## International College of Angiology

### Founding Fathers and Past Congresses

The founding fathers of the International College of Angiology were Dr. Saul Simon Samuels and Dr. Rene LeRiche. It was Dr. Saul Samuels who in 1942 coined the name “Angiology” from the Greek words meaning the “science of the blood vessels.” The International College of Angiology was organized and chartered in 1958, in order to encourage, support, and facilitate research and education in vascular diseases. It was the founding fathers of the International College of Angiology that have made our College unique, in that it integrates the discipline, knowledge, and skills of several specialties, which treat the many faceted illnesses that result from disorders of the vascular system.

### General Program Information

#### Congress Description/Objectives

The overall mission of the 61<sup>st</sup> Annual World Congress of the International College of Angiology is to bring together basic and clinical scientists to share current knowledge and techniques in angiology to update the pathophysiology of disease, clinical diagnostic methods, and treatment for improved healthcare delivery and future research.

This program will provide a forum for the synthesis of *State-of-the-Art* information that encompasses the pathophysiology, clinical diagnosis, and treatment of cardiovascular diseases as they are encountered by primary care physicians, vascular, general, thoracic, cardiothoracic, and cardiovascular surgeons, neurosurgeons, cardiologists, internists, and cardiology and vascular interventional radiologists. **The theme of the 61<sup>st</sup> Annual World Congress of the ICA is “A World of Opportunities in Vascular Medicine.”**

This Congress is designed to meet the specific educational needs of medical professionals involved with the management and treatment of cardiovascular diseases as they are encountered by primary care physicians, vascular, general, thoracic and cardiovascular surgeons, cardiologists, interventional radiologists, neuroradiologists, fellows and residents of the above specialties, vascular biologists, their staff and nurses.

The objective is to offer a serious academic forum to those physicians and allied healthcare personnel interested in research, education and clinical investigation in the field of cardiovascular medicine and surgery.

The intention is to provide an in-depth review of the spectrum of topics related to the management and treatment of patients with cardiovascular and vascular disease. Special emphasis will be placed upon evolving trends, therapies, and minimally invasive treatment of cardiovascular disease. The congress will feature internationally renowned faculty, and recognized leaders will discuss state-of-the-art techniques in the management, diagnosis and treatment of vascular disease. The focus will be on surgical, percutaneous and medical management from peripheral vascular disease to coronary and cerebrovascular disease and abdominal aortic aneurysms offering a comprehensive review of what is new in management, techniques, approaches and prevention.

This Congress is designed to offer a serious academic forum to those physicians and allied healthcare personnel interested in research, education, and clinical investigation in the field of cardiovascular diseases. The congress is intended to provide an in-depth review of the spectrum of topics related to the management and new treatment modalities, including diagnosis, assessment, intervention, risk factors management and surgery.

At the conclusion of this activity, the attendees should be more confident in their ability to:

1. Examine concepts related to cardiovascular diseases.
2. Discuss strategies to improve patient outcomes in managing cardiovascular diseases.
3. Analyze treatment strategies that involve complex patient situations with multiple contributing risk factors.

#### Learning Objectives

After completion of this activity, participants will be able to:

1. Describe and apply the value of an integrated approach to the diagnosis and treatment of cardiac and vascular disease.
2. Assess and differentiate between competing technologies for vascular intervention.
3. Choose when and how to appropriately apply various interventional and non-interventional procedures in the treatment of vascular disease.
4. Describe new developments and techniques in the diagnosis, medical management, and treatment of cardiac, peripheral vascular and cerebrovascular disorders to make improved patient care decisions based on outcome and cost.
5. Enhance knowledge in the practice of treating vascular disease.
6. Identify and explore new research problems for future collaboration.

All presentations have a purpose while providing a balanced view of diagnostic and therapeutic options followed by constructive debate. These objectives are achieved through nationally and internationally recognized invited guest lectures, special symposia, oral and poster presentations and exhibits, highlighting the most challenging and controversial topics and procedures performed in interventional medicine. Submitted abstracts and invited guest lecturers serve as a major part of the overall program. A significant portion of the program is reserved for questions and answers between the presenters and the audience.

#### Disclaimer

The information provided at this CME activity is for continuing education purposes only, and not meant to substitute for independent medical judgment of a physician relative to diagnostic and treatment options of a specific patient's medical condition.

#### Instruction to Speakers

We remind speakers presenting **submitted** oral papers, their presentations are limited to ten (10) minutes with an invited discussion following the session. Speakers presenting submitted electronic poster presentations must limit their presentation to seven (7) minutes. **SPEAKERS MAY VIEW THEIR PRESENTATIONS UP TO 30-MINUTES PRIOR TO THEIR SESSION.**

## Accreditation

### AMA

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Ohio State Medical Association (OSMA) through the joint providership of OhioHealth and the International College of Angiology. OhioHealth is accredited by the OSMA to provide continuing medical education to physicians.

