Sidewall Stairs

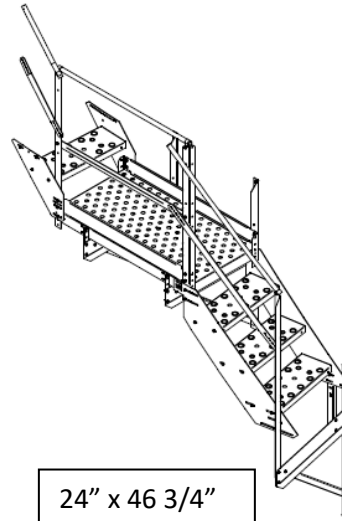

Easy Step Sidewall Stairs

ES4400 Stair Section and Bottom Section Configuration Shown as Example

ES3500 Series Stair Top Platform Package

ES3600 Series Intermediate Platform Package

Ordering Information:

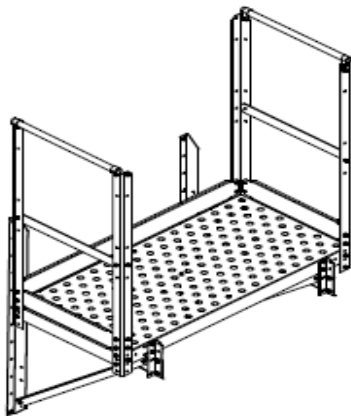

- *Easy Step stairs feature a 24" step that sits 7" from the bin wall.*
- *Easy Step sidewall stairs fit bins from 24' diameter to straight wall.*
- *For adjacent bins sharing one platform, space bin walls 38" apart, and 64" if using a twin platform. The maximum span is approximately 100"-104" and requires the use of the Easy Step Filler Platform, ES3748.*
- *Easy Step Platform sits 12" below the eave.*
- *To calculate parts needed, order 1 Stair Platform with Stair Assembly (ES35xx) for the top ring of your bin, and 1 Stair Section for each remaining ring (ESxx00).*
- *To use an Intermediate Platform, substitute an Intermediate Platform and Stair Assembly for 1 Stair Section (ES36xx).*

Original Sidewall Stairs

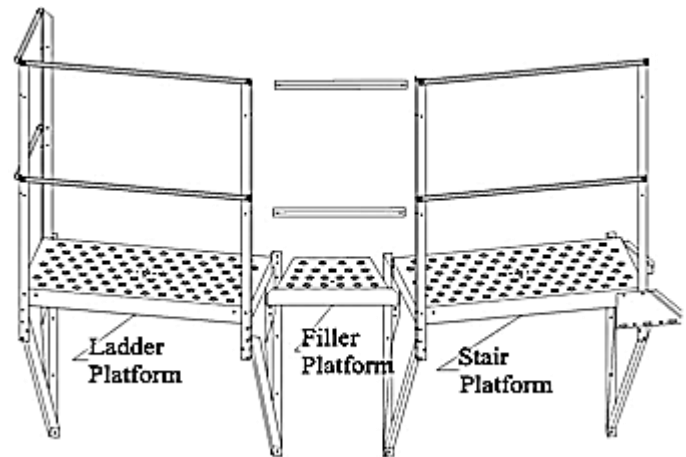

(Not for Commercial Use)

14400 Stair Section Example

GM Adapter Kit (parts for bottom section)

38000 Ladder Platform, 38050 Platform Filler,
35000 Stair Platform

Ordering Information:

- Original Sidewall Stairs feature a 20" step that sits 6" from the bin wall.
- Original Sidewall Stair packages fit bins from 18' to 105' diameter and are not for commercial use.
- For adjacent bins sharing one platform, space bin walls 32" apart, and 54" if using a twin platform.
- On a standard bin, the stair sections used are determined by the height of the sheet. For a 32" bin sheet, use one 13200 per sheet. For the top two rings, the parts needed are determined by the desired location of the platform, using the chart below.

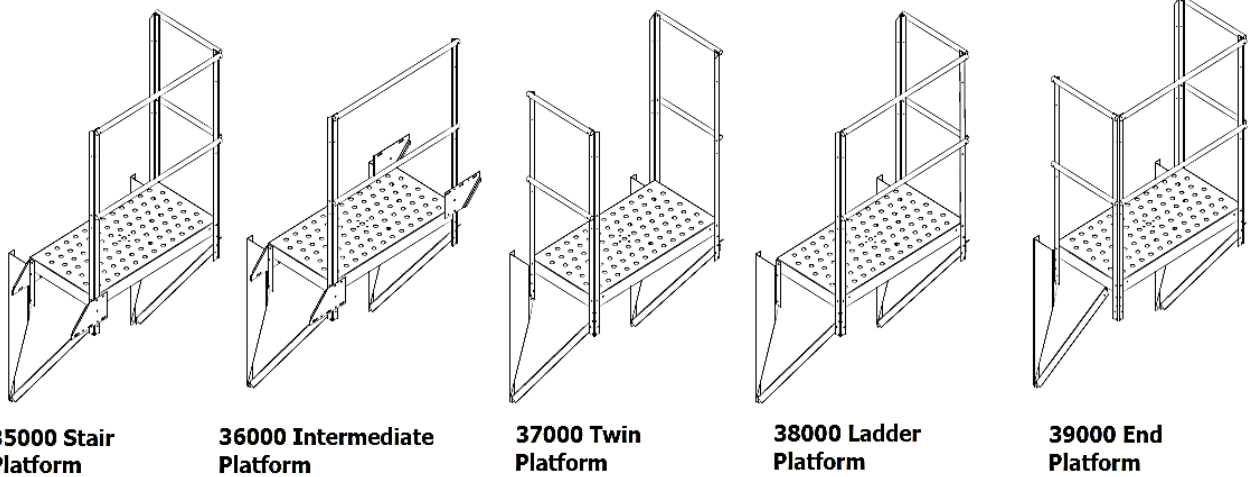

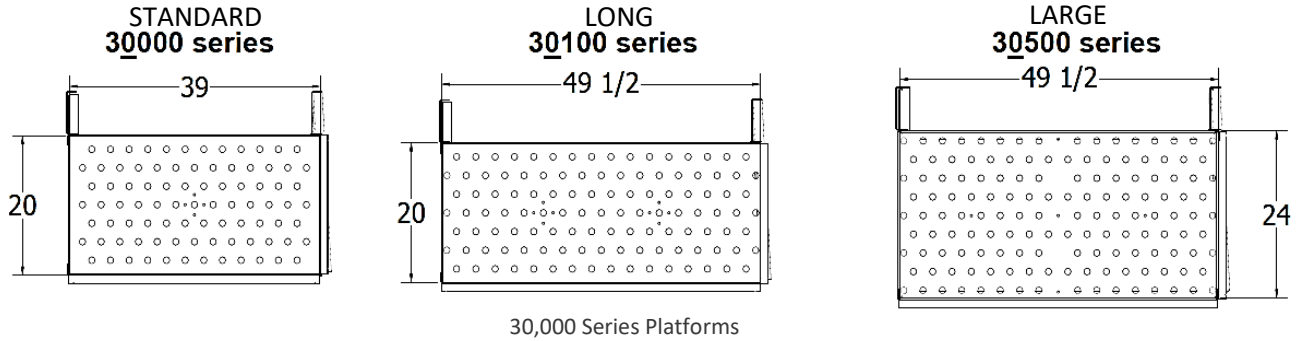

Height of rings	5 1/2" below eave	16" below eave
44"	1-35000 Platform 1-13200 Section 1-14400 Section	1-35000 Platform 1-12100 Section 1-14400 Section
32"	1-35000 Platform 1-12100 Section 1-13200 Section	1-35000 Platform 1-14400 Section

Example: For an 8 ring bin with 32" sheets and a platform 16" below eave, use 1-35000 Platform, 1-14400 Stair Section, and 6-13200 Stair Sections.

