## **HOTEL AND MOTEL GUIDELINES FOR FERRET FIESTA**

**Note:** Because some ferret owners have been irresponsible & have left their rooms in poor condition, our show is finding it more difficult to find ferret friendly hotels/motels. For this reason, the Ferret Fiesta on behalf of the Ferret Underground has issued the following rules for those traveling with ferrets so that we may continue to be welcomed at hotels/motels.

1. Ferrets are NOT to be placed on the floors and/or furniture of the room; this includes the bed.
2. Ferrets are not to be let loose to run in the bathrooms/or main room for exercise.
3. If using a playpen to let your ferret get exercise, place a piece of tile, or thick plastic underneath to protect the floor from accidents or digging. Blankets do not work. This is to protect the hotel's carpet as well as protect your pet. You do not know what was on that floor before you checked in.
4. Bring paper towels & trash bags for disposal of ferret litter & trash. Don't use hotel trash cans as the smell will penetrate the cans.
5. Bring your own towels for bathing ferrets. Hotel/Motel equipment should not be used for cleaning up accidents.
6. Motel Check Out: Clean up any trash on the floor before checking out of the room. If the ferret has kicked litter or food on the floor this should be cleaned up by the owner before check out.
7. Motel Check Out: Rooms should be sprayed with an odor neutralizer (such as Febreeze or Oust) to remove ferret odors right before checkout.
8. Ferrets must be kept in their cages when going through the motel lobbies and hallways.
9. Motel Check Out: Please leave your room looking the way it was when you checked in.
10. Please be honest with the Hotel/Motel staff that you have ferrets in your room.
