EXECUTIVE SUMMARY

This report contains alcohol-related information collected in all twenty-three counties in Wyoming during a twelve-month time period (October 1, 2007 through September 30, 2008) by the Wyoming Association of Sheriffs and Chiefs of Police. Information was collected from a total of 21,758 persons who were arrested and subsequently detained in a county detention facility. The alcohol-related arrest data contained in this report provides a detailed, statistical picture of the impact of alcohol abuse on crime in Wyoming. Listed below are a few of the significant findings in this report.

- Alcohol was involved in 70.65% of all custodial arrests.
- Alcohol was involved in 74.38% of all misdemeanor arrests.
- Arrests for public intoxication accounted for 12.41% of all arrests.
- The average blood alcohol content for persons arrested for public intoxication was 0.235.
- Methamphetamine was involved in 2.10% of the 21,758 reported arrests.
- “Other drugs” were involved in 9.07% of the reported arrests.
- Driving under the influence arrests accounted for 37.5% of all arrests.
- The average reported blood alcohol content for DUI arrests statewide was 0.158.¹
- 44.4% of persons arrested for DUI had a reported BAC level above 0.16; and 7.63% had a BAC of 0.240 or greater.
- The average reported BAC for 1371 females arrested for DUI was 0.152.
- The average reported BAC for 5,600 males arrested for DUI was 0.152.
- The average reported BAC for 807 persons who were arrested for DUI after being involved in a traffic crash was 0.161.

¹ In Wyoming, a person driving with a blood alcohol content of 0.08 is legally presumed to be impaired.

Executive Summary (continued)

The high percentage of alcohol-involved arrests, the inordinate number of arrests for public intoxication and driving under the influence, and the high levels of blood alcohol content recorded for this twelve-month period in 2007 and 2008 equals or surpasses the statistics that were recorded in the previous year².

In order to grasp the significance of these statistics, it should be noted that a physically fit male who weighs 180 pounds would have to consume at least seven drinks in one hour in order to achieve a BAC of 0.15 – a female weighing 120 pounds would have to consume five drinks in one hour. Please refer to the Alcohol Impairment Educational Guides for males and females in the Attachments Section of this report for information about the level of impairment for other body weights and drinks consumed.

The statistics in this report provide evidence of the high level of alcohol abuse statewide. The high percentage of alcohol involved arrests (70.65%), the inordinate number of arrests for public intoxication and DUI and the high levels of BAC recorded for these individuals (average BAC – 0.235 for public intoxication and 0.158 for DUI) appear to validate the concerns expressed by Wyoming residents in a recent statewide public opinion survey³.

This executive summary provides just a few highlights from all the data that is included in this report. This report includes statewide statistics and averages, along with comparisons of county statistics in specific categories. In addition, there are approximately one hundred pages of data included in a supplemental report that provides county, community and local law enforcement agency specific statistics. A careful review of both reports is essential in order to gain a more complete perspective of the impact of alcohol on crime in the state of Wyoming.

² Evaluation of Alcohol Factors in Custodial Arrests in the State of Wyoming, Wyoming Association of Sheriffs and Chiefs of Police, June 2007

³ Wyoming Alcohol Use Issues Survey, Wyoming Survey & Analysis Center, October 2006

INTRODUCTION

The Wyoming Association of Sheriffs and Chiefs of Police has been collecting and evaluating alcohol-related arrest data in Wyoming since 2005. This effort was initiated by the Association and has been funded by the Wyoming Department of Transportation – Highway Safety Program since its inception with the expressed purpose of formulating effective enforcement strategies aimed at reducing the number of alcohol related crimes and traffic crashes in Wyoming.

A baseline of alcohol-related arrest data was established for a six-month time period (April 1 through September 30) in all twenty-three counties as a result of the collection efforts in 2006. Data was collected for a twelve-month period (October 1, 2007 through September 30, 2008) this year as a result of receiving funding assistance from the Substance Abuse and Mental Health Services Division – Wyoming Department of Health. The process for collecting the data has been refined each year since inception to ensure more complete and accurate reporting. The data fields selected for collection and analysis have been standardized as well.

The information collected from a total of 21,758 persons who were arrested and subsequently detained in a detention facility in the participating counties during the twelve-month project period (October 1, 2007 through September 30, 2008) confirmed what law enforcement officers who patrol the highways and who respond to calls for service in Wyoming already knew from experience – that alcohol is a major contributing factor in situations that result in someone going to jail. The following section of this report provides a few of the noteworthy alcohol-related statistics and findings.

