J's Barber College Student Guidelines for Reopening

1. Complete and review Infection Control Practices for Barbering
2. Students and their clients will adhere to one-way traffic flow throughout the facility by entering the front entrance and exiting the rear door.
3. Students and their clients are required to have their temperature taken daily.
4. Students and their clients must wear a mask at all time.
5. Social distancing must always be 6 ft apart on the salon floor, in the breakroom and classrooms.
6. Only 50% occupancy will be allowed in the building at a time.
7. Students are required to freshly laundered and sanitized tools and supplies for each client/service.
8. Students will be trained on new Covid-19 policies and procedures adhering to LA Open Safely Program prior to opening.
9. Students must purchase and replenish tools, essential personal protection equipment (PPE) and disinfectants. (ex. gloves, masks, barber jacket, disinfectants, etc.)
10. Student must clean and disinfect all non-porous implements and tools prior to each use (combs, shears, razors, blades, brushes, etc.)
11. Students will sanitize their work area after each use. Upon completion a "Sanitized Card" will be placed at the station. If the station is wet or there is no "Sanitized Card" it is **not** ready for use!
12. Sweep and dispose of hair clippings after every client.
13. Student and their client will sign a liability agreement.

Infection Control Reminders

- Follow manufacturer's directions and contact time requirements for disinfectant use and formulations.
- UV Ray sanitizers **Do not** disinfect items, they only keep cleaned and disinfected items sanitized until use.
- Use soap and water to wash your hands for 20 seconds regularly (before and after each client). **Do not** rely solely on hand sanitizers.
- **Do not** use neck brushes. Use a blow dryer, paper towel, or tissue to remove residual hair clippings.
