

Meet David Vanderveen

My family and I live in Granger, Indiana where I work for a nonprofit recovery program and my wife Katrina is a radiologist. We have two kids, a 13-year-old daughter Kate and an 11-year-old son Jack. We have been coming to our family's cottage on the south side of Pentwater Lake since the mid- 90's. My kids grew up eating breakfast at Cottage Garden, ice cream at House of Flavors in the evening, and lots of swimming, boating and tubing in between. I have always loved to fish, and over the years I fished out of Pentwater with a few relatives and neighbors. I got my own boat, Breakaway, two years ago and now Jack and I get out on the big lake whenever we can. Pentwater is a special town, and we are blessed with a great fishery. I am grateful for the PSA, and happy to be part of its efforts to promote our sport and our community.