SIGNIFICANT STATISTICS AND FINDINGS

The high percentage of alcohol-involved arrests in Wyoming, the inordinate number of arrests for public intoxication and driving under the influence, and the reported high level of blood alcohol content equaled or surpassed the statistics recorded in 2006 and 2007. The statistics contained in this report should prompt further discussion and analysis by local law enforcement, citizens and state/community leaders.

Detailed charts and graphs of this data are provided in the Data/Statistics section of this report. The number and percentage of arrests are provided for every listed category of concern on a statewide basis, as well as by county and by law enforcement agency for more in-depth comparison purposes. Listed below are a few of the noteworthy alcohol-related statistics and findings in this report.

- **Alcohol was a factor in 70.65% of the custodial arrests in Wyoming.**
 - Counties with significantly higher statistics:
 - Hot Springs – 83.56%
 - Weston – 87.84%
 - Crook – 92.86%

- **Alcohol was involved in 74.38% of the misdemeanor arrests.**

- **Arrests for Public Intoxication accounted for 12.41% of all arrests statewide.**
(The statewide average does not include 2,985 persons who were admitted into the Fremont County Alcohol Crisis Center for public intoxication)
 - Counties with significantly higher statistics:
 - Uinta – 19.27%
 - Sweetwater – 19.44%
 - Teton – 27.17%

- **The average blood alcohol content for all persons arrested for public intoxication was 0.236.**

- **Methamphetamine was involved in 2.10% of the 21,758 arrests statewide.**
 - Counties with significantly higher statistics:
 - Lincoln – 3.62%
 - Sweetwater – 5.16%

- **“Other” drugs were involved in 9.07% of the reported arrests statewide.**
 - Counties with significantly higher statistics:
 - Sweetwater – 16.00%
 - Converse – 18.6%
 - Hot Springs – 20.55%

Significant Statistics and Findings (continued)

- **Driving under the influence (DUI) arrests accounted for 37.5% of all arrests statewide.**
 - Counties with significantly higher statistics:
 - Crook – 57.86%
 - Hot Springs – 58.90%
 - Weston – 66.22%

- **The average blood alcohol content (BAC) reported for 7,094 persons arrested for driving under the influence statewide was 0.158.**
 - Counties with significantly higher statistics:
 - Sweetwater – 0.198
 - Weston – 0.256
 - Niobrara – 0.297

- **44.4% of the persons arrested for driving under the influence had average blood alcohol content above 0.16.**
 - 7.63% had a BAC of 0.24 or greater
 - 11.78% had a BAC between 0.20 and 0.239
 - 24.99% had a BAC between 0.16 and 0.199

- **The average BAC reported for 807 traffic crashes that involved alcohol was 0.161.**

- **7.64% of all persons arrested for driving under the influence (DUI) were under the age of 21.**

- **Juveniles accounted for 1.6% of the arrests statewide.**
 - It should be noted that the data in this report does not represent a complete accounting of juvenile arrests as these arrests often do not result in detention in a county facility.

- **39.14% of the juvenile arrests involved alcohol.**

- **Less than 1% of the juvenile arrests involved methamphetamine.**

- **17.14% of the juvenile arrests involved “other” drugs.**

- **Minors arrested for alcohol-related offenses reported obtaining alcohol at:**
 - Party – 34%
 - Home – 29%
 - Bar – 19%
 - Liquor Store – 16%
 - Drive-up – 1%

PROJECT DESIGN AND IMPLEMENTATION

The Wyoming Association of Sheriffs and Chiefs of Police contracted with Johnson and Associates, a Wyoming based management consulting firm, to manage and staff this project – to create the master database, to collect and input data, to make presentations to select groups and to author the final report. The Association had also contracted with Johnson and Associates to manage and staff the previous projects in 2005, 2006 and 2007.

A task force comprised of administrators and detention facility personnel from each of the county law enforcement agencies involved in the initial data collection efforts in 2005 determined the scope and intent of the project and provided specific direction for its implementation. In the following years, all law enforcement and detention facility administrators in the state were involved in deciding the appropriate fields for collection of data, selecting the subject areas that would be targeted for analysis and refining the process and procedures for collecting the information.

A supply of reporting forms and self-addressed stamped envelopes were provided to all detention facilities in the state - along with an instruction sheet for processing the completed reporting forms. In addition, all detention facility personnel who were assigned the responsibility to oversee their agencies' data collection were provided individual orientations. All completed reporting forms were submitted to Johnson and Associates for data entry on a weekly basis.

