

Satellite Master Antenna Systems (SMATV)

Free-to-guest programming is available to hotels and motels as well as dormitories, hospitals, marinas, RV parks, lodges and nursing homes. Commercial Connect Television Inc. designs, engineers and installs custom SMATV (Satellite Master Antenna Television) systems for many types of properties.

Domestic cable networks, such as ESPN, CNN, HBO, Discovery etc., and many international channels are available for your system. The SMATV system processes the digital satellite signal and delivers the free-to-guest signal through the existing cable system.

HERE ARE BENEFITS OF THE SMATV SYSTEM

- Access to hundreds of channels, customized to your property
- No need to re-cable your property (save the expense)
- Digital Technology
- High Definition Programming
- International Channels Available
- Monthly Savings over Cable
- Great Financing Options Available

CUSTOM CHANNEL LINEUPS

The programming is chosen by the property for a truly customized channel lineup. We can add channels to the local "off-air" channels, pay-per-view, (VOD) channels and even closed circuit TV channels. We work with you every step of the way to make sure you get the system, programming and service that is right for your property.