Item	Description	List Price	Weight	Horizontal Travel	Bolt Spaces

Roof Packages

Easy Step Roof Ladder Handrail

Illustration depicts ES61100, ES61233, and 51450. Items are sold individually.

ES60118, for bin diameter packages, see page 11.

Ordering Information: *Easy Step Roof Ladder handrail sections bolt to the ladder rungs attached on the bin roof between roof ribs. They come in two rung and three rung space lengths.*

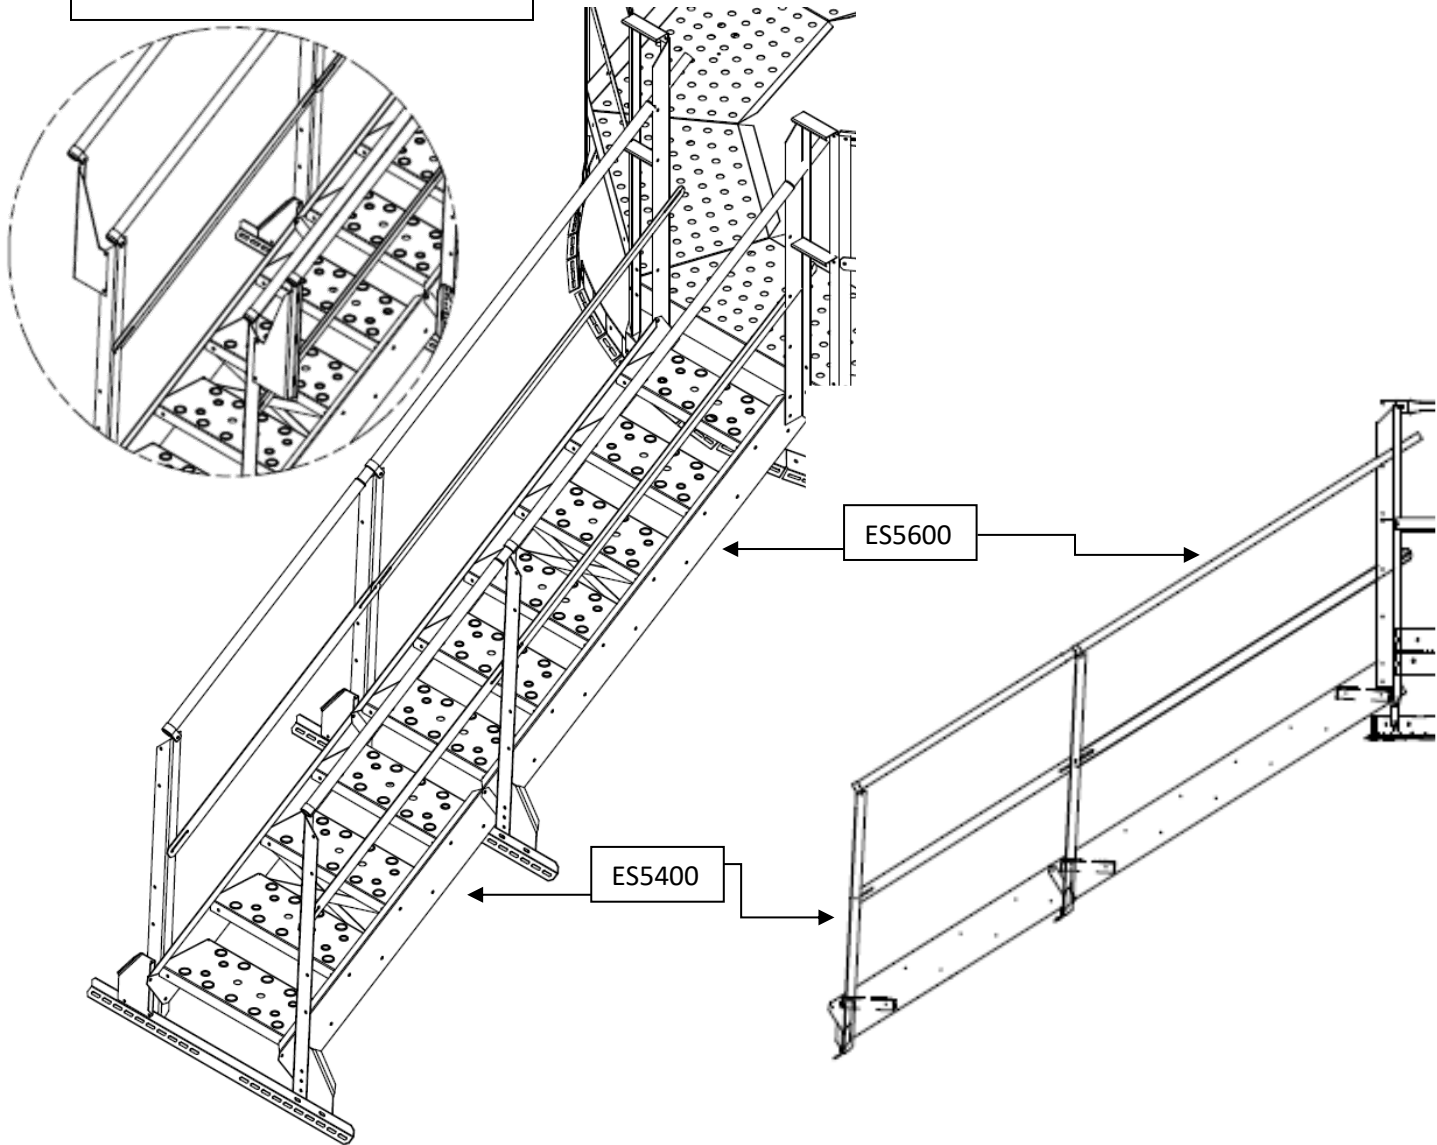

The Roof Ladder handrail packages are configured for use with the ES61100 or ES51100 peak package. If you are not using a peak safety package, order the next size larger roof ladder handrail package. The ES61500 Top Post Package is included in all Easy Step Roof Ladder Handrail bin packages.

Easy Step Walkarounds

Illustration depicts ES51100, ES51124, and 51450. Items are sold individually.