The master database for this project was created using Microsoft Access in a manner that will allow “harvesting” of additional information in the future should a need or particular area of interest arise. The data in this report is presented by “county” and by “department,” by actual numbers and percentages, and by various categories of interest. The information was assembled in this manner in order to assist law enforcement administrators, as well as community leaders, to better analyze the information and to facilitate follow-up inquiries of notable concerns.

DATA COLLECTION

A one-page reporting form consisting of fill-in or checked boxes was constructed and refined during the course of this project. It is estimated that the form requires the booking and/or arresting officer two-to-three minutes to fill out during the book-in process. Specific information that was collected during the book-in process include: type of offense, whether alcohol was involved; whether drugs were involved; location of last consumption and point of sale; known blood alcohol content levels for arrests involving public intoxication, driving under the influence and minors in possession; and demographic information. (Please refer to page 39 for a sample of the reporting form)

Data Collection (continued)

A total of 21,758 reporting forms were submitted by the twenty-three county detention facilities and the Fremont County Alcohol Crisis Center during the twelve-month data collection period October 1, 2007 through September 30, 2008. Although officers were instructed to complete a form for every person booked into the detention facility, they did not always do so. An independent review of department book-in records revealed that there were a total of 26,290 persons booked in to all detention facilities during that period – for a statewide reporting average of 82.66%. (Please refer to page 37 of this report for the monthly comparison of reports received to actual arrests - and for a listing of all county reporting percentages) Only “field” arrests resulting in a person being booked into a detention facility have been tabulated – these reported “field” arrests totaled 21,758.

DATA /STATISTICS

All information contained in the reporting forms that were submitted by the participating counties was entered into a master data base by week and by month. This information was subsequently assembled by category, by county, and by department in order to facilitate appropriate comparisons and further analysis.

A detailed breakdown of information for each county is available in a separate Supplemental Report.⁴ A sample of the county statistics is included in this report. Natrona County was selected as the sample to be included as this county generated the greatest number of arrest statistics.

The alcohol-related arrest data in this report is presented in a series of tables and graphs:

- ❖ Tables – Number of Arrests and Percentages
- ❖ Pie Chart – Methamphetamine, Alcohol and Other Drugs
- ❖ Tables – Felony/Misdemeanor Arrests Involving Alcohol
 - Alcohol Involvement by Category of Arrest
- ❖ Bar Graphs – Alcohol Arrests Percentages, BAC
- ❖ Pie Graphs – DUI, BAC, Traffic Crash Statistics
- ❖ Tables and Bar Graphs – Juvenile Statistics
- ❖ Pie Graph – Juvenile Demographics, Where Minors Obtain Alcohol
- ❖ Table – Natrona County Statistics (Sample County Statistics)
- ❖ Table – Total reports compared to Actual Custodial Arrests

Evaluation of Alcohol Factors in Wyoming Custodial Arrests

ACKNOWLEDGEMENTS

This project was accomplished due to the committed support of all the law enforcement administrators in Wyoming, and in particular, the Sheriffs' generous commitment of agency resources. The day-to-day supervision and weekly submittal of the project reporting forms and the individual efforts of the hundreds of arresting/detention officers who filled out the reporting forms should be acknowledged as well. Their collective efforts were absolutely essential to the overall success of this project.

2007-2008 - EVALUATION OF ALCOHOL FACTORS IN CUSTODIAL ARRESTS

Albany County Sheriff's Department

OFFICER or CR NUMBER _____ DATE _____

The following information is being collected in an effort to evaluate alcohol factors in custodial and DUI arrests in all twenty-three counties in Wyoming. This data will be collected for a period of 12 months (Oct. 1, 2007 through September 30, 2008) and will be used for statistical analysis purposes only. Please fill out a separate form for every person being booked into your facility.

Please fill in the information based on your knowledge of the case, personal observations, and/or questioning of the person arrested. The person should be advised that no case sensitive information is being recorded and that this information is being collected for statistical purposes only. A copy of the final report will be provided to every participating agency. Thanks for your help.

