must receive 50% plus one of the number of valid ballots returned. Any candidate who receives less than the 50% plus one threshold is not elected, and will need to run again in the General Election in November.

In the General election, there is no minimum vote requirement and the candidate(s) receiving the highest number of votes will be elected - even if it is less than the number of votes they received in the Primary Election. Also, it will cost the Town an additional \$7,000 to \$10,000 to fund the General Election. **Your vote in the Primary Election is important.**

“All of the Carefree candidates for Town Council are knowledgeable, dedicated and fiscally conservative people. I am confident that each of them will be an outstanding contributor to the Town of Carefree. I support each of them.” Mayor Les Peterson