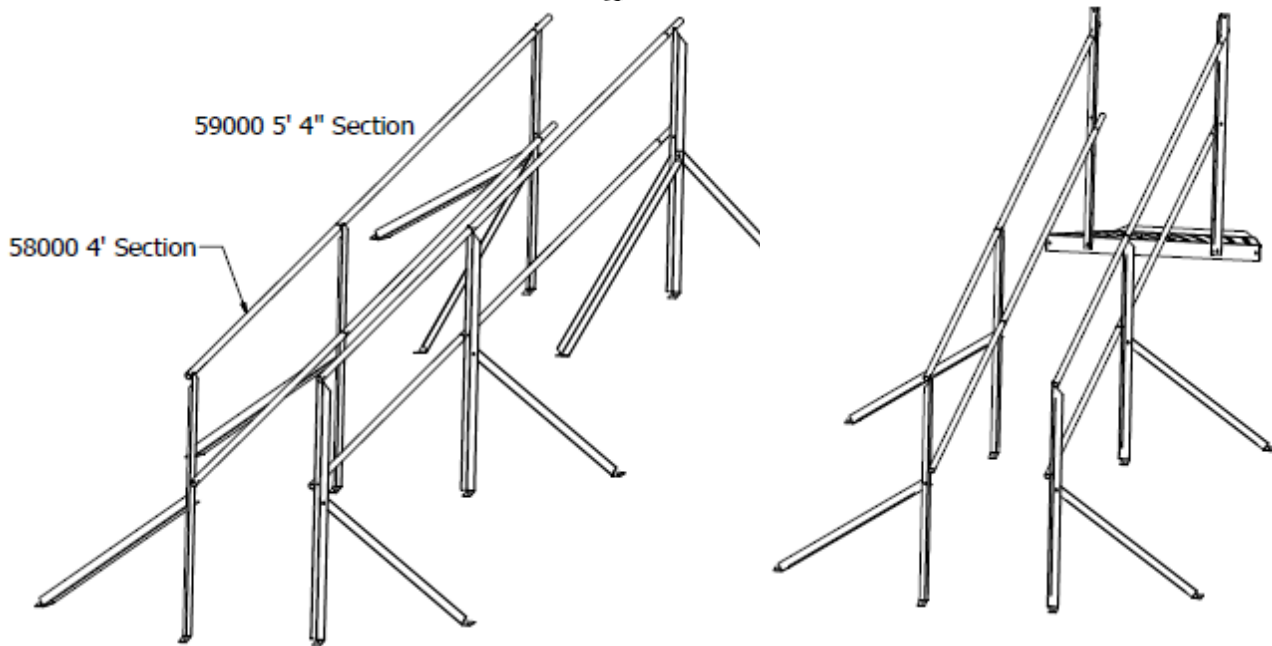

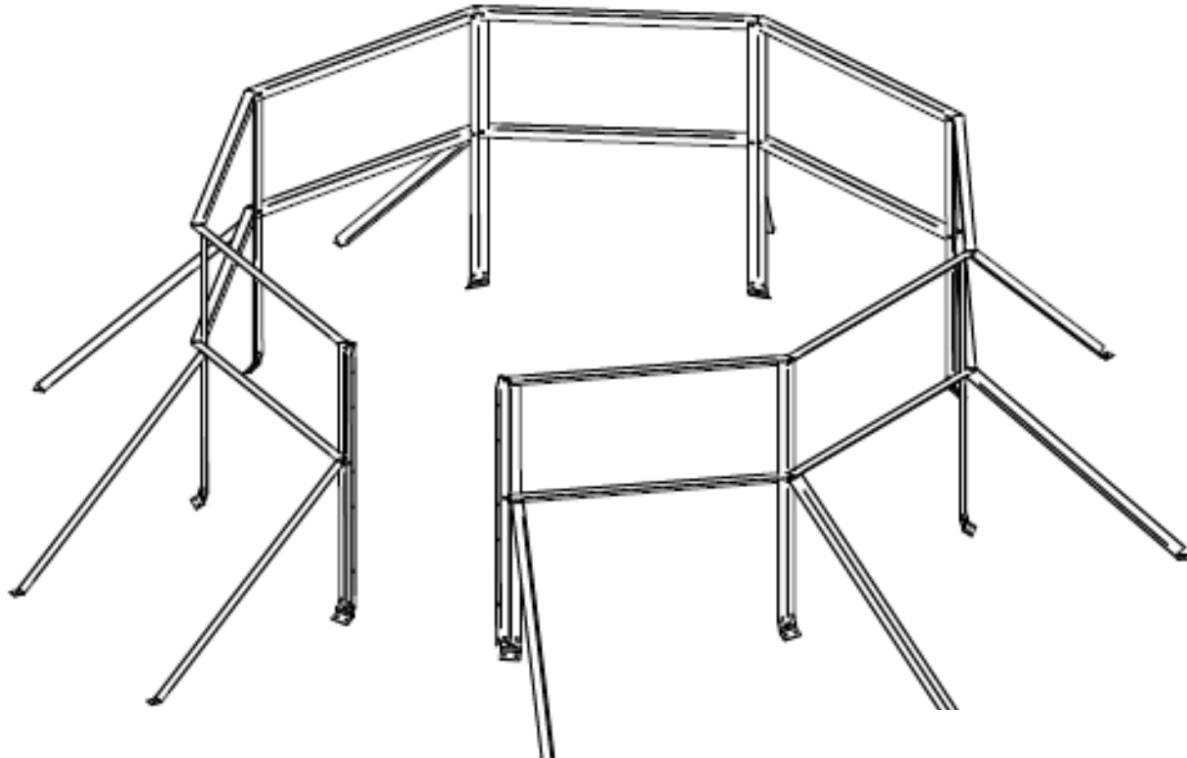

To determine the minimum walkaround size to allow space for the fill lid:

- Ensure the OUTSIDE DIAMETER is at least 3 times greater than the fill hole diameter.
- If a flat top bin, ensure the INSIDE DIAMETER is at least 3" greater than any peak bonnet or flashing.

Item	Description	List Price	Weight	Inside Diameter	Outside Diameter
ES50900	Easy Step 9' Walkaround	\$1,362.00	271 lbs	65 1/8"	114 1/2"
ES51100	Easy Step 11' Walkaround	\$1,593.00	317 lbs	76 1/2"	125"
ES51200	Easy Step 12' Walkaround	\$2,336.00	430 lbs	103 5/16"	145"
ES51400	Easy Step 14' Walkaround	\$2,832.00	540 lbs	126 1/2"	173"
ES51600	Easy Step 16' Walkaround	\$3,234.00	616 lbs	153"	201"
ES51150	Entry Kit for ES51100	\$170.00	33 lbs		
ES51250	Entry Section for ES 12', 14' or 16' Walkaround	\$70.00	15 lbs		
ESLA01	Ladder Access Landing	\$292.00	73 lbs		
	(Package will work on all Easy Step Walkarounds, but you must add an entry deck if smaller than 12'.)				

Original Peak Handrail

(Not for Commercial Use)

Item	Description	List Price	Weight	Inside Diameter
50070	7' Peak Handrail (8 sections) 24' Dia or less	\$516.00	103 lbs	84 1/4"
50090	9' Peak Handrail (8 sections)	\$530.00	112 lbs	105"
50100	10' Peak Handrail (9 sections)	\$582.00	125 lbs	117"

98043	Cut in Hatch (Chief Manhole Package Complete)	\$320.00	13 lbs

Conveyor Support

Manwalk pitch should not exceed 20 degrees.