DEPARTMENT (Circle agency affecting arrest; if agency is not listed please fill in "Other")

Albany Laramie UW PD WHP G&F Other: _____

GENDER (Circle one): Male Female **AGE:** _____

OFFENSE CHARGED (Circle all that apply): Misdemeanor Felony

TYPE of CRIME (Circle all that apply):

Domestic Violence Assault Resisting Arrest
Public Intoxication DUI MIP

TRAFFIC CRASH INVOLVED (Circle one): Yes No

DRUGS INVOLVED (Circle one): Yes No

METH INVOLVED (Circle one): Yes No

ALCOHOL INVOLVED (Note if you detect the odor of alcohol or if you have knowledge that the person had been drinking prior to being arrested) (Circle one): **Yes** **No**

If yes (Fill in all that apply):

Intoximeter BAC: _____

Blood Test BAC: _____

UA BAC: _____

PBT BAC: _____

Refused all testing (Circle if applicable): Yes

LOCATION OF LAST CONSUMPTION (Circle all that apply):

Home Bar (Name: _____) Car Party/Event

Other: _____ Did not respond

POINT OF SALE OR WHERE ALCOHOL WAS OBTAINED (Circle all that apply):

Home Bar Party/Event Liquor Store Drive-up Window

Other: _____ Did not respond

RELATED EDUCATION & EXPERIENCE:

- Twenty-four years experience as an administrator of a state agency with direct responsibility for budget development and administration, planning, organizing, directing, staffing, and program services delivery.
- Masters degree in Public Administration; over twenty years experience in training executives to achieve excellence in government, manage and implement change, increase organizational effectiveness, and maximize program efficiency.
- Conducted in-depth management studies for criminal justice agencies for the states of Massachusetts and New Hampshire. These studies assessed the delivery of program services by agencies with statewide responsibilities and provided recommendations for increasing organizational efficiency and agency credibility.
- Over twenty-five years of experience in researching, writing, and administering a wide variety of federal and state grants. Grants involved in excess of several million dollars for a wide variety of purposes: personnel, equipment, training, research, and providing services with targeted priorities.
- Extensive experience in researching, evaluating, and implementing a wide variety of projects. These projects varied in scope and duration, and many required the involvement and partnership of multiple agencies and personnel throughout the state, as well as the enactment of state legislation.
 - Evaluation performed for the Substance Abuse Division - WDH – “Responsible Server Training Program” – October 2002
 - Managed the Wyoming First Lady’s Initiative to Reduce Underage Drinking – November 2004 to September 2006
 - Currently serving as the Facilitator for the Wyoming Seat Belt Coalition
 - Managed project and authored report: A Comprehensive Review of Alcohol State Statutes: Findings and Recommendations for Reducing Underage and Binge Drinking in Wyoming - 2008

Evaluation of Alcohol Factors in Wyoming Custodial Arrests

Project Manager Vita (continued)

- Twenty years of experience in conducting a variety of feasibility studies
 - Conducted numerous feasibility studies for the Wyoming Legislature
 - Most recent feasibility study conducted for the Town of Wright: “Should the Town of Wright create its own Police Department?” May 2004

- Conducted executive level training for the US Department of Justice/ State Department:
 - Instructed a 40-hour training course entitled “The Office of Professional Responsibility” for the Lithuania National Police command staff - 2001
 - Instructed an 80-hour training course entitled “Sex Crimes Investigations” for Investigators and Prosecutors in Lithuania - 2001

- Faculty - Criminal Justice Department - University of Wyoming (September 2000 to present)
 - Currently teaching the following courses: Criminal Justice Management, Concepts of Modern Policing, Ethics in the Administration of Justice, Criminal Justice Civil Liability, Politics and the Judicial Process, Criminal Courts and Processes, and Police Deviance.

- Management consultant for the Wyoming Association of Sheriffs and Chiefs of Police - Projects completed or currently in progress:
 - Evaluation of Alcohol Factors in Custodial Arrest in Wyoming – May 2005
 - Statewide Public Opinion Survey: Alcohol Issues and Policies (phone survey of 4,600 residents of Wyoming – Report released November 2006
 - Evaluation of Alcohol Factors in Custodial Arrests in Wyoming - 2006: Phase I (data collection), Phase II (Analysis, Findings and Strategies)
 - Evaluation of Alcohol Factors in Custodial Arrests in Wyoming - 2007
 - Project Manager for the Enforcing Underage Drinking Laws Program – September 2007 to present
 - Project Manager for WY-CIA Wyoming Communities in Action – Phase I, Phase II – September 2007 to present
 - Project Manager for Reducing Underage Drinking and Driving – October 2007 to present
 - Project Coordinator for Project Safe Neighborhoods in Wyoming: A national initiative directed by the US Department of Justice aimed at reducing gun crimes and violence in this country. Initiative is currently in its fifth year of operation in Wyoming.
