

Green Pastures DEFENSIVE GROWTH WALK MODEL

Peace Of Mind Investing

Moderate Conservative

<u>Investment Objective</u>: The Model seeks to (1) provide capital appreciation and current income consistent with its target asset allocation, (2) make money in both bull and bear markets, (3) minimize downside volatility and drawdowns (losses), (4) maintain a low correlation to major U.S. equity market indices during bear markets, and (5) complement Strategic and traditional passive buy-and-hold investment portfolios.

Investment Strategy: The Model utilizes a defensive growth dynamic asset allocation investment strategy, with a focus on risk management to mitigate downside risk, via a managed portfolio of Sector, Style, Index, Inverse Index, Fixed Income and Money Market no-load (and load-waived) mutual funds.

Green Pastures Defensive Growth Walk Model Disclosure

*Green Pastures Wealth Management LLC ("GPWM") was not actively managing model portfolios from mid-2009 through Dec 2012. Investment returns and principal value will fluctuate, so that investors' shares, when sold, may be worth more or less than their original cost. All the above data represents model or hypothetical results and not actual or historical data for any account. Model performance results (from 01/01/2016 and thereafter) and hypothetical back-tested performance results (from 01/01/2000 to 12/31/2015) have certain inherent limitations. Model performance results do not reflect the performance of an actual client account but rather the performance of a model account.

Hypothetical back-tested performance results assume a dynamically managed blend of the following funds and years utilizing GPWM's Defensive Growth dynamic asset allocation investment strategy: (1) Rydex Biotechnology Inv (RYOIX; 2000-2015), (2) Rydex Consumer Products Inv (RYCIX; 2001-2015), (3) Rydex Health Care Inv (RYHIX; 2000-2015), (4) Rydex Inverse NASDAQ-100 Strategy Inv (RYAIX; 2000-2015), (5) Rydex US Government Money Market (RYFXX; 2000-2015), (6) Rydex Utilities Inv (RYUIX; 2001-2015), (7) Vanguard Inflation-Protected Secs Inv (VIPSX; 2000-2014), (8) Guggenheim Floating Rate Strats A LW (GIFAX); 2015), (9) Vanguard Total Bond Market Index Inv (VBMFX; 2000-2014), (10) Guggenheim Total Return Bond A LW (GIBAX; 2015). GPWM may invest in different mutual funds that have not been included in the hypothetical back-tested performance results.

Past performance results may not be indicative of future performance results and the performance of a specific individual client account may vary substantially from the model performance results presented due to differences in the timing of account start dates, investments, withdrawals, custodian fees and actual fees paid. No current or prospective client should assume that future performance results will be profitable or equal the model performance results reflected herein. Future performance results may be lower or higher than the performance data cited. Hypothetical back-tested performance results do not represent the results of actual trading but rather the results of the retroactive application of a model that was developed with the benefit of hindsight utilizing historical data. In addition, the hypothetical back-tested performance results may not reflect the impact that any material economic or market factors might have had on the adviser's decision-making if the adviser had actually been managing clients' money during that period. The performance results reflect the reinvestment of money market interest, dividends and other earnings and the deduction of the adviser's 1.00% management fee (paid quarterly in arrears) and the fees assessed directly by the underlying mutual funds but may be reduced by custodian fees and transaction fees. The market index data shown above are for purposes of indicating general stock market price movements during the periods shown and do not represent investment portfolios comparable to the Green Pastures Defensive Growth Walk Model. The volatility of such indices used for comparison may be materially different from the volatility of the Green Pastures Defensive Growth Walk Model due to differences in diversification and other factors. The performance of such indices is not an exact representation of any particular investment, as you cannot invest directly in an index. Such indices are unmanaged and do not reflect the impact of any management or performance fees. "GP" = Green

In the event that there has been a change in a client's financial position and the client's investment needs, goals and/or objectives, the client should promptly notify GPWM in writing if and when such information becomes incomplete or inaccurate. All performance results presented have been compiled solely by the advisor and have not been independently verified. A copy of Green Pastures Wealth Management LLC's current disclosure statement on Part II of Form ADV and our Privacy Policy Notice are available upon request.

Green Pastures Defensive Growth Piaffe Model Disclosure

*Green Pastures Wealth Management LLC ("GPWM") was not actively managing model portfolios from mid-2009 through Dec 2012. Investment returns and principal value will fluctuate, so that investors' shares, when sold, may be worth more or less than their original cost. All the above data represents model or hypothetical results. Model performance results (from 01/01/2016 and thereafter) and hypothetical back-tested performance results (from 01/01/2000 to 12/31/2015) have certain inherent limitations. Model performance results from 01/01/2016 and thereafter reflect the performance of an actual client account. Hypothetical performance results from 01/01/2000 to 12/31/2015 do not reflect the performance of an actual client account but rather the performance of a hypothetical back-tested model account.