For steeper inclines, specify VP for Variable Pitch stair degree to 45 degrees.

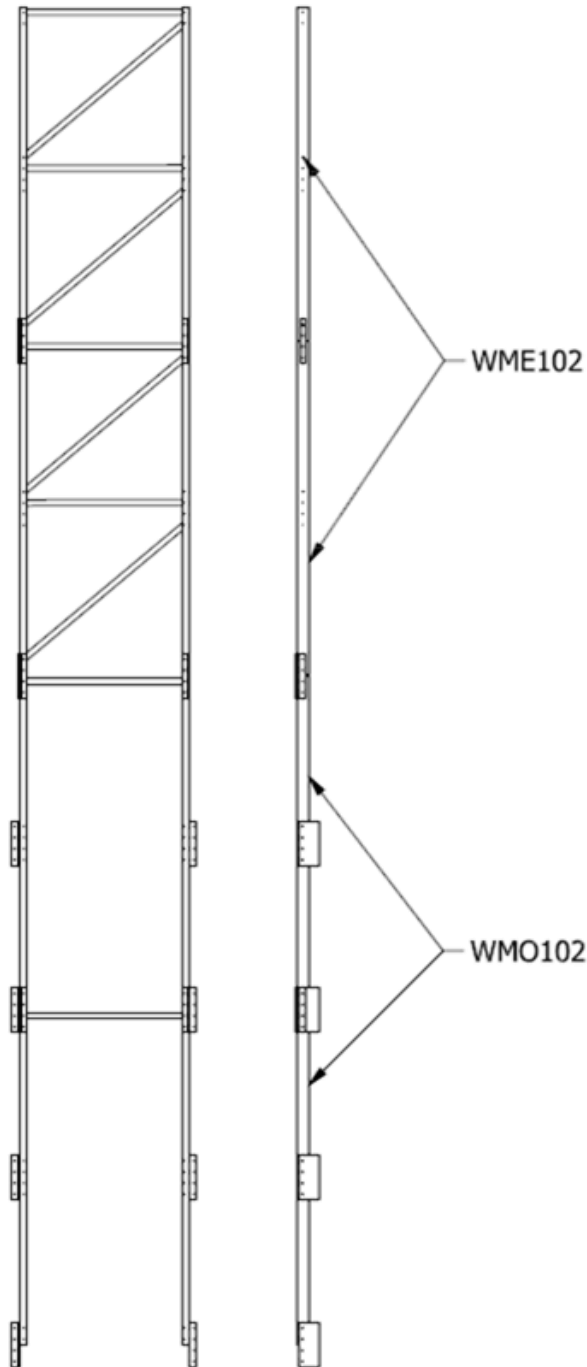

Example: 69420VP, or RS for Roof Stairs 35 degree i.e. 69420RS.

No extra charge for these options.

The Manwalk deck of the conveyor support consumes 26" of the width of the support.
48" Support has 22" of conveyor space, 42" has 16", 36" has 10", and 28" is for bridged Manwalk.
Allow 2" clearance from outside to kickboard on Manwalk.

Item	Description	List	Weight
		Price	
69280	10' 28"x17" Bridged Manwalk/Handrails	\$1,571.00	302 lbs

Wall Mount Loop Supports

(Not for Manwalk or Conveyor Support)

