

# THE MEXICA MARTIANS

## CELESTIAL OCCULT SIGNATURES

In this perspective of the whole Mexica metropolitan-view, using *GoogleEarth*, the Martian motif and eagle can only be seen from above. The eagle motif appears to be resting on what was the core island of *Tenochtitlan*. Also this portion thus renders the Martian motif *hexagram* of the *Cydonia, Mars* complex. Interestingly, this configuration is a mirror image of the other eagle with a hexagram; it is that of the United States. In that depiction, the *hexagram* is above the eagle motif. It appears that most of the major world capitals testify of the same elemental core sources of knowledge and origins of such a Martian motif of the likes of *Cydonia*, to include extra-terrestrial visitations. One such knowledge handed down to the human race has been how the world capitals, past and present use such an extraterrestrial motif as the one from *Cydonia, Mars*.

The Mexico City basin that once was a lake, *Texcoco* is now construed to show an outstretched winged eagle. Only less than .1% of the lake remains but ironically it is juxtaposed directly above the eagle's

### Lake Texcoco Remains

The illustrations of the ancient lake bed will be marked as will to outline of the former *Tenochtitlan* pyramid island. Moreover, this eagle motif is the national coat of arms, the Golden Eagle with a serpent in its mouth. In the first original tales is that of a prophecy; it was suggested that the snake was a rat. The eagle is now the national emblem that is also the centerpiece of the try-color flag of Mexico. Other particularities of this eagle motif is that the *Benito Juarez International Airport* makes-up the eagle's body and the planes come and go off the runways that are parallel to the eagle's body frame.

The prophecy of where the Aztecs were to build their city was based upon the sign of an eagle wrestling and eating a Serpent. This is said to have been witnessed by the High Priests of the Aztec tribe in what is the *Tenochtitlan Island*.

The capital city was in itself a place of prophecy as the Aztecs were themselves conquistadors to the land. They are purported to have come from the land of *Aztlan* in what is now the U.S. Southwest. It is said that when the Aztecs arrived into the Valley of Mexico, *Teotihuacan* or the 'City of the Gods', just northeast of the city was already abandoned.

Puma Landscape

Another prophecy was given that when a comet appeared in the sky, the return of the white skin, blond and blue-eyed 'god' of *Quetzalcoatl* would occur. This was eerily fulfilled with the Spanish lead by Cortez came in the year *Healey's Comet* streaked across the sky. The lake Texcoco is now all but drained. In its place, the world metropolis of Mexico City has emerged. As subsequent 'invaders' have come also, those of the Luciferian kind primarily rule as they do all other capitals of the world. This sad condition has been perpetrated by the fall of mankind. Based on the Biblical worldview, the Scriptures state that the current condition of Adam's race is in a state of rebellion against its Creator, YHWH and chose through deception the lies of Lucifer. The contention is for world dominion at any cost, even the price of one's eternal soul.

In fact Biblically speaking, this will unfortunately be the case for all the nations. Although the coming of the AntiChrist will be on a 'White Horse' type of metaphor and having no arrow but just a bow, he will deceive many and by 'Deception he will make war'. He will only initially bring a worldwide peace but will be a short lived one and a false one. And as with the Mexicas, it will not bode well either with the world inhabitants until the true conqueror of sin, death and Lucifer returns, Jesus Christ.
