Students: SoCal EMT/Fire Training's application for renewal of approval to operate was denied by the bureau because the bureau determined the application did not satisfy the requirements to operate in California, SoCal EMT/Fire Training is appealing the bureau's decision. Rest assured, courses will be fully functional and students are encouraged to continue with their progress during this process.

As always, SoCal EMT/Fire Training is committed to providing the best education for students seeking EMT licensure. If SoCal EMT/Fire Training loses the appeal, that may result in closure. If closure happens, SoCal EMT/Fire Training will be requesting that the bureau honor all enrollment agreements prior to the date of closure.
