

1964 Triumph TR4 for Sale, Asking \$26,000 or Best Offer

This TR4 was purchased in Ohio in November 2020 as a project for me to do during the COVID lockdown. Since then, I have worked extensively on the car along with a local shop.

This car has unknown milage. The engine was overhauled at 84K miles by a previous owner and before the odometer stopped working at 89K. The current compressions are No. 1 is 150 psi, No. 2 is 139 psi, No. 3 is 143 psi, and No. 4 is 140 psi.

The TR4 was purchased with the current exterior paint, but numerous improvements have been made, including a new fuel pump, new tires, rear brakes, battery, radio, floors, inner sills, and a new interior that consisted of a new dash, refurbished instruments with the odometer being recalibrated and set to zero, new carpets, door panels and trim. The interior is in a different color than the original black. It starts good and runs well. This car has the typical British car oil leaks.

The car is located on Marco Island, FL and comes with a tonneau cover, but new snaps need to be added to the doors, a clean title, and the British Heritage Certificate. Contact Ron Schlechtweg at 239-571-5146 or e-mail ron.schlechtweg@gmail.com with any questions, additional photos or to see and drive the car.