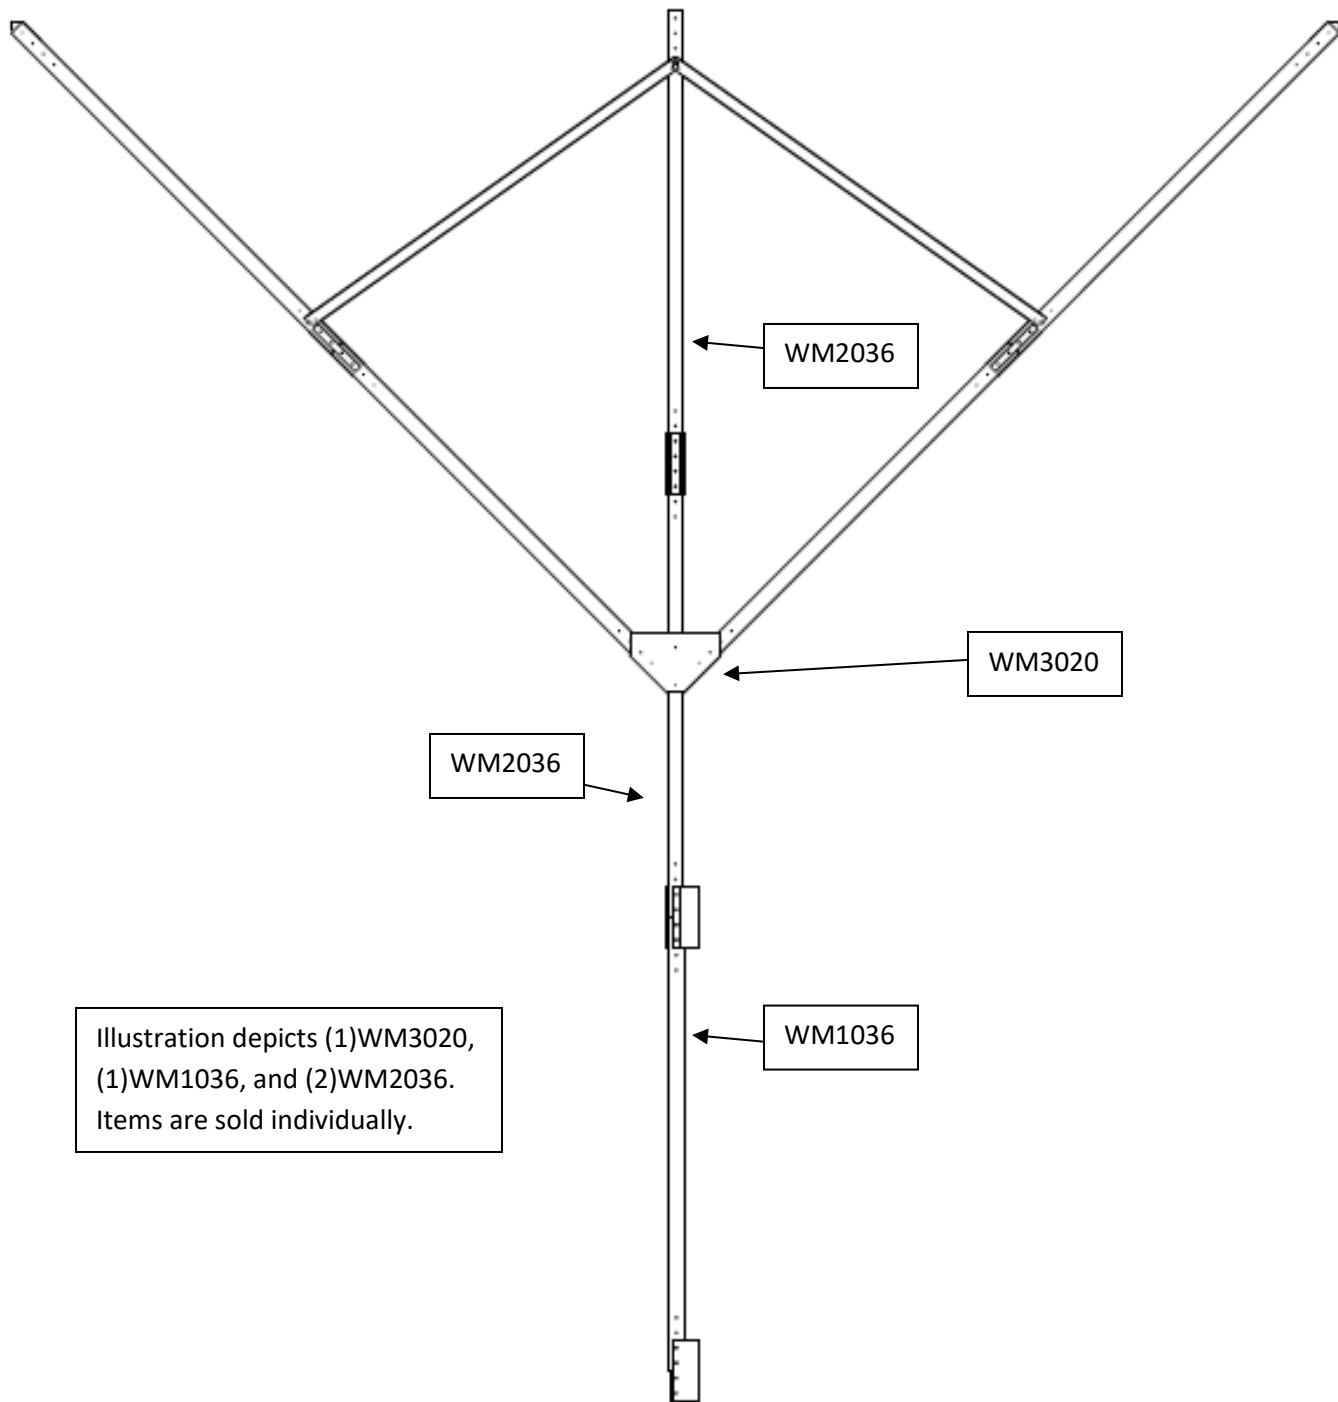

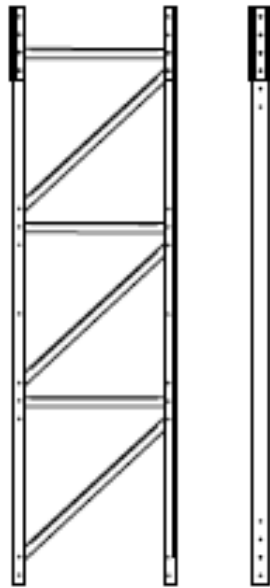

Illustration depicts (1)WM3020,
(1)WM1036, and (2)WM2036.
Items are sold individually.

WM3020 20' Wall Loop Kicker

Ordering Information:

- Order 1 WM1036 for every 10' of sidewall height, plus extensions and kickers above the eave.
- WM3020 has 20' long siderails and overall spread of kickers is 28'. (14' on center)
- WM3010 has 10' long siderails and overall spread of kickers is 16'. (8' on center)

Wall Mount Loop Supports

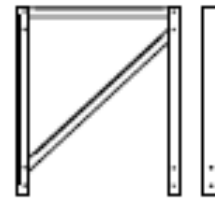

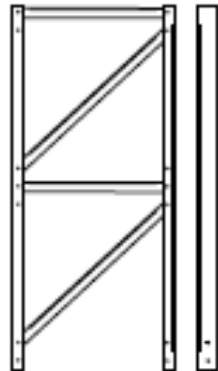

WM2036, WM2836, WM2436, Extension Sections

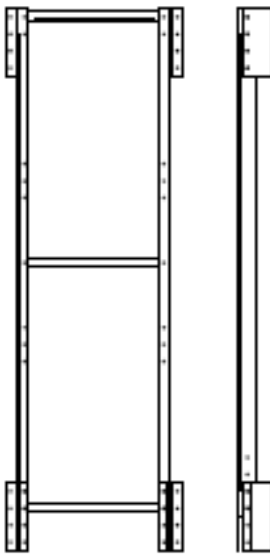

WIDTH:

36" overall width

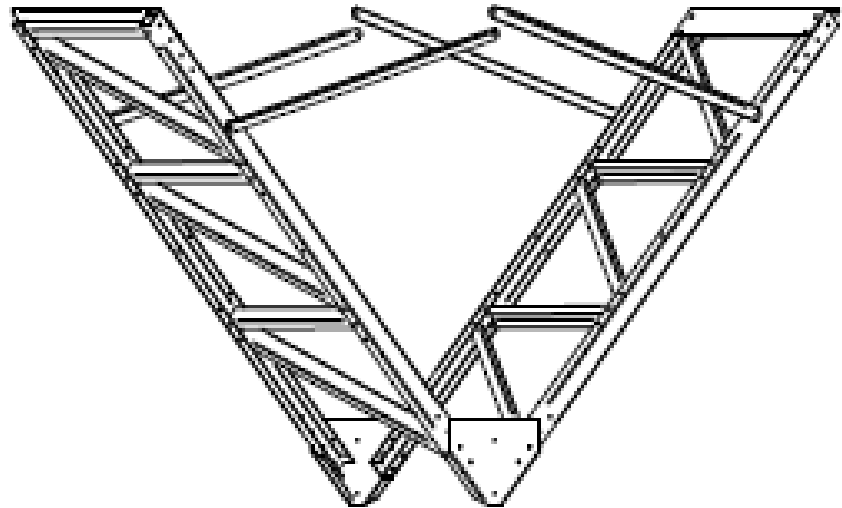

31" between side rails

Concrete pad footing
should be below the
frost line.

WM1036 10' Bin Wall Section

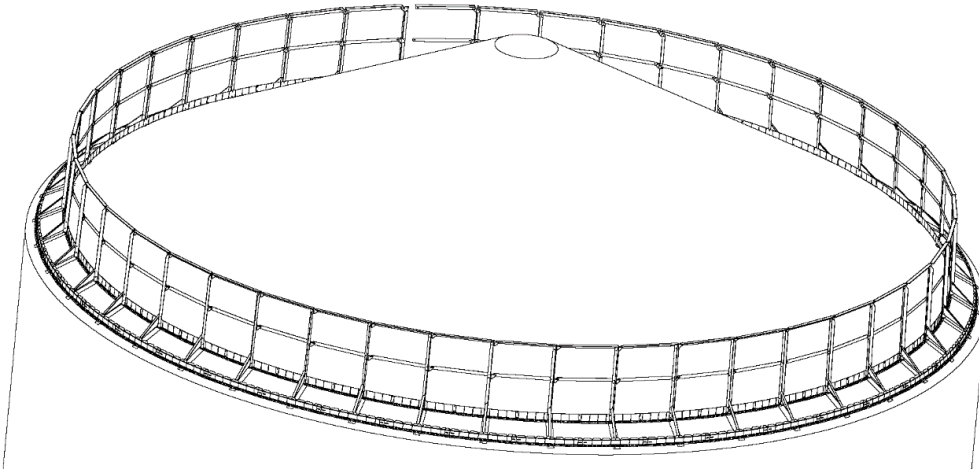

WM3010 10' Wall Loop Kicker

Wall Mount Tower not included with kicker package

Item	Description	List	Weight
		Price	
WM1036	Wall Loop Support Bin Wall Section	\$571.00	160 lbs
WM2036	Wall Loop 10' Extension (for use above eave)	\$571.00	160 lbs
WM2436	Wall Loop 40" Extension (for use on top of tower only)	\$222.00	60 lbs
WM2836	Wall Loop 80" Extension (for use on top of tower only)	\$404.00	111 lbs
WM3010	10' Wall Loop Kicker	\$1,466.00	390 lbs
WM3020	20' Wall Loop Kicker	\$2,928.00	778 lbs

