

CAPTAIN NIEMAN! Michael Nieman (right) of Newton, stands with his flight instructor Geoff Orlandi after Nieman passed his tests to become an FAA licensed Private Pilot. Nieman earned the pilot certificate through training with Orlandi Aviation at Blairstown Airport. He can now use his new license to enjoy the privileges, convenience, and satisfaction that comes with piloting an aircraft. Whether for personal travel, recreation, business, or just plain fun Nieman now has a new dimension to his life that only aviation can offer. We congratulate our friend and student on his achievement. For more information on how learning to fly can change your life contact Orlandi at 201-874-5458 or stop by the airport, where he operates his flight school full time and all year around.