Hypothetical back-tested performance results assume a dynamically managed blend of the following funds and years utilizing GPWM's Defensive Growth dynamic asset allocation investment strategy: (1) Rydex Biotechnology Inv (RYOIX; 2000-2015), (2) Rydex Consumer Products Inv (RYCIX; 2001-2015), (3) Rydex Health Care Inv (RYHIX; 2000-2015), (4) Rydex Inverse NASDAQ-100 Strategy Inv (RYAIX; 2000-2015), (5) Rydex US Government Money Market (RYFXX; 2000-2015), (6) Rydex Utilities Inv (RYUIX; 2001-2015), (7) Vanguard Inflation-Protected Secs Inv (VIPSX; 2000-2014), (8) Guggenheim Floating Rate Strats A LW (GIFAX); 2015), (9) Vanguard Total Bond Market Index Inv (VBMFX; 2000-2014), (10) Guggenheim Total Return Bond A LW (GIBAX; 2015). GPWM may invest in different mutual funds that have not been included in the hypothetical back-tested performance results.

Past performance results may not be indicative of future performance results and the performance of a specific individual client account may vary substantially from the model performance results presented due to differences in the timing of account start dates, investments, withdrawals, custodian fees and actual fees paid. No current or prospective client should assume that future performance results will be profitable or equal the model performance results reflected herein. Future performance results may be lower or higher than the performance data cited. Hypothetical back-tested performance results do not represent the results of actual trading but rather the results of the retroactive application of a model that was developed with the benefit of hindsight utilizing historical data. In addition, the hypothetical back-tested performance results may not reflect the impact that any material economic or market factors might have had on the adviser's decision-making if the adviser had actually been managing clients' money during that period. The performance results reflect the reinvestment of money market interest, dividends and other earnings and the deduction of the adviser's 1.00% management fee (paid quarterly in arrears) and the fees assessed directly by the underlying mutual funds but may be reduced by custodian fees and transaction fees. The market index data shown above are for purposes of indicating general stock market price movements during the periods shown and do not represent investment portfolios comparable to the Green Pastures Defensive Growth Piaffe Model. The volatility of such indices used for comparison may be materially different from the volatility of the Green Pastures Defensive Growth Piaffe Model due to differences in diversification and other factors. The performance of such indices is not an exact representation of any particular investment, as you cannot invest directly in an index. Such indices is not an exact representation of any particular investment, as you cannot invest directly

In the event that there has been a change in a client's financial position and the client's investment needs, goals and/or objectives, the client should promptly notify GPWM in writing if and when such information becomes incomplete or inaccurate. All performance results presented have been compiled solely by the advisor and have not been independently verified. A copy of Green Pastures Wealth Management LLC's current disclosure statement on Part II of Form ADV and our Privacy Policy Notice are available upon request.

Green Pastures Defensive Growth Trot Model Disclosure

*Green Pastures Wealth Management LLC ("GPWM") was not actively managing model portfolios from mid-2009 through Dec 2012. Investment returns and principal value will fluctuate, so that investors' shares, when sold, may be worth more or less than their original cost. All the above data represents model or hypothetical results. Model performance results (from 01/01/2016 and thereafter) and hypothetical back-tested performance results (from 01/01/2000 to 12/31/2015) have certain inherent limitations. Model performance results from 01/01/2016 and thereafter reflect the performance of an actual client account. Hypothetical performance results from 01/01/2000 to 12/31/2015 do not reflect the performance of an actual client account but rather the performance of a hypothetical back-tested model account.

Hypothetical back-tested performance results assume a dynamically managed blend of the following funds and years utilizing GPWM's Defensive Growth dynamic asset allocation investment strategy: (1) Rydex Biotechnology Inv (RYOIX; 2000-2015), (2) Rydex Consumer Products Inv (RYCIX; 2001-2015), (3) Rydex Health Care Inv (RYHIX; 2000-2015), (4) Rydex Inverse NASDAQ-100 Strategy Inv (RYAIX; 2000-2015), (5) Rydex US Government Money Market (RYFXX; 2000-2015), (6) Rydex Utilities Inv (RYUIX; 2001-2015), (7) Vanguard Inflation-Protected Secs Inv (VIPSX; 2000-2014), (8) Guggenheim Floating Rate Strats A LW (GIFAX); 2015), (9) Vanguard Total Bond Market Index Inv (VBMFX; 2000-2014), (10) Guggenheim Total Return Bond A LW (GIBAX; 2015). GPWM may invest in different mutual funds that have not been included in the hypothetical back-tested performance results