MRH Roof Handrail

US Patent 8,595,990

How to Calculate Parts Needed for Mid-Roof Handrail:

Number of Sections: One Mid-Roof Handrail section (MRH001) for each foot of desired diameter.

Number of Roof Mounts: One Roof Mount (MRV_1) for each roof panel covered by the Mid-Roof Handrail.
Never more than 2 mounts per section of handrail.

Number of Entries: One entry section (MRHE01) for each instance that you need to pass through the Mid-Roof Handrail.

24" of roof run must be allowed outside of the handrail to allow for mounting hardware.

Example: For example, if the handrail will be placed halfway down the roof of a 60' diameter bin, the handrail diameter (inside diameter) will be 30', so you would order Quantity 30 MRH001. If there are 60 roof panels at the Mid-Roof Handrail roof location, order Quantity 60 MRV_1. Indicate the bin manufacturer when ordering because the mounts are brand specific to correspond to the pre-punched roof rib holes. Typically, at least 1 entry section will be required for each system. The Mid-Roof Handrail requires approximately 2' of space outside the handrail.

Please call for assistance with any configuration questions.

Item	Description	List Price	Weight
MRH001	Mid Roof Handrail	\$122.00	32 lbs
MRHE01	MRH Entry Section	\$235.00	56 lbs
MRVB1	Behlen Mount Foot	\$6.65	3 lbs
MRVC1	Chief Mount Foot	\$6.65	2 lbs
MRVS1	Sukup Mount Foot	\$6.65	3 lbs
MRVX1	Sioux Steel Mount Foot	\$6.65	3 lbs
MRVK1	Brock Mount Foot	\$6.65	3 lbs
MRVT1	Twister Mount Foot	\$6.65	3 lbs

Commercial Packages

Please call our commercial sales team before ordering any commercial products to ensure the products are configured properly to comply with applicable safety standards and are compatible with the structural rating of the bins.

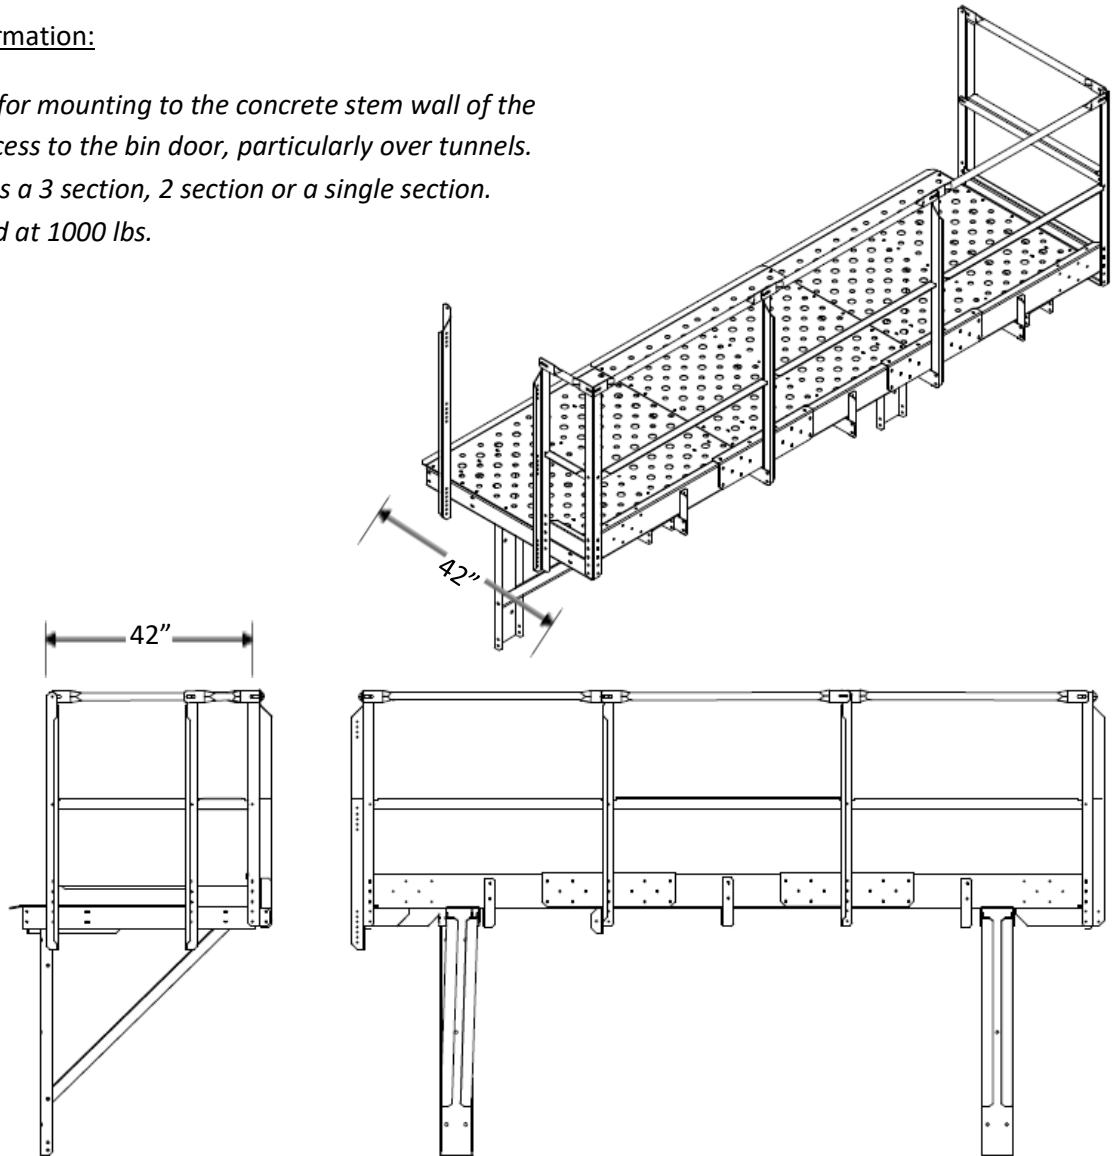

A-Series Foundation Deck

Call for Quote

Not eligible for Early Order/ Pre-Pay Program

Ordering Information:

- *Designed for mounting to the concrete stem wall of the bin for access to the bin door, particularly over tunnels.*
- *Ordered as a 3 section, 2 section or a single section.*
- *Load rated at 1000 lbs.*

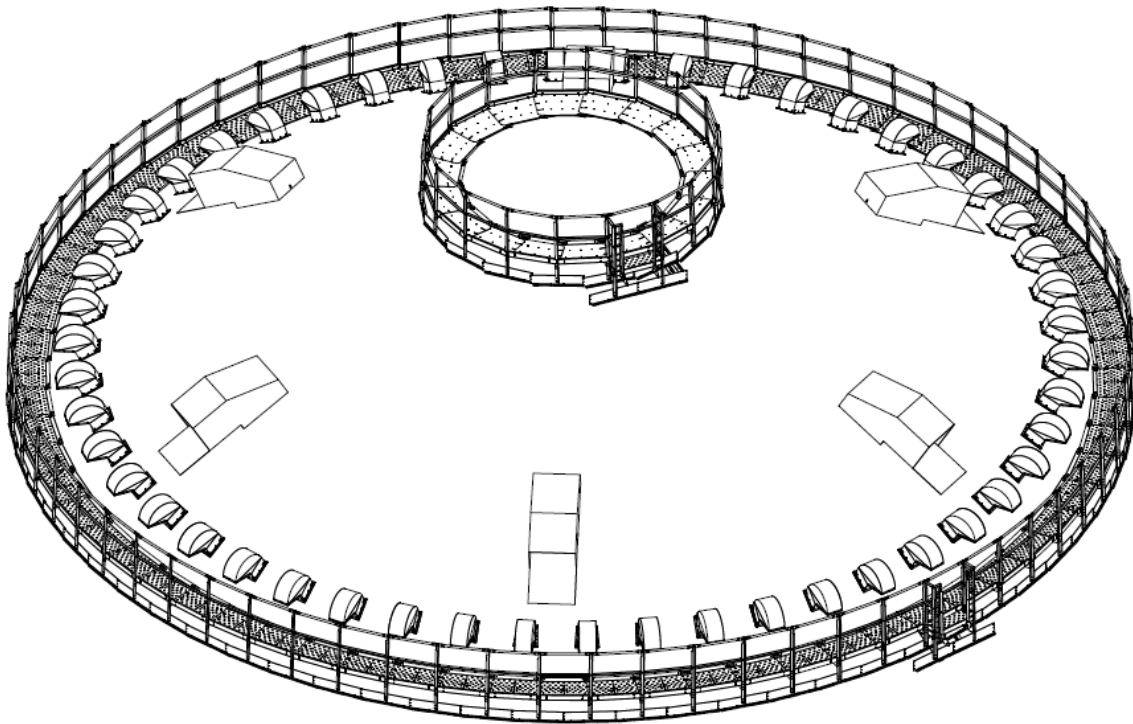

Item	Description	List Price	Weight	Tunnel Width
AFD003	3 Section Foundation Deck 144"	\$2,800.00	600 lbs	99"
AFD002	2 Section Foundation Deck 96"	\$2,352.00	504 lbs	53"
AFD001	1 Section Foundation Deck 48"	\$1,111.64	380 lbs	17"

A-Series Roof Deck

Call for Quote, Applicable Standards and Local Codes Determine Layout.

Not eligible for Early Order/ Pre-Pay Program

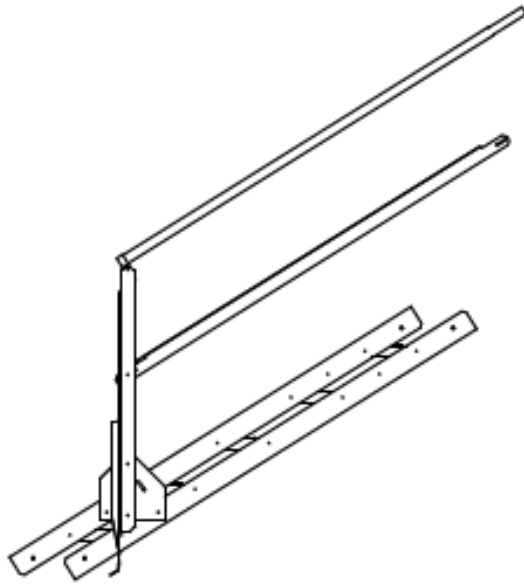

- The A-Series Roof Deck is designed with simplified installation in mind and allows for stair transitions that are compliant with applicable standards for safety and reliability.
- Each section is equivalent to 1' of the outside deck diameter. Example: 48' outside diameter deck is 48 Sections of ARD2480.
- Available in 3 different sizes, ranging from 12' diameter up to a straight line deck, such as on a building roof.
- Designed for roof slopes from 30deg to 40deg.
- Arrest landings can be configured as required by local and regional safety standards to allow for rest landings in the run.
- Another benefit of the rest landings is the ability to change roof stair approach from the eave platform. An eave platform may be at 6 o'clock, but the best approach to the peak may be at 9 o'clock. The lower stair can approach the mid roof deck at 6 o'clock, walk around the deck to 9 o'clock, and proceed up the stairs to the peak of the bin.

Item	Description	List Price	Weight
ARD1236	A-Series Roof Deck 12-36' Diameter	\$235.00	75 lbs
ARD2480	A-Series Roof Deck 24-80' Diameter	\$235.00	75 lbs
ARD2480AL	A-Series Roof Deck 24-80' Diameter Arrest Landing Section	\$229.50	84 lbs
ARD2480AS	A-Series Starter for ARD2480AL	\$385.00	120 lbs
ARD60180	A-Series Roof Deck 60'-Straight Run (180 deg)	\$235.00	75 lbs
ARD-M01	Universal V-Rib Mount (one per section minimum)	\$16.00	7 lbs
ARD-M02	J-Rib Mount (one per section minimum)	\$16.00	8 lbs
ARD0010	A-Series Deck Extension Landing	\$285.00	84 lbs

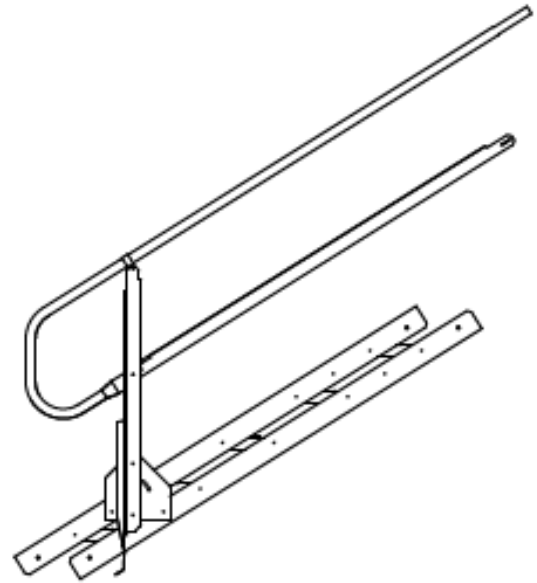

A-Series Roof Stairs

Call for Quote, Applicable Standards and Local Codes Determine Layout.