OhioHealth designates this live activity for a maximum of 18.25 *AMA PRA Category 1 Credit(s)*<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

### ASRT

OhioHealth will be submitting an application to the American Society of Radiologic Technologists (ASRT) to provide CE credits for this activity.

### NURSING

The Ohio Board of Nursing recognizes events approved by a nationally recognized accreditation system of continuing education approval. This activity is awarded 18.25 *AMA PRA Category 1 Credit(s)*<sup>™</sup>.

### DISCLOSURE

As an accredited CME provider, OhioHealth must insure balance, independence, objectivity, and scientific rigor in all education activities we sponsor. Faculty and planners participating in sponsored activities must disclose any significant financial interests or other relationships. Any potential conflicts of interest will be resolved and revealed prior to the education start.

Dear Colleagues,

It is my honor to welcome you to the 61<sup>st</sup> Annual World Congress of the International College of Angiology being held in Columbus, Ohio, from October 10-12, 2019 at the beautiful Renaissance Hotel. This academic forum is jointly sponsored by OhioHealth Continuing Medical Education in cooperation with Grant Medical Center for those physicians and allied healthcare personnel interested in research, education, and clinical investigation in the field of cardiovascular medicine and surgery.

As the 15th largest city in the United States and the largest city in Ohio, Columbus has much to experience and enjoy. In addition to attending the meeting, I hope you take the time to explore. Downtown Columbus offers excellent restaurants and diverse entertainment venues. The capital city's incredible culinary scene features top-ranked chefs, one-of-a-kind restaurants and creative artisan desserts, beers, wines and spirits. Nationally acclaimed distilleries work together with brewers, coffee roasters, high-end cocktail bars, theatres, casinos, and music halls to deliver unforgettable nightlife.

If you love sports, Columbus is home to several major sports teams, including the NHL's Columbus Blue Jackets; MLS's Columbus Crew SC; Triple-A affiliate of the Cleveland Indians, the Columbus Clippers; and various The Ohio State University sports teams. You can catch a game no matter what the season!

I look forward to personally welcoming you to Columbus in October 2019. May you connect with old friends, create new friendships, enjoy this fabulous city, and leave with cutting edge knowledge that will benefit the patients that you serve.

Respectfully yours,  
Randall W. Franz, MD, FACS, FICA, RVT, RVPI

On behalf of the International College of Angiology, it gives me great pleasure to welcome all of you to the 61st Annual World Congress in Columbus. We are grateful to the participants who have come here to exchange their experience in the management of cardiovascular diseases.

This 2½ day congress will provide an excellent opportunity to discuss at length the latest development and emerging challenges in the field of angiology. We are pleased to have highly respected and world renowned speakers on the podium for this congress. During the congress, you will have ample opportunity to interact with fellow clinicians and scientists in an endeavour to advance the knowledge for patient care. This Annual World Congress will provide an opportunity for networking, as well as to renew old friendships and make new ones.

On your behalf of the ICA, it is my honor to give a hearty thanks to Dr. Randall W. Franz, Chairman of the Local Organizing Committee, along with his colleagues for their time, energy and dedication to make this congress a most successful event.

Again, it is with an esteemed sense of pride, I, on behalf of the International College of Angiology, welcome all of you and wish you a pleasant and stimulating time here in Columbus.

Sincerely,  
Kailash Prasad, MBBS (Hons), MD, PhD, DSc, FRCPC, FACC, FIACS, FICA

Dear Friends and ICA Fellows,

Together with our Program Chairman, Professor Kailash Prasad, our Local Organizing Committee Chairman, Dr. Randall W. Franz, and our Scientific Committee Chairman, Professor Otmar M. Pachinger, on behalf of the International College of Angiology, OhioHealth Continuing Medical Education, and OhioHealth Heart and Vascular, we are delighted to welcome you to Columbus, Ohio, to our 61<sup>st</sup> Annual World Congress “*A World of Opportunities in Vascular Medicine.*”

This event is the continuation of an enormous collective effort that began in 1958 with the founding of the International College, was subsequently thoroughly invigorated by Drs. John and Lucy Chang, and is now brought into the forefront of the 21<sup>st</sup> Century by our current stellar leadership. We have evolved beyond isolated specialties into an integration of disciplines, guided by the vision of developing the most innovative technologies and the mission of providing unsurpassed care. As evidenced by our outstanding program, we once again demonstrate that our ideals are upheld by the strength of our actions.

I would finally like to express my sincere gratitude to all those who have transformed this meeting from the expression of a dream into the truth of a reality.

Sincerely,

Ernesto