Past performance results may not be indicative of future performance results and the performance of a specific individual client account may vary substantially from the model performance results presented due to differences in the timing of account start dates, investments, withdrawals, custodian fees and actual fees paid. No current or prospective client should assume that future performance results will be profitable or equal the model performance results reflected herein. Future performance results may be lower or higher than the performance data cited. Hypothetical back-tested performance results do not represent the results of actual trading but rather the results of the retroactive application of a model that was developed with the benefit of hindsight utilizing historical data. In addition, the hypothetical back-tested performance results may not reflect the impact that any material economic or market factors might have had on the adviser's decision-making if the adviser had actually been managing clients' money during that period. The performance results reflect the reinvestment of money market interest, dividends and other earnings and the deduction of the adviser's 1.00% management fee (paid quarterly in arrears) and the fees assessed directly by the underlying mutual funds but may be reduced by custodian fees and transaction fees. The market index data shown above are for purposes of indicating general stock market price movements during the periods shown and do not represent investment portfolios comparable to the Green Pastures Defensive Growth Trot Model. The volatility of such indices used for comparison may be materially different from the volatility of the Green Pastures Defensive Growth Trot Model due to differences in diversification and other factors. The performance of such indices is not an exact representation of any particular investment, as you cannot invest directly in an index. Such indices are unmanaged and do not reflect the impact of any management or performance fees. "GP" = Green

In the event that there has been a change in a client's financial position and the client's investment needs, goals and/or objectives, the client should promptly notify GPWM in writing if and when such information becomes incomplete or inaccurate. All performance results presented have been compiled solely by the advisor and have not been independently verified. A copy of Green Pastures Wealth Management LLC's current disclosure statement on Part II of Form ADV and our Privacy Policy Notice are available upon request.

Green Pastures Defensive Growth Canter Model Disclosure

*Green Pastures Wealth Management LLC ("GPWM") was not actively managing model portfolios from mid-2009 through Dec 2012. Investment returns and principal value will fluctuate, so that investors' shares, when sold, may be worth more or less than their original cost. All the above data represents model or hypothetical results. Model performance results (from 01/01/2016 and thereafter) and hypothetical back-tested performance results (from 01/01/2000 to 12/31/2015) have certain inherent limitations. Model performance results from 01/01/2016 and thereafter reflect the performance of an actual client account. Hypothetical performance results from 01/01/2000 to 12/31/2015 do not reflect the performance of an actual client account but rather the performance of a hypothetical back-tested model account.

Hypothetical back-tested performance results assume a dynamically managed blend of the following funds and years utilizing GPWM's Defensive Growth dynamic asset allocation investment strategy: (1) Rydex Biotechnology Inv (RYOIX; 2000-2015), (2) Rydex Consumer Products Inv (RYCIX; 2001-2015), (3) Rydex Health Care Inv (RYHIX; 2000-2015), (4) Rydex Inverse NASDAQ-100 Strategy Inv (RYAIX; 2000-2015), (5) Rydex US Government Money Market (RYFXX; 2000-2015), (6) Rydex Utilities Inv (RYUIX; 2001-2015), (7) Vanguard Inflation-Protected Secs Inv (VIPSX; 2000-2014), (8) Guggenheim Floating Rate Strats A LW (GIFAX); 2015), (9) Vanguard Total Bond Market Index Inv (VBMFX; 2000-2014), (10) Guggenheim Total Return Bond A LW (GIBAX; 2015). GPWM may invest in different mutual funds that have not been included in the hypothetical back-tested performance results.

Past performance results may not be indicative of future performance results and the performance of a specific individual client account may vary substantially from the model performance results presented due to differences in the timing of account start dates, investments, withdrawals, custodian fees and actual fees paid. No current or prospective client should assume that future performance results will be profitable or equal the model performance results read be lower or higher than the performance data cited. Hypothetical back-tested performance results do not represent the results of actual trading but rather the results of the retroactive application of a model that was developed with the benefit of hindsight utilizing historical data. In addition, the hypothetical back-tested performance results may not reflect the impact that any material economic or market factors might have had on the adviser's decision-making if the adviser had actually been managing clients' money during that period. The performance results reflect the reinvestment of money market interest, dividends and other earnings and the deduction of the adviser's 1.00% management fee (paid quarterly in arrears) and the fees assessed directly by the underlying mutual funds but may be reduced by custodian fees and transaction fees. The market index data shown above are for purposes of indicating general stock market price movements during the periods shown and do not represent investment portfolios comparable to the Green Pastures Defensive Growth Canter Model. The volatility of such indices used for comparison may be materially different from the volatility of the Green Pastures Defensive Growth Canter Model due to differences in diversification and other factors. The performance of such indices is not an exact representation of any particular investment, as you cannot invest directly in an index. Such indices are unmanaged and do not reflect the impact of any management or performance fees. "GPP" = Green Pastures Defensive Growth Canter Model

In the event that there has been a change in a client's financial position and the client's investment needs, goals and/or objectives, the client should promptly notify GPWM in writing if and when such information becomes incomplete or inaccurate. All performance results presented have been compiled solely by the advisor and have not been independently verified. A copy of Green Pastures Wealth Management LLC's current disclosure statement on Part II of Form ADV and our Privacy Policy Notice are available upon request.