Not eligible for Early Order/ Pre-Pay Program

ART5005 Intermediate Section

ART5005 Shown with End Rails From Entry Kit

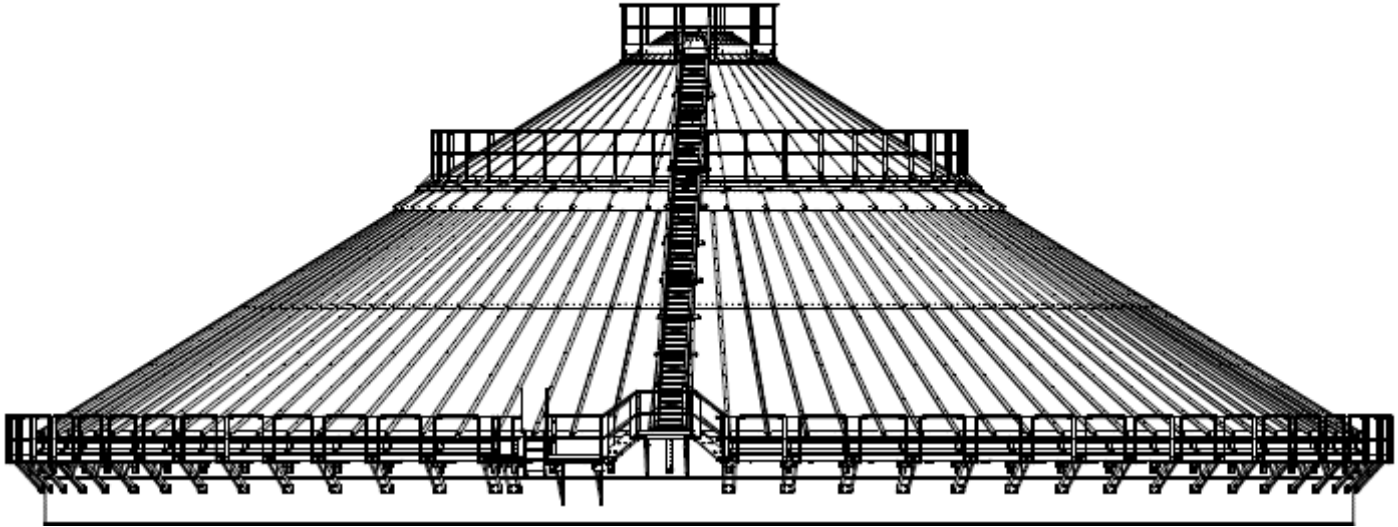

- Variable Pitch Design from 30-45 degrees.
- 1 ½" Round Handrail with swaged end.
- Adjustable mounting height allows for consistent step transition from lower platform to stairs.
- Compatible with A-Series Arrest Landings and A-Series Roof Decks for commercial applications.
- Allows for rest landings on the roof every 18 steps or whatever local standard may apply.
- Computer designed and load rated to comply with applicable standards.

Item	Description	List Price	Weight
ART5001	Peak Top Step Kit (includes rounded bottom pipes)	\$416.91	95 lbs
ARD0010	A-Series Stair Landing Top of Flight	\$285.00	96 lbs
ART5003	A-Series 3 Step Mid Stair Section	\$406.56	92 lbs
ART5004	A-Series 4 Step Mid Stair Section	\$586.74	102 lbs
ART5014	A-Series 4 Step Roof Stair Top Section	\$586.74	95 lbs
ART5005	A-Series 5 Step Mid Stair Section	\$600.60	117 lbs
ART5010	A-Series Top Post Package	\$141.65	33 lbs
ARD0001	A-Series Roof Deck Entry Post Kit (includes rounded bottom pipes)	\$180.00	25 lbs

A-Series Sidewall Deck (Eave Walkaround)

Call for Quote, Not eligible for Early Order/Pre-Pay Program

US Patent: 8,595,989

The Sidewall Deck is available as a walkway option around the sidewall of the bin. It is attached by field drilling through the face of the stiffeners and attaching AWD001 mounting brackets.

Bins with two stiffeners per sidewall panel require one mount and one deck section per stiffener.

Bin with three stiffeners per sidewall panel below 30 feet in diameter require one mount and one deck section per stiffener. Three stiffened bins above 30 feet may be able to use a skip a stiffener configuration where there is one mount and one deck for every other stiffener.

The Sidewall Deck is load rated for 900 lbs.

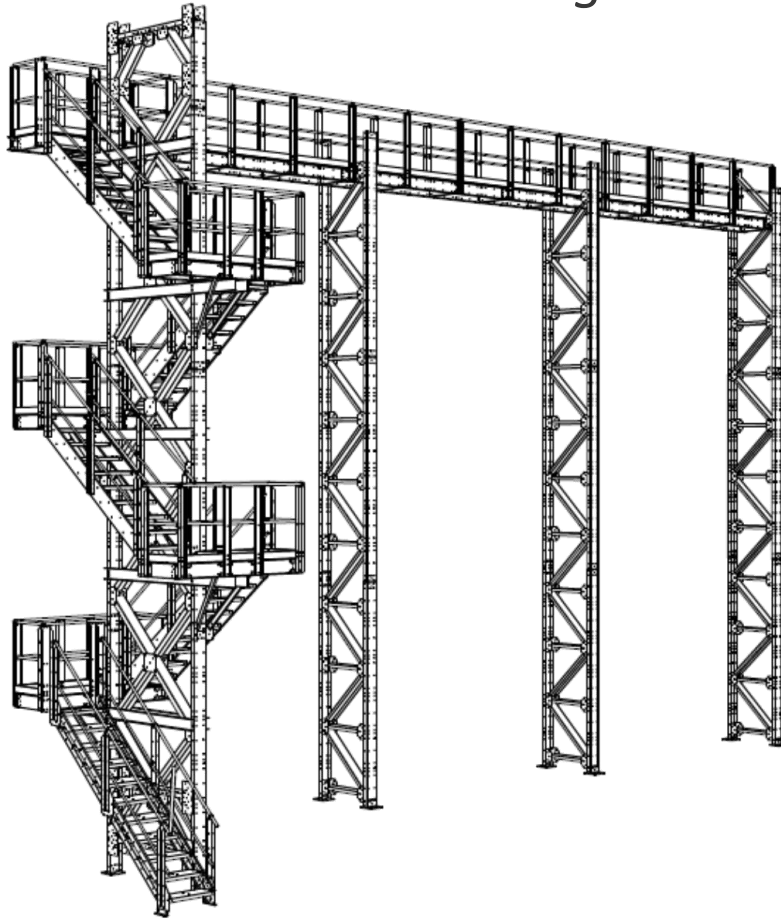

The ES8500 Series platform and ES7744 Transition Stairs are recommended for use at the manhole, roof stairs, and sidewall ladder or stairs.

New Products Coming In 2018

A-Series Tower Stairs:

- Two-column tower with a 7'x14' footprint
- Landings can be placed every 64" – 80" to access multiple elevations
- Stairs and platforms are 30" wide

A-Series Manwalk:

- Rated for commercial applications with a channel sub-frame
- 4', 8', and 12' lengths available
- 30" wide walkway with a non-slip tread surface
- Modular two-column support tower design

A-Series Sidewall Stairs:

- Coming Soon!
