*Field Operations  
Coordinator*

### **REPRESENTATIVE PROJECTS**

**Private Residence | Wetland Restoration**  
Woburn, MA

**Private Residence | Habitat Protection**  
Newbury, MA

**Commercial Property | Invasive Plant Management**  
Peabody, MA

**Private Residence | Habitat Restoration**  
Gloucester, MA

Martin is a graduate of Northeast Vocational High School specializing in culinary arts. Since then He has deviated from that career path to perform conservation and habitat restoration efforts across the country. His first experience with conservation was in the fall of 2021 to spring of 2022. Where he rebuilt several miles of trail across multiple state and national forests. And later in the Fall of 2022 He took part in a habitat restoration project along the Virgin River in Utah. He would later go on to lead two conservation crews in Rocky Mountain National Park.

Martin joined DeRosa Environmental Consulting in the summer of 2024. He is currently focusing on field work and coordinating field staff and summer interns. Martin's experience with DeRosa includes restoring wetland resource areas, Invasive plant management, restoring local habitats, and site monitoring to ensure compliance with local and state permits.

Martin's technical skills include felling operations, dry stone masonry techniques, explosives safety measures, and team management. He gained professional experience as stated before, working as a Crew Lead for two crews for the Rocky Mountain Conservancy

Martin grew up in Woburn and has had a love for the outdoors since he was young. Some of his hobbies include climbing, fencing, hiking, and reading.