Green Pastures DEFENSIVE GROWTH GALLOP MODEL

Equity / 100% Fix Inc / 0% Investment Objective: The Model seeks to (1) provide capital appreciation consistent with its target asset allocation, (2) make money in both bull and bear markets, (3) minimize downside volatility and drawdowns (losses), (4) maintain a low correlation to major U.S. equity market indices during bear markets, and (5) complement Strategic and traditional passive buy-and-hold portfolios.

Investment Strategy: The Model utilizes a defensive growth dynamic asset allocation investment strategy, with a focus on risk management to mitigate downside risk, via a managed portfolio of Sector, Style, Index, Inverse Index and Money Market no-load (and load-waived) mutual funds.

Terms: ►Min. Investment: \$25,000 ► Liquidity: Daily ► Transparency: Daily ► Mgmt Fee: 1.00%

Green Pastures Defensive Growth Gallop Model Disclosure

*Green Pastures Wealth Management LLC ("GPWM") was not actively managing model portfolios from mid-2009 through Dec 2012. Investment returns and principal value will fluctuate, so that investors' shares, when sold, may be worth more or less than their original cost. All the above data represents model or hypothetical results. Model performance results (from 01/01/2016 and thereafter) and hypothetical back-tested performance results (from 01/01/2000 to 12/31/2015) have certain inherent limitations. Model performance results from 01/01/2016 and thereafter reflect the performance of an actual client account. Hypothetical performance results from 01/01/2000 to 12/31/2015 do not reflect the performance of an actual client account but rather the performance of a hypothetical back-tested model account.

Hypothetical back-tested performance results assume a dynamically managed blend of the following funds and years utilizing GPWM's Defensive Growth dynamic asset allocation investment strategy: (1) Rydex Biotechnology Inv (RYOIX; 2000-2015), (2) Rydex Consumer Products Inv (RYCIX; 2001-2015), (3) Rydex Health Care Inv (RYHIX; 2000-2015), (4) Rydex Inverse NASDAQ-100 Strategy Inv (RYAIX; 2000-2015), (5) Rydex US Government Money Market (RYFXX; 2000-2015), and (6) Rydex Utilities Inv (RYUIX; 2001-2015). GPWM may invest in different mutual funds that have not been included in the hypothetical back-tested performance results.

Past performance results may not be indicative of future performance results and the performance of a specific individual client account may vary substantially from the model performance results presented due to differences in the timing of account start dates, investments, withdrawals, custodian fees and actual fees paid. No current or prospective client should assume that future performance results will be profitable or equal the model performance results reflected herein. Future performance results may be lower or higher than the performance data cited. Hypothetical back-tested performance results do not represent the results of actual trading but rather the results of the retroactive application of a model that was developed with the benefit of hindsight utilizing historical data. In addition, the hypothetical back-tested performance results may not reflect the impact that any material economic or market factors might have had on the adviser's decision-making if the adviser had actually been managing clients' money during that period. The performance results reflect the reinvestment of money market interest, dividends and other earnings and the deduction of the adviser's 1.00% management fee (paid quarterly in arrears) and the fees assessed directly by the underlying mutual funds but may be reduced by custodian fees and transaction fees. The market index data shown above are for purposes of indicating general stock market price movements during the periods shown and do not represent investment portfolios comparable to the Green Pastures Defensive Growth Gallop Model. The volatility of such indices used for comparison may be materially different from the volatility of the Green Pastures Defensive Growth Gallop Model due to differences in diversification and other factors. The performance of such indices is not an exact representation of any particular investment, as you cannot invest directly in an index. Such indices are unmanaged and do not reflect the impact of any management or performance fees. "GP" = G

In the event that there has been a change in a client's financial position and the client's investment needs, goals and/or objectives, the client should promptly notify GPWM in writing if and when such information becomes incomplete or inaccurate. All performance results presented have been compiled solely by the advisor and have not been independently verified. A copy of Green Pastures Wealth Management LLC's current disclosure statement on Part II of Form ADV and our Privacy Policy Notice are available upon request.
