

## *Just For You Center*

*Wigs-Accessories-Salon Services*

We are now offering transitional hair styling and coloring for clients whose hair is starting to grow back following the completion of chemotherapy.

If you are not quite ready to go back to your salon, you can have your hair cut and colored by our personal stylist, Tony Corrado.

Tony has been in the hair business for over 25 years and has experience working with women who are in the process of recovery.

He will assist you in transitioning your look from the *Just For You Center* wig to your newly growing hair.

Please call the Center at 973-887-5930 for more information or to schedule an appointment.
