

DESCRIPTION

T.A.R. is formulated based on the latest technology and ingredients to remove tars, mastics, grease and oil from E.I.F.S. without softening or damaging the surface.

T.A.R. is easily applied by brush or sprayer onto soiled areas and rinsed off with water. All tar and residues are removed without damage or discoloration.

T.A.R. is ideal for cleaning up accidental spills. Saves labor, time and costs associated with reapplication.
